Market, Financial and Industrial News of the Day

Omaha Grain

Omaha, June 13.

Grain markets generally were lower in the early session, but following the initial break prices steadied. There were reports of the seaboard buying of wheat, corn and rye in small lots, presumably representing export business. Messages from the seaboard, however, claim Europe continues to resell Manitobas and winters. Offerings of Argentine and Manitoba wheat are made at concessions. Report from the Canadian growing wheat crop are exceedingly bright.

Receipts at Omaha totaled 35 cars the bulk of which consisted of corn and compared with a total of 126 cars last year. Total shipments were 96 cars against 135 cars a year ago. Cash wheat offerings were in fair demand with prices generally ½c lower than yesterday. Corn sold readily at ¼c to ¾c lower prices. Oats in good demand with prices ½c lower. Rye was quoted 1¼c lower. Barley nominally unchanged.

New York Coffee.

New York, June 13.—The market for coffee futures was generally lower today under scattered liquidation or selling promoted by slightly easier Brazilian cables, better weather in Sao Paulo and a feeling that the easier ruling for European exchange rates might restrict demand from that quarter in Brazil. After opening 4 points lower to 3 points higher active months sold about 8 to 12@points net lower with July easing off to 10.15c and December 9.72c. The close was a few points up from the lowest on covering with the market 9 points lower to 3 points higher with the very late positions relatively firm. Sales were estimated at about 36,000 bags. July, 10.18c; September, 10.01c; October, 9.85c; December, 9.75c; January, 9.72c; March, 9.44c; May, 9.56c.

Spot coffee was reported in moderate demand at 11¾c for Rio 7s and 14¼c to 14¾c for Santos 4s. Very few offers for forward shipment were reported in the cost and freight market. Offers for prompt shipments were about unchanged, including Santos 2s and 3s at 16.10c to 16.50c and Rios 7s at 10.40c to 10.60c, American credits.

Chicago Grain

By CHARLES D. MICHAELS.
Omaha Bee Leased Wire.

Chicago, June 13.—Short covering by some of the leading local professionals caused a sharp advance in wheat, after an early break to a new low on the present downturn. The finish was 3-8@1-2 higher. Corn held within narrow limits and lost 1-8@1-4c. Liquidation was on in oats with the close down 1-2@1c, the lowest on the crop. Rye was 1-2@1c higher.

There was nothing in the news to cause uneasiness on the part of the shorts in wheat, but at the inside figure, July was off 7 1-8c from the high of the previous week. Despite heavy overnight margin calls, the amount of early liquidation was surprisingly small. The rally was easily attained.

The fresh sales of the day were not large. Liverpool was off ⅝@1¼d. Demand was slow. Harvesting of the new winter wheat crop is making rapid progress.

Traders on Both Sides.

Commission houses and local traders were on both sides of the corn market, but they had a range of only ⅛c on the nearby deliveries. Local bulls show a disposition to buy the December on the breaks. Crop reports were favorable. Movement from the farms show a falling off. Elevator interests picked up spot lots at ⅛c better price compared with the July. Receipts were 186 cars. Exporters bought 175,000 bushels here.

Liquidation was on in oats and stop loss orders found the market poorly supported. It was impossible to execute such orders at limits on the way down. Trade was fair with some buying credited to cereal interests. Omaha houses also bought. Crop reports were decidedly spotted. Receipts were 72 cars.

Rye was bought freely by houses with seaboard connections and a fair export business was under way. Pressure came mainly from hedgers.

Pit Notes.

Reports from the northwest, from experts and others who have been over the wheat fields, are most favorable. In the middle west and southwest there is a feeling that nothing of consequence can happen to the winter wheat crop.

John Bunnell who has been in Europe for two months is back and talking bearish. He says Europe will not pay present prices for large quantities of hog products, while last year Europe bought freely at lower levels.

Not only is there more than enough wheat in the visible supply to provide for domestic consumption for the balance of the crop year, says Thomson & McKinnon, but there are now receipts of 500,000 to 750,000 bushels daily. Offerings of new wheat are increasing. There must be a better demand to overcome the weight of old stocks and new offerings.

Foreign rates from Montreal declined 6d today following a cut of like amount Monday. London rate is now is 6d and to Liverpool is 9d.

Visible Grain Supply.

New York, June 12.—The visible supply of American grain shows the following changes:

Wheat, decreased 533,000 bushels.
Corn, increased 3,167,000 bushels.
Oats, decreased 650,000 bushels.
Rye, increased 210,000 bushels.
Barley, increased 236,000 bushels.

Dried Fruit.

New, York, June 13.—Evaporated Apples—Source.
Prunes—Quiet.
Apricots—Steady.
Peaches—Firm.
Raisins—Easy.

New York General.

New York, June 13.—Flour—Easy; spring clears, $5.50@6.25; soft winter straights, $5.75@6.25; hard winter straights, $6.85@7.25.

Wheat—Spot, steady; No. 2 red, $1.27; No. 2 hard, $1.28; No. 1 Manitoba, $1.32½; and No. 2 mixed durum, $1.26 c. i. f., track, New York to arrive.

Corn—Spot, barely steady; No. 2 yellow and No. 2 white, 77½c; and No. 3 mixed, 77¾c. c. i. f., New York all rail.

Oats—Spot, easy; No. 2 white, 46½@47c.

Lard—Steady; middle-west, $12.00@12.10.

Other articles unchanged.

New York Cotton.

New York, June 13.—Although moving uncertainly at times in today's early trading, the cotton market seemed to have established itself on the upyard trend and scored net gains of 10 to 20 points before midday. At first hour, drop of 12 to 20 points was due largely to liquidation by weak-kneed longs. Liverpool's refusal to follow the local decline aided in the improvement, which was furthered in the afternoon when the list met less resistance and advanced with renewed vigor to a level of 36 to 45 points gain over Monday. Realizing was absorbed and closing prices were around the top.

New York Sugar.

New York, June 13.—The raw sugar market was easier with Cubas quoted at 2½c, cost and freight, equal to 4.55c for centrifugal. Trading was light, the day's business consisting of only 21,000 bags of Cubas to a local refiner for July clearance at quoted prices. The raw sugar futures market was easier under renewed selling believed to be for out-side account prompted by the decline in the spot market. Closing prices were at about the lowest level of the day and from 4 to 7 points below yesterday's final quotations, although trading was less active. July, 2.81c; September, 3.02c; December, 3.10c; March, 3.09c.

In refined a smalled inquiry was reported for both domestic and export account, although there was no change in quotations which range from 5.80c to 6.00c for fine granulated.

Refined futures, nominal: closing July, 6.25c; September, 6.35c; December, 6.80c.

Drygoods.

New York, June 13.—Cotton goods markets were quieter today with prices maintained very generally in unfinished lines. Further slight advances were made in some of the unfinished goods. Yarns sold a little more freely. Silk goods markets tended toward unsteadiness owing to the sustained high cost of raw material.

Advances named in worsted goods were ascribed to the advancing cost of wool. Burlap markets were slightly easier. Jobbers reported a steady trade in small lots for immediate shipment and some gain in forward orders.

Chicago Butter.

Chicago, Ill., June 13.—Offerings of butter were liberal on the butter market, but the demand was a little more active today, giving the market a steadier tone at the decline. Most of the business on 92 score was done at 24½c but toward the close many bids of 24½c were turned down and there were a few sales at 25c. Trading in medium grades was quite active at the regular prices. Cars of centralized were weak and hard to sell and 90 score could be bought at 24½c, with 88 and 92 score cars being offered at 21½c and 22½c respectively.

Financial

New York, June 13.—The stock market, the wheat market and the cotton market recovered simultaneously today and the immediate cause for the reversal of form from that of yesterday appeared to be the same in all three. Outside speculators for the rise who had overstepped the line of prudence had been forced to sell, but professional speculators for the decline had seemingly sold quite as heavily, and were not disposed to delay in "covering" their sales by purchases at the much lower final prices of yesterday. On the stock exchange the result was that after a preliminary decline prices advanced with considerable rapidity today throughout the list; the net recovery, even after fractional reaction toward the close, ranging in active shares from 1 to 3 points. The strength of the railway shares was noteworthy. A few of them gained more ground than they had lost the day before.

On the whole, this recovery gave evidence of the strength of the general situation, to the extent that it witnessed the prevalent conviction that improvement in trade and continuing easy money are the paramount influences. That it means return to the solicited speculation of a few weeks ago does not equally follow. "A speculative outside public," which has been as roughly handled as it was in the markets of the last few days is extremely apt to spend some time in nursing its financial bruises. But the financial position is none the worse for that.

The day's weakness in foreign exchange stood out in sharp contrast with the action of these other markets. Even sterling declined 2 cents, reaching the lowest rate since June 1, and marking a decline of 4⅝ for the season's high level, reached a week ago. Continental rates, except for the German mark, declined with sterling. With the existing lack of definite information as to the probable next turn in the German situation, the opportunity open to speculation for the decline is evident. At some point in such a decline, however, the question of bona fide exchange bills will begin to play a part.
