

In a Social Way

Miss Winnie Kelly is a Kappa visitor in Omaha.

Miss Grace Cook, Vassar '03, is visiting Miss Mabel Stephen.

Mrs. Harley entertains Kappa Kappa Gamma at her home Monday night.

Fred Williams, an old University student, is visiting at the Sigma Alpha house.

Beta Theta Pi gives an informal dancing party at the chapter house tonight.

Miss Nell Morrison, from Kansas University is visiting her Pi Beta Phi sisters at the chapter house.

Mr. Phil J. Harrison, Delta Upsilon, was initiated Tuesday evening into the Senior society of the Innocents.

Miss Lorraine Comstock, of Omaha, was in the city Thursday visiting the Delta Gammas. She was present at the Phi Delta Theta party.

Delta Upsilon gave an informal party at the chapter house Thursday evening. Some twenty couples enjoyed the dancing and light refreshments which were served.

Phi Delta Theta gave a dancing party Thursday evening at Walsh hall. Some forty couples enjoyed Phi Delta entertainment and Eddie Walt's orchestra. Mr. and Mrs. Ralph Haggard were chaperones.

The second Band Informal of the year will be held tonight in the Armory. Good music is guaranteed and with the representatives of Colorado here a large crowd should be in attendance to entertain them.

Beta Theta Pi will give a party at the chapter house tonight in honor of the four Betas from Colorado. Three of these men, Foote, Tonkin and Owens play on the football team. Turman is an old football man who accompanied the team.

Alpha Theta Chi gave an informal dancing party last night at Walsh hall, at which about thirty couples were present. Light refreshments were served. The hall was decorated with symbolic cornhusks, scarlet and cream and frat colors. Dr. and Mrs. Roscoe Pound and Dr. and Mrs. Frederick Clements were chaperones.

An informal reception was held yesterday evening at the Episcopal club house. No special invitations were issued, but a large number of church people and friends of the club were present. By way of entertainment a number of musical selections were rendered, an impromptu program being arranged. The parlors were tastily decorated with chrysanthemums and white bunting.

Last Thursday evening an attempt was made by the young ladies of the University to swipe, that seems to be just the word for it, the signs from the offices of The Nebraskan's editorial and business offices. If the business manager had not been putting in "overtime" the thieves might have succeeded, but the handsome French bevel

plate signs are still safe. In view of the propensity of the weaker sex toward self appropriation, it might be well to place under desirable signs the word "Unswipeable."

Departmental.

Conferences in education 7 will begin next week.

The class in botany 1 is studying plant tissues.

The class in German 17 began practice teaching Thursday.

The class in German 17 will begin practice teaching today.

The University herbarium contains about 90,000 specimens.

The class in assaying began their initial work this week.

The chrysanthemums are nearly in bloom and are doing nicely.

Lost books are placed in the boxes in the basement of the library.

The class in histology is studying micro-chemical tests for cellulose.

Students in pharmaceutical botany are completing the study of the fourth drug.

Twelve new chairs have been placed at the large reading table in the library.

Three hundred volumes have been added to the library during the past month.

The first year class in domestic science has been cooking bananas in various ways this week.

A new plaster cast has been received by the art department to be used by the students as a model.

Laboratory divisions in chemistry are ahead of the lectures and do not have to put in full time.

Since the remodelling of the old chapel the dramatic club is at a loss for a place to present plays.

E. L. Witte, who has charge of the mission library, will soon add books for the mission study classes.

The class in English literature 11 finished "Cymbeline," this week. The next play is "The Winter's Tale."

The library stairs are used as seats by so many "tranlators" that it is often difficult for others to pass up and down.

The forestry department received a consignment of improved implements yesterday. They are said to be the best made.

The law library has received the first fifty-four volumes of the new "American Digest." This set is the most complete published.

Miss Maud Williams has been appointed to assist Miss Whedon in the Wednesday morning cooking classes in the McKinley school.

There is still a lack of shelving in the law library. As table room is at a premium a crowded condition of the library results.

The class in the new course in geology 23, consists of nine members. Each one will be assigned special work in the near future.

The class in zoology 1 has been divided into two sections for the purpose of more efficiently conducting the oral quiz on Wednesday.

Next Monday morning the cabinet of the Intercollegiate Prohibition League will hold a meeting in the Y. M. C. A. room at chapel time.

The law library is not yet lighted or heated.

The cooking classes at the McKinley school are still growing.

New books have been shelved just east of the librarian's desk in the main room.

Dr. H. Winnett Orr, lecturer in the history of medicine, has offered two prizes for neat note book work.

Dr. Jones' class in German history will review the work gone over since the beginning of the year, next week.

The department of forestry has removed most of its books from the experiment station to the general library.

The department of forestry has purchased some interesting new books, which have been placed in the general library.

The psychology department has received an etching of the famous picture of Christ's head, showing the illusion of open and closed eyes.

The draught for the second floor of the house, which each member of the class in household economics is required to prepare, is to be handed in Thursday.

Among the books that have been added to the law library recently are a complete file of "The American Digest," and copies of "The Revised Statutes of the United States."

Prof. Burnett and Mr. Smith left for Kansas City Monday evening, where they will attend the American Royal Live Stock Show. They will return the latter part of the week.

Mr. Woodruff, who is working for his A. M. degree, is doing special work in geology. He is studying the different "horizons" of the state. At present his work is in Cass county.

The physiological chemistry students are isolating some of the primary compounds of plant and animal cells, as lecithin, nucleic acid, nucleo-proteids and cholestrin from the egg and yeast cells.

Dr. Avery left for Alliance the fore part of the week, where he is investigating the prairie dog pest. Prairie dogs have become very destructive in that section of the state, and a means for exterminating them is being devised. Dr. Avery will return Friday.

The apparatus storeroom of the chemistry department, formerly located in the basement of the main building, has been removed to the fourth floor, and the chemical storeroom has been transferred to the old apparatus storeroom.

Professor Caldwell is now revising his text book in American history. He states that it will be ready for use next year. The selection of subject matter will be improved and it will be more complete. An effort will also be made to have it published in better style than before.

A number of new improvements in the sidewalk line have been made recently. The old board walk leading to the chemistry laboratory was repaired and a new plank one was built just west of the main building connecting the entrance to the athletic field with the brick roadway.

The American Grade Acid association offers an award of \$25,000 to the one who devises a process or formula for the utilization of California grapes containing over 20 per cent of saccharine, worth \$10 per ton, to produce tartaric acid at a price which would permit exportation without loss.

The following new books have been added to the library:

"L'Heridite," by Yoer Delage, professor in University of Paris; the report of International Congress on Bibliography, held at Paris in 1901; reports of Industries, Scientific Discoveries and New Inventions, from 1897 to 1900, F. Juven, editor, Paris; "Bibliography of Biography," E. M. Ollenger, Paris; "Car Builders' Dictionary," Prof. John C. Wait. This last is a presentation copy to the University.
