We have seen a number of watch chains ornamented with a pretty charm in the shape of a watch case opener, which obviates the use of a knife or fingernail to open the watch. They are sent free on request by the Keystone Watch Case Company, of Philadelphia, Pa. Your jeweler here may have one for you; if not, send to Philadelphia.

The Keystone Watch Case Company is the largest concern of its kind in the world. Its capacity is 2500 cases per day. It manufactures every description of case, but its great speciality is that most popular of all watch cases, the Jas. Boss gold filled. These are equal in beauty and wear to solid gold—while they cost only about half as much. Boss and other Keystone cases are the only cases that have the non-pull-out bow or ring, which saves the watch from theft and accident. The Keystone Company does not retail, but our local dealers handle the cases and swear by the theft-proof qualities of the ring.
