

The Daily Nebraskan

VOL. III. NO. 54

UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, DECEMBER 10, 1903.

PRICE 3 CENT

THE REGENTS MET

Officials Met Yesterday and Tuesday to Transact Business.

The Board of Regents of the University of Nebraska met in regular session on Tuesday afternoon at 2 o'clock. All the members were present except President Kenower and Regent Rich. A communication from the retiring president was read, containing his resignation, which was accepted; and appropriate resolutions were adopted. The semi-annual cash statement of the secretary was reported and approved.

On recommendation of the Medical College faculty, approved by the dean, some changes in the teaching force at Omaha were concurred in. The annual report of Director Kimball of the University School of Music was placed on file, and nominations of instructors in the school for the current year approved.

The special committee to which was referred a communication from the Palladian Literary society concerning the exclusive occupation of rooms in the main building, reported recommending that in view of improvements made during the past summer affording better accommodations for the University class work, no action by the regents be taken at present in the premises.

The chancellor presented a list of appointments made under authority of the regents since the September meeting, the new appointments being Miss Flora Bullock, instructor in English in the School of Agriculture; M. Albert Jacobson, instructor in chemistry, and Mr. F. D. Barker, instructor in zoology. The secretary was instructed to further correspond with the attorney of the citizens' committee in North Platte relative to the title of the site for a proposed western experiment sub-station at that place.

A report was received, read, accepted and placed on file from the Law College faculty concerning the legality of collecting incidental and library fees from students. The report sustains the lawful authority of the regents to charge and collect such fees from students when not excessive nor charged and used as a "tuition" fee or fee for instruction.

A large portion of the time of the board was occupied with the report of the special committee on farm needs and finances.

In view of the resignation of President Kenower and the fact that his term of office was soon to expire, Regent Teeters was chosen temporary president of the board to fill the vacancy.

The meeting just closed is probably the last meeting of the Board of Regents before the accession of the new members-elect, Allen and Whitmore, who will assume their duties early in the new year. The Board adjourned sine die.

Shedd Out of Sanitarium.

According to yesterday evening's Star Charles Shedd, the former end on the Nebraska team, has been showing improvement and may soon be able to dispense with his crutches. The article referring to the matter says:

"Chick" Shedd, the former University football player, was taken home from the Lincoln sanitarium Tuesday, after spending three weeks there as the result of a second operation. Shedd was injured severely in the game with the Haskell Indians more than a year ago, and has never fully recovered. He has never been able to walk without the aid of crutches since that time. He

now hopes to be able to move about in a short time, and to be able to dispense with the crutches."

"University Studies" Out.

The last number of University Studies, completing volume III, has been published and copies are being sent out from the library to about 500 prominent libraries and to learned societies. The leading articles of this number are: Regeneration in Hydromedusae, by George Thomas Hargitt; Some Peculiar Double Salts of Lead, John White; The Memoires De Bailly, Fred Morrow Fling; On the Representation of Numbers as Quotients of Sums and Differences of Perfect Squares, Robert E. Moritz. Copies of the "Studies" are kept in the library and students may find in them things of considerable interest.

Readings in Chapel.

It is not every day that the students enjoy such a privilege as they had yesterday and a large number were at convocation to hear Mr. Albert Armstrong read selections from the Bonnie Briar Bush. Mr. Armstrong is a Scotchman by birth, and the Scotch dialect which he puts into his reading makes it doubly instructive and entertaining. He has a good voice and a pleasing delivery and held the attention of his auditors from beginning to end. His purpose was to bring out the pathos as well as the humor of the book and to bring out as much as possible the part which describes Scotch people in the best manner. Mr. Armstrong has been in Scotland and visited the scenes of the book and his explanation of the different places and customs was highly instructive.

BAND PLEDGES \$200.

Will Do Its Share Toward Raising Temple Fund.

At a meeting held Tuesday evening the band pledged itself to contribute \$200 to the Temple Fund, thus showing that it desired to be counted in on a movement that will promote the welfare of our University to a large degree. The meeting was marked by enthusiasm increasing as it progressed, resulting in a final decision to contribute as large an amount as lay within its means to raise. Professor Hagenow and L. J. Pepperberg both made brief speeches, setting forth the advantages that the Temple building will bring and the relation of the band to the University and the part it has played in aiding University enterprises.

This pledge is made by the band through its character as a social organization. It expects to raise the money by giving concerts in the chapel from time to time until a sufficient amount will have been secured to redeem the pledge. It is expected that University people will take into consideration the cause that is being served and turn out in goodly numbers and attend these concerts.

Vigorous efforts are being put forth to secure the residue of the Fund. A large number of circulars have been sent out among the people of the state and have in many instances elicited favorable returns. The alumni have been appealed to and are expected to rally in force, doing all they can personally and striving to interest those about them. Several University organizations have already done themselves proud, and more are expected to follow the good example that has been set.

Restaurant Unique, 1228 O street.

The Whitebreast Co., at 1106 C. St., is the place to buy coal.

Don Cameron's lunch counter for good service.

ATHLETIC CONTEST

Program of Coming Carnival. Other Notes.

The result of the election of the captain for the football team is yet unknown. The ballots have to be counted by the Athletic Board and as yet no time for a meeting has been set, so the result hangs in the balance until the board meets.

A good deal of interest has been aroused over the affair and many opinions are heard as to the probable outcome. The names most frequently heard are Bender and Benedict.

The first Gymnastic Contest will be held in the gymnasium Wednesday evening, December the 16th, at 8 o'clock.

The contest will be over in time for those who wish to attend the Informal to do so.

The program which will be carried out is as follows:

- 1.—Horizontal Bar Contest.
- 2.—Exhibition of longhorse work. Mr. Lane and picked men from classes.
- 3.—Parallel Bar Contest.
- 4.—High Diving Contest, and Fancy Spring Board Work.
- 5.—Tumbling Contest.
- 6.—Torch Swinging, Dr. Clapp.

This contest will be a novelty for the University and will be very interesting. It is hoped that all who possibly can will be present and show their interest in the work.

The faculty were practicing last night and from the way they handle the ball we predict that they will win great glory for themselves in the basket ball circle. Nothing further has yet been arranged regarding the game with the Wesleyan faculty team.

Those who wish to try for places in the diving contest will meet in the gymnasium at 4 o'clock Monday afternoon.

The exercises for class division contests, to be held Monday, the 14th, are as follows.

PARALLEL BARS (Low).

- 1.—Real vault, right; one-half turn, left.
- 2.—Outside thigh seat right, one-half turn to left to cross riding seat (straddle seat), back straddle vault (twice), face vault right to mat.

BUCK.

- 1.—Wolf vault left, one-quarter turn, left.
- 2.—Dive.

LONGHORSE.

- 1.—Squat stand on croup front, leaning rest, straddle vault to mat.

TUMBLING.

- 1.—Long front roll, front roll, two (2) back rolls.
- 2.—Front summersault.

The prospects for a western trip for the basket ball team are very good. Full arrangements have not yet been completed, but that the team will go is almost a certainty.

The games at home have not yet been scheduled, but the season has not yet begun, and there are plenty of teams near home with whom games can be played.

The outlook for a championship team is bright. Many of the old men are back and a great deal of new material is on hand. A very encouraging interest is being taken in the game, and the number of men who have turned out is going to make the competition for position sharp, which almost always insures a good team.

Sam's Cafe. The only place in the city to get the famous "Little Gem Hot Waffles." Special service for ladies.

SENIOR ARE CHAMPIONS.

Win Over Freshmen by Making a Single Safety.

The final game of the inter-class championship series, played yesterday by the Seniors and Freshmen, resulted in a score of 2 to 0 in favor of the Seniors. The score was made by a safety. The game was much more one-sided than the score indicates. During the first half in particular the Seniors played the Freshmen clear of their feet, only hard luck and the wind, which was blowing a gale, gave the Freshmen a great advantage in punting prevented the Seniors from scoring twice in the first half. In the second half they rushed the ball about twice as many yards as the Freshmen did, but were prevented from scoring once by a fumble when they had advanced the ball well into the Freshman territory. On two other occasions they were held for downs at critical times. The small score is also explained in part by the shortness of the halves, which were of only 15 minutes duration.

Myers, the captain and left half of the Senior team, had been told by Dr. Clapp to keep out of the game. Myers has a bad case of water on the knee, and though not very painful there is always great danger of a stiff knee unless the best of care is taken of it. Pritchard was called back from right guard, and played an excellent game as halfback, Raasch taking his place in the line.

The Freshmen won the toss and chose the north goal, with a very heavy wind at their back. Newton kicked off for the Seniors to the Freshmen's 30-yard line. The Freshmen attempted to rush the ball, but were held for downs, and compelled to punt at once. Drain booted the ball well and Bell caught it for the Seniors on their 30-yard line, and returned five yards. The Seniors played a fierce rushing game, Pritchard and McDonald tearing off from three to ten yards on quick openings and cross bucks. Everything looked like a touchdown when one of the backs fumbled the ball and a Freshman fell on it on their own 25-yard line. The Freshmen were soon compelled to punt. Bell caught the punt and by some clever dodging eluded two Freshmen tackles, and returned the ball ten yards. The Seniors again set sail for the Freshmen's goal, this time the gains being even longer than before. Mavek and Newton were frequently called back to run from halfback's position and both did excellent work. Newton tore through the Freshmen left tackle for ten yards and placed the ball on their eight yard line. The Seniors on the side lines were frantic and called for a touchdown, but a man on the line had held and the Seniors were penalized twenty yards. On the next down they were again penalized ten yards for the same offense and compelled to punt. After a few more downs time was called.

In the second half the Seniors received the kick-off and rushed it back to the center of the field, and then Newton punted to the Freshmen 5-yard line. The Freshmen made first down once and were then compelled to kick. The Seniors returned the punt and Foster tried to run it out, but was caught on the 10-yard line. Drain soon attempted a punt. Lewis broke through from his position as center and blocked the kick. It bounded into the arms of Foster on the Freshmen's 2-yard line. Lewis with the aid of Pritchard, picked up Foster bodily and carried him across the line and on until the fence stopped them, for a safety, the only score of the game.

Shortly after this came the only flash of consistent offense for the Freshmen, when they got the ball on their own 50-yard line and carried it down the field for thirty yards by tandem plays between center and guard. The Seniors braced and held them for downs
