

Rail Strike May Be Directed From Offices in Canada

Move Would Be Made to Evade Recent Supreme Court Decision Holding Unions For Property Damage.

Chicago, June 12.—While additional wage cuts swung over the heads of 350,000 more railway employees and awaited only formal release by the railroad labor board to slash another \$40,000,000 from the pay rolls of the carriers, it was rumored today that any rail strike growing out of present threats may be directed and financed from Canada as a means of evading the recent decision of the United States supreme court holding unions liable for damages caused by their members.

Viewed as Legitimate.

Leaders of the rail unions said to be contemplating the move viewed the establishment of Canadian headquarters as legitimate in view of conditions caused by the supreme court opinion, because the unions are international organizations. Final penalties in case of a walkout could thus be averted, it was said.

It was expected the new wage reduction order will increase the total cut from railway workers' wages to approximately \$150,000,000 a year. Clerks, signal men, stationary firemen, oilers and marine department employees will join the shopmen and maintenance of way employees as victims of the slash.

Wisner Man Named to Head Swine Breeders Association

Norfolk, Neb., June 12.—(Special Telegram.)—The Nebraska Hampshire Breeders' association was reorganized here when half a hundred swine producers held an interesting session. Livestock growers from western, eastern and southern parts of the state were present.

William Gross of Wisner was elected president; E. B. Morris of Clearwater, vice president; Q. D. Dauphin, Tilden, secretary-treasurer. These officers are also members of the board of directors, which includes in its membership E. P. Sullivan of Oakdale, C. P. Paulson of Nora, E. E. Johnson of Genoa and John Volk of Battle Creek.

McCook Swimmer Killed by Contact With Power Line

McCook, Neb., June 12.—(Special Telegram.)—Lawrence Clayton, 23, of McCook was killed when he came in contact with the power line of the McCook Electric company, about two miles south of McCook, at a point where the line crosses the Republican river.

Darrel Lytle and Charlie Beard were both burned and shocked but escaped death. Clayton was attempting to rescue Lytle from the wire.

They Play for The Bee Radio Fans

The West sisters, string quartet, entertained for radio fans who listened in last night on The Bee's concert, which was broadcast from the Omaha Grain exchange at 8:15.

Gen. Chang Renews Fierce Fighting Against Gen. Wu

Armistice Only Ruse—Li Yuan-Hung Accepts Presidency—To Abolish Military Governors.

London, June 12.—The army of Sun Yat Sen, southern Chinese leader, has captured Kanchow Ki, in Kiangsi province, according to a Hong Kong dispatch to the Daily News. The fall of the city was preceded by several days of severe fighting.

Tientsin, China, June 12.—(By A. P.)—Gen. Chang Tso-Lin's proposals for an armistice with Wu Pei-Fu appear to have been simply a ruse to gain time for the defeated Manchuria war lord. Heavy fighting broke out Friday between Chinwangtao and Shanhaikwan. The battle has been raging for the past three days.

Pekin, June 12.—(By A. P.)—China, after 10 days virtually without an executive head functioning in Peking, again has a president and the nucleus of a cabinet. Moreover, if indications are borne out, the two will have a fair share of support from the south China section, whose opposition to the old government has done much, if not most, to keep alive civil war for the past five years.

Li Yuan-Hung, who was president until the monarchical coup of 1917 forced him from office, again is in power. He came to Peking yesterday and resumed office, and his first official act was to nominate Dr. Wu Ting-fang, former minister at Washington, to be his premier. It is understood that Dr. Wu had consented to accept this office before Li left his retirement in Tientsin to re-enter again the turbulent theater in Chinese political life.

Power at Canton.

Dr. Wu has been a power in the Canton government since that administration arose as a protest over the very circumstances which ousted Li, and his adherence to the new executive, if confirmed, is likely to do much toward solidifying the country in its support.

Li comes at the behest of many members of the old parliament which dissolved in 1917, and at the urgent appeal of Wu Pei-Fu, dominant military leader of China. He was reluctant to come and stood out for more than a week against the almost frantic pleas of leaders in the movement for a unified China that he reclaim his office.

As assets of his new venture he may count on the solid support of Wu Pei-Fu, the good will and confidence of a large proportion of the former parliament, now reassembling and re-establishing itself as at least the temporary representative of the people, and a more nearly complete suppression of banditry than has been the case in many years. This last largely is due to Wu Pei-Fu's energetic campaigns, particularly that against Chang Tso-Lin, the Manchurian war lord who recently sued for an armistice.

Sun May Fight.

As liabilities he may count upon the open opposition of Dr. Sun Yat-sen, president of the South China government, and so many of the old parliament members as Dr. Sun has been able to induce to support him. Dr. Sun, too, has a good force of troops in the field, some estimates placing their number as high as 150,000. Dr. Sun has expressed himself as willing to fight for the place at the head of China's affairs, which he claims as chosen representative of what the Canton proponents declare is the only constitutional government in China. General Wu has declared that Dr. Sun's military operations will avail nothing, however, and has decried Sun himself as la-

Fenton to Blame for Brown Parole

Warden Shoulders Responsibility—Says There Were No Black Marks in Record.

Lincoln, June 12.—(Special.)—"If there is anyone to blame for the release of Fred Brown from the penitentiary it is certain members of the Omaha police force and myself."

That was the statement given to newspapers today by Warden W. T. Fenton.

"I'm the man who dug Brown up and pushed his parole through," the warden continued.

"As for some of this talk that all a convict needs to do in order to get a parole is to make friends with Christian people and ministers, that is 'bunk.'"

"There has never been a single church worker who has taken an interest in the convicts at this penitentiary who has asked the board to parole them. They visit the convicts at the penitentiary and have in some instances hunted employment for them when it looked as though the men would get paroled."

"I became interested in Brown first when I learned of his wife in Omaha suing him for divorce and believed an attorney in Omaha was endeavoring to take all of Brown's property away from him. I looked up Brown's prison record and it was absolutely perfect. There wasn't a single black mark registered against him."

Hurricane Results in 60 Deaths in New York

Tempest Breaks.

The storm followed a day of intense heat and was as sudden as it was violent. It was preceded by an hour of dead calm, while ominous blue-black clouds piled up above the western horizon. Then came the tempest, accompanied by the roar of thunder and flashes of lightning.

Frail buildings were crushed by the mighty weight of the wind; electric wires were torn away and in the darkness and torrential rains the rescuers could do little until the storm had subsided. Hysterical men and women, tearing blindly at the wreckage, hindered rather than helped the workers engaged in lifting ruins of the wheel.

Huge trees in Central park were uprooted and tossed across the driveways.

Five people were hurt when the wind blew out great plate glass fronts of stores along Broadway and scattered haberdashery and clothing along the street.

In Brooklyn lightning struck a street car and knocked six passengers unconscious.

Hits Great White Way.

Electric signs along the Great White Way seemed special targets of the cyclonic wind. A huge sign extolling the virtues of an automobile tire was torn loose from its moorings, topped over onto a skylight, carried a smaller sign with it in its plunge and started a fire from disconnected wiring.

Ferris Wheel Wrecked.

Death came in unexpected ways. A 50-foot high ferris wheel in the Classon Point amusement park, abutting into Long Island sound, collapsed when it was struck by a heavy bolt of lightning just as the storm broke over that section. The revolving wheel was crowded with more than 60 women and children.

State Sheriff's Dad Enjoys Man Hunt

Lincoln Hyers, former Cass county sheriff, Nebraska penitentiary warden and father of State Sheriff, Gus Hyers, is 79 years old, but he still likes to hunt fugitives.

"Grandpa Hyers, as he is called here, spends his days loafing around his son's house. The other night when word was received at the Hyers home that a Lincoln fireman had taken a shot at Fred Brown and Brown was supposed to be hiding a mile and a half from the Hyers' home, grandpa woke up and heard it."

Suddenly members of the family saw grandpa emerge from his room, a gun and a flashlight in his hands. He walked to the place where they were searching for Brown.

"I guess I'm too old," grandpa said today. "I fell down twice and lost my flashlight and gun. The chief of police picked me up when I was sitting on a curb stone and took me back home."

There is an old saying that money talks, but much of the money of the world is now unable even to whisper.

Loaf of Bread on Way 50 Cents of Every \$1 Goes to Middlemen From Farmer to Table

Washington, June 12.—A loaf of bread, the joint commission on agricultural inquiry said in a report published today, offers a striking example of what happens to the farmer's products in the way of cost and profits before it reaches the family table.

About 50 cents out of each dollar the consumer pays for bread, the report said, is absorbed in cost of distribution. The farmer gets only 28.6 cents in the local market for the wheat needed to produce it. A survey showed that the average cost of getting the wheat ready for the baking stage was 8.4 cents, while the average cost of manufacturing it into bread was 10.16 cents.

A considerable factor in the baker's cost of distribution, which averages 15.76 cents of the consumer's dollar, is the service element," said the report.

"Our inquiry does not indicate that the manufacturing baker has exacted an undue profit in taking the 5.3 cents from the consumer's dollar for manufacturing bread and distributing it to the retailer."

Simmons Murder Trial Scheduled for Early Date

Butte, Neb., June 12.—(Special Telegram.)—Walter Simmons, charged with the murder of Frank Pahl, Spencer (Neb.) automobile dealer, was brought here today and bound over to the district court for trial.

An early trial at a special term is scheduled. There was no repetition of mob violence when Simmons was brought to Butte on this occasion. He has been held in the Lincoln state prison for safe keeping.

Dances in School Buildings O. K., Supreme Court Rules

Lincoln, June 12.—Allowing dancing parties in the high school buildings was not an abuse or desecration on the part of members of the school board, it was decided today in an opinion handed down by the Nebraska supreme court today in affirming a decision of the lower court denying an application for an injunction

RADIO

Vacuum Tube Used in Various Ways

Sensitive Device Amplifies Sound Wave as Well as It Generates Currents.

By JOHN E. KENNEBECK. (This is the eighth installment of The Bee's story of radio.)

The vacuum tube is a rapid change actor. In one way it makes measurements in the millionths of an inch and again it is amplifying sound waves or is amplifying heartbeats of a patient to aid physicians to diagnose a case.

A noted professor of physics has proven that the vacuum tube is an ultra-microscope in that it is able to register measurement to the slightest degree by the connection of a galvanometer or measuring instrument to the plate and grid of the tube.

Similarly, the vacuum tube is used in science as a weighing machine. The engineer will find use for the ultra-microscope in measuring stresses, while the botanist has already employed it in measuring "growth pulses" of plants. It is doing also a great humanitarian good. It is helping the deaf to hear in that the vacuum tube amplifies sound-waves. Through the aid of a vacuum tube, it is now possible for a physician in New York to listen to the heart beats of a patient in San Francisco.

Thus we understand the sensitivity of the vacuum tube that is considered the nerve of radio outfits.

Radio Fans, Beware of "Bootleg" Tubes

The following appears in the American Radio Journal recently and has a bearing on the interests of radio amateurs in general:

"Owing to the shortage of vacuum tubes, numerous 'pirates' have entered the field in violation of patents controlling the manufacturers, and are hawkling 'bootleg' tubes among dealers and consumers. The legitimate manufacturers have spent years perfecting vacuum tubes and have attained to a high degree of perfection that cannot be approached by the bootleggers. In fact, many of the 'bootleg' tubes will not work at all and the remainder, at best, last only a few hours in operation. For this reason, no guarantees are given by

the pair. Police learned that Miles and Miss Wilcox had taken out a license to wed in Council Bluffs. Later, Detectives Summitt and Davis found the couple at the Keen hotel in Omaha, where they had registered. Police got in touch with Mrs. Wilcox in Lincoln. They told her of the license. "Oh, well, if they're married, let 'em go," she said. So the newlyweds are free.

Thompson, Belden & Co.

Socks for the Tiny Tots and Their Flapper Sisters Too

They say big folks are little folks in lots of way—and socks are one of the ways the big sister resembles the small one. But after all you can't blame them if they are desirous of keeping cool.

The children's socks in the three-quarter length have the cuff top and are of mercerized lisle with the derby stripes. In black, white and cordovan. Small sizes, 65c. Large sizes, 75c.

Their older sisters' come in the three-quarter length also. They are very smart, fashioned of silk and lisle, with fancy striped two-tone effects. Price \$1.25.

The secret of goodness

You know how good Heinz Pickles and Sauces and Relishes are. Heinz Vinegar is one of the quality ingredients that make them so good. Sold everywhere. Four kinds—Malt, Cider, White and Tarragon. In Heinz sealed bottles.

HEINZ

PURE VINEGARS

SYRUP PEPSIN IN OLD AGE

Much used by elderly people for constipation, biliousness, headaches, etc.

MANY men and women, as they grow older, suffer constantly from little ills. The cause is the poisons produced by chronic constipation, resulting in headaches, depression, bloating, sour stomach, bad breath, etc. A single bottle of Dr. Caldwell's Syrup Pepsin will prove to you that you can so regulate yourself that elimination will occur promptly every day. Increased doses are not necessary. It is a combination of Egyptian Senna and other simple laxative herbs with pepsin. The cost is only about a cent a dose.

In spite of the fact that Dr. Caldwell's Syrup Pepsin has been on the market 30 years

ECZEMA IS ONLY SKIN DEEP

It's better medicine will cure Eczema. Only the best medicine will cure Eczema. Only the best medicine will cure Eczema. Only the best medicine will cure Eczema.

"Soothes Like a Blow" "I suffered for 10 years with Eczema in the worst form. Itched all over the body. I tried all kinds of medicine but got no relief. I finally got a blow from Dr. J. C. Williams' Eczema Ointment. It cured me in 10 days. I am now well and happy. Write for free leaflet. Dr. J. C. Williams, 100 N. 3rd St., Minneapolis, Minn. U. S. A. Money Refunded if Not Satisfied."

Always in Good Taste—

Post Toasties

—improved corn flakes

Made by Postum Cereal Co., Inc. Battle Creek, Mich.

Food Fun—

"We're here and we're glad!" the kiddies say—it's appetite's answer to a helping of Post Toasties. No coaxing necessary; it's fun to eat. One taste of these crisp, golden-brown flakes of goodness and then—

"Let's Go!"

A willing appetite forwards its enthusiasm to body and brain.

That helps digestion.

There's energy-building nourishment in Post Toasties, and added nourishment with the cream or milk.

Let this joyous, healthful food bring inspiration to your breakfast tomorrow. Try it for a quick lunch. A Post Toasties supper for the children will prepare the way for sweet dreams.

Convenient—serve right from the package. Economical—generally costs less than a cent a serving.

Post Toasties are known everywhere as the quality corn flakes. It will pay you to order by name, and make sure of getting the Yellow and Red package.
