VOL. III. NO. 72 UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY, JANUARY 20, 1904. PRICE 3 CENTS

## A SPACE RESERVED

### Quarters for Cadets at St. Louis If They Go

The prospects of a contingent of cadets from here going to the world's fair at St. Louis have begun to assume a somewhat definite shape. Commandant Chase has exchanged correspondence with the authorities at St. Louis requesting that space be reserved for 100 cadets from this University. If necessary the space can be enlarged so as to accommodate all in excess of that number who might desire to go from here. The fact that a large number of the battalion had counted on attending the fair of their own accord lends encouragement to the belief in the possibility of a comparatively large and representative contingent of cadets being sent from here. In this way they could go at much smaller expense without being denied any of the privileges and advantages that they might otherwise have enjoyed, but on the contrary, having an opportunity for a more extensive outing and greater enjoyment.

Most of the cadets think favorably of the project, though many are not sure of their ability to attend, as much depends upon future circumstances. Others are enthusiastic in their consciousness that there is no obstacle to their going and that they can do so quite handily.

The following communication indicates the way in which matters stand at present, it being a reply to a letter from Commandant Chase to the St. Louis authorities:

January 15, 1904.

Captain Wilson Chase, Commandant Cadets University of Nebraska.

Dear Sir: I beg to acknowledge your esteemed favor of January 12th. You ask that space be reserved in our barracks for your University for 100 cadets. I can make the reservation at any time preceding June 15, or after June 30, providing I know if this time will be satisfactory. The Second Regiment Alabama National Guard go into camp about the 30th of June, and they have 800 men. We have a number of cadet schools in camp prior to the 15th of June, and our barracks will be ready for occupancy at any time in May. We can accommodate 2,000 at any one time, so that I can reserve your company space before the 16th of June or after the 30th. The first part of September is taken up. We have a large number of assignments already made, and I know of a good many applications coming in. Yours very truly,

E. C. CULP,  
Sec. Com. on Ceremonies.

It may be seen from the above letter the limits that have been set are any time before June 16th or after the 30th of that month. As the attention of those at our University will be largely occupied with commencement and attendant events until after June 15th, it is likely that a contingent of cadets would not go from here until July 1st or after.

There has been considerable discussion as to the feasibility of holding the annual cadet encampment at St. Louis upon this occasion. Commandant Chase upon being interviewed by a Nebraskan reporter denied all likelihood of such a contingency, stating that there would be no facilities for target practice, and that the stay would be too short.

The officers of the battalion have expressed various opinions as to the prospects. One man was so optimistic as to state that as many as two companies might go, while another took the other extreme, holding that the outlook seemed gloomy. The officers club have unanimously given their approval to the project.

Reports have been in circulation that men who have drilled three semesters would be excused next semester. Affirmations and denials have been floating around at random. Commandant Chase, however, states that no definite decision has been made in regard to the matter.

### DR. ROSS HONORED.

#### Receives an Invitation To Deliver Address at St. Louis.

Dr. Ross has received an invitation to take part in the great International Congress to be held in connection with the St. Louis Exposition September 19-24, 1904. This invitation is attended by an unusual honor in that Dr. Ross is one of the four American sociologists who will speak upon this occasion.

This Congress will be the greatest scientific meeting ever held in the history of the world. The program for this great event is made up of twenty-four departments, which are in turn divided into sections, making one hundred and twenty-nine in all. Under the department of Sociology there are three sections. Seven addresses in connection with the subject will be given. One will deal with the subject in general, and upon each of the sections two addresses will be given. Three of the addresses will be given by European scientists and four by American. Dr. Ross and Professor Stimmel of the University of Berlin, will each discuss the third section. Dr. Ross' subject will be "Problems of Social Psychology."

This invitation to one of our faculty to take part in so important a meeting does not only show honor to the ability and prominence of Dr. Ross as one of the foremost sociologists of America, but it is a thing of which our University may feel proud. In so stupendous an undertaking those in charge of affairs have sought to bring together into one vast assemblage the foremost educators of the world, and we can certainly feel proud of the place of honor awarded to us.

### A New Greenhouse

It is rumored that plans are on foot for the erection of a new greenhouse, on the University campus, between the Armory and Nebraska hall. The old greenhouse is entirely inadequate for the work that is being carried on. Moreover the present building, which was old when it came into the hands of the University, has stood there for over ten years, and is becoming dilapidated. The beams and framework are in a decayed condition and with every wind a number of glass panes are blown off and frequently broken. This is dangerous in that the temperature might suddenly fall some time to such a degree as to do great damage to some of the more delicate plants. Also the present building is very low and the large plants, such as the banana trees, had to be trimmed down to keep them from becoming frost bitten through contact with the glass.

The new building is to be put up on modern and improved plans including facilities for regulating temperature and moisture.

How soon the work of constructing the new house will commence depends upon the action taken by the Board of Regents at their next meeting.

It's a pleasing thing to make a discount sale and have the people come and carry your clothing out. We are making a discount on winter clothing, underwear and sweaters.—Paine's Clothing Store.

## NEW MEN REGISTER

### A List of Interstate Candidates Waiting on Kansas

For the preliminary debates there is a large registration of new men. To take the places of veterans who are out of college or are tied up with work in other lines new material is presenting itself. The list of new men who will go after places on the squad include Robert J. Anderson, R. Bickford, Mr. Bedner, Samuel E. Black, John L. Clark, H. A. Brubaker, Mr. Hussong, Harry Keyser, A. M. Levy, winner of the inter-scholastic contest last year; John T. Millek, Gerhard T. Morgan, Charles A. Mohrman, A. R. Moore, Edwin F. Myers, Charles A. Sawyer, Clement L. Waldron, and C. C. Wilburn.

When asked regarding the prospects of finding new inter-state material Professor Fogg said, "Of course we shall find new inter-state timber just as we found it last year and the year before and as we shall hereafter."

After allowing the Kansas debating council five days in which to submit definitions of terms in the question it submitted last Wednesday, Secretary Ryner last evening telegraphed Kansas asking a reply by wire as to how soon we may expect to receive the definitions.

To protect the University more surely in the selection of debaters to represent it, the council is arranging a new method of appointing them. Furthermore the interstate debaters this year and hereafter are to receive some mark of honor—an equivalent to the "K" given to athletes.

Kansas' new professor in English, W. W. Lawrence, who came from Harvard this year, has been made a member of the council.

Nearly all of last year's debaters, says the K. U. Weekly, are in college again, and new men are coming forward.

### ALMOST ASSURED

#### Northern Trip in Close Prospect for Basket Ball Team.

It was stated in yesterday's issue of The Nebraskan that the Athletic Board would meet last night. It certainly was the intention of that body to meet, but there were not enough members present to constitute a quorum so the meeting was postponed.

The northern trip for the basket ball team is almost assured. The team will meet the Sioux City Y. M. C. A. team, Morningside College, Sioux City; University of Minnesota, at Minneapolis. The team will leave here February 17th and will play in Minneapolis the 19th, 20th and possibly the 21st.

A good many promising games are in prospect. Among the best of them are Wisconsin, University of Iowa, Grinnell, Colorado Springs Y. M. C. A., and Highland Park. If the management succeeds in scheduling these games, Nebraska will have one of the heaviest basket ball seasons she has yet experienced, and it will do a vast amount of good for the game here in the way of arousing interest and opening the eyes of the students to a realization of the fact that the game has its many good points and deserves a good place in the college athletics.

The invitations for the basket ball game Friday between the two teams from the city Y. M. C. A. and our first team and the faculty team, will probably go out this evening or early tomorrow morning. About 500 of them will be issued. Reserved seats for these invitations will be held until

8 o'clock and then the seats will be thrown open.

These games will be open to all and everyone is welcome. The seats are reserved in order that those coming on invitations may be assured a good view of the games, and bear away with them, as they surely will, a favorable impression of basket ball.

The teams will line up Friday practically the same as they did at the Y. M. C. A. last week.

Two good games are assured and all are welcome.

The young ladies taking physical education will receive their teaching assignments J. no spooqs apus up oppoud They will take charge of the play during the ten minute recesses in the mornings and afternoons.

The examination in physical education 21, section 1, the 10:30 division, will be held Wednesday from 8 to 10 a. m.; and the 2:30 division Monday from 1:15 to 3:15. The examinations will be held in the art gallery.

Physical education 31 (leaders class), will not meet today a 1:45.

All absences in physical education must be made up by Friday night this week if students are to receive their credits.

An article appeared in the Chicago Record-Herald yesterday to the effect that Coach Stagg had returned from New Mexico and some decisive points had been settled. It is positively decided that Minnesota will not meet Chicago in football next year. This means that Nebraska secures a game with Minnesota, as that University was holding our date waiting until the final decision in regard to the Chicago game should be made. Now that that is settled it is almost an assured fact that Nebraska and Minnesota will meet next fall.

### GIRLS BASKET BALL.

#### Prospects and Personnel of the Various Teams.

The "height of the season" has not yet come in girls' basket ball. Most of the matches for the girls' teams come in February and March. The first team was organized before the holidays, and Miss Ida Taylor, now playing her fourth year on the team, was elected captain. The captain of the second team and forward on the Senior class team, Miss Emma Shinbur, was promoted to fill the place left vacant by Miss Edith Craig. Miss Ina Gittings of the Sophomore team was promoted from the second team to fill the vacancy at center, left by Miss Archibald. Miss Gittings is available either as forward, guard or center, and should make a valuable new member. The team now consists of Misses Sly, Taylor, Scott, Gittings, Jansa and Shinbur. It has been practicing once a week since the holidays, and is admittedly but little inferior to the phenomenal team of last year.

The second team, which distinguished itself last year by its easy defeat of Baker University, is not yet reorganized. Lately it lost its strong guard, Margaret McCutchen, who has left school. Those now playing on it are Misses Ruth Woodsmall and Inis Everett of last years team, and Miss Agnes Rousa of a former second team. New members are Miss Willa Adams, captain of the Freshman team, and Miss Nellie Miller, of the Sophomore team, who is making an excellent record at goal throwing.

The class teams are pretty well organized now, except the Freshmen. The Freshmen have plenty of good material, but their players lack height and experience. The race for the pennant this year promises to be the usual close one.
