Stephenson AUCTIONEER 1509 Capitol Avenue One-half block east of the Postoffice on Capitol Ave.

Children in Grade Schools Only Half a Day-No Room

\$3,500,000 Being Spent on Technical High School While Lothrop, Dundee, Minne Lusa, Park and Kellom Schools Are Overflowing

New Technical High School Will Care for Only 3,000 Students; While There Are 35,000 Enrolled in All Public Schools in Omaha.

According to the Superintendent, There Will Be Enough Students to Fill the New Technical High School Building Completely by the Time It Is Finished. OUR SCHOOLS WILL STILL BE CROWDED.

Many of the children in Minne Lusa, Dundee, Lothrop, Kellom and Park schools are permitted to attend school only half a day, because the buildings are not large enough to accommodate them all day, according to officials of Omaha's public school system.

With this condition existing, and with a never-ending demand for additional grade schools to house our boys and girls, the Board of Education is spending \$3,500,000 taxes on ONE school for only 3,000 students.

Half of the money being spent on the new Technical High school would have provided building with ample facilities for 3,000 or more students—but it would not have provided them with luxuries that are not given to the remainder of Omaha's 35,000 school children.

A Technical High school costing \$1,500,000 would have left

A new Technical High school is absolutely necessary. Any person who says this is not true is ignorant of the facts, or unpatriotic. But with the cost of everything still high, and with taxes still going skyward, only a necessary amount of the people's money should be used for this new

The people are willing to spend every dollar necessary to make our public school system efficient-But We Do Not Believe They Want to Make Any Part of It Extravagantly Luxurious When Small Children Are Being Literally Crowded Out Because of Lack of Space in Other Schools.

The New building has 500,000 square feet of floor space, according to architect, or nearly twelve acres. This means 166 square feet for each pupil

> It is estimated it will take \$250,000 a year to operate this building, exclusive of interest and teachers' salaries

Cost Per Pupil of Seating Capacity

Entire School System \$ 232.97 per pupil Central High.....\$ 370.24 per pupil New Technical High......\$1,166,00 per pupil

Cost or Value of All School Buildings All Present Buildings......\$8,454,086.70 Central High**\$ 977,813.40 New Tetchnical High......\$3,500,000.00 *Appraised value by expert builders. **Actual cost, including \$109,803.85 spent on building alone after Dodge street grading.

Enrollment in All Schools Entire System*35,000 Central High 2,841 Technical High 2.727 "This figure estimated by Board of Education office. Total in 1921 was \$4,674. Estimated Technical enrollment by time new building is finished is 3,000.

Do the People Want It?

The School Board gives as one of its chief reasons for erecting a new Technical High school at a cost of \$3,000,000: "The People Want It."

If the taxpayers-and you are one-don't want a \$3,500,000 Technical high school, but prefer a \$1,500,000 building with adequate facilities, the School Board should be told. Members of the B: d want your advice.

Grade School Needs

The effort and money new being expended on the new Technical High school building, could easily provide a Technical high school with adequate facilities, and RELIEVE THE GRADE SCHOOL SITUATION

A fund of \$2,000,000, utilized for grade schools would relieve the present crowded condition. This fund would be available if only \$1,500,000 were being spent on the Technical High school.

TO THE PUBLIC: Our Advertisements are not to be construed as an attack on any public official or governing body. We believe all our public officials are doing what they believe a majority of the people want. We believe the people may have different ideas when they know all the facts. Our plan is to present these facts, as we see them, to the public as clearly and as forcefully as we can. Our tax bill is so high that we believe the public should know more about it.

> OMAHA REAL ESTATE BOARD **BUREAU OF TAXATION**
