stock and bond markets. Today it found further reflection in the European bonds on our own exchange, of which the French republic 8 per cents rose 1 1-8 points, the 7 1-45 t 5-8 and the Belgian 7 1-2 per cents 1 points on Monday, following news of the supreme court decision dissolving the merger of these commands.

Ignoring alike the advancing of stock exchange call money rates and the reporting of the soldiers' bonus bill by the senate committee, every United States war loan on the list went simulteanously to the subscription price or higher—the first time this has happened in the history of the war debt. Meantime the general rise in stocks continued, though with more irregularity than

New York. May SL-Trading in the bond market today was noteworthy, chiefly from the fact that practically all the Liberty issues sold at par or better on very heavy transactions embracing several individual lots of \$1,000,000.

In the main the bond list was uncertain, slithough investment efferings among transportations and high grade industrials were disposed to strangthen. That tendency also applied to most of the foreign loans, Mexican is and is excepted.
