ARRANGE QUESTION

Nebraska and Kansas Reach Satisfactory Conclusion.

During examination week the question with Kansas that has been hanging on for so long, was agreed upon. This result was reached only after a great deal of correspondence to get Kansas to define the question so that a tightly joined issue might be assured. Nebraska decided last Friday to take the negative. This happens to be the side that Kansas has had for the past two years, although we hope for better success than she achieved. Upon each of these occasions Kansas had the popular side.

With the question arranged and the side selected, the work of preparation for the preliminary debate has begun in earnest. The preliminary debate was arranged for February 8th, but it was found necessary to postpone it until after the middle of the month, on account of the long drawn out controversy with Kansas, in one or two stages of which it seemed likely that the two institutions would be unable to agree on the question.

The faculty members of the debating board as well as others in the University who have interested themselves in the selection of the question are enthusiastic over it as a subject of discussion in an inter-collegiate debate on account of its timeliness and the valuable information that careful study of it will give.

Chancellor Andrews and Professors Andrews, Fling, Taylor, Ross, Pound, Cook and French all took part in passing upon the definition of the question and selecting of sides. Chancellor Andrews has already shown an active interest, having inquired as to the date, as he does not intend to miss this debate which promises so much excitement. All should follow his example as a question dealing so thoroughly with history, law and international politics will call for an unusually hard-fought battle.

The registration is now about 25, mostly new men. Registration will be closed within a week. The important registration yesterday was Burdette G. Lewis, who was a member of the squad year before last and who was denied the privilege of thrashing Colorado College because the debate was called off by Nebraska. Mr. Lewis was unable to decide until yesterday, as he feared lest his Rhodes school examination would conflict with the debates. It was learned yesterday that the examination would in all probability be held during the spring vacation, about April 1st. One of the strongest men we have, R. C. James, of the Kansas team last year, will go in, as well as L. C. Lightner, of the compulsory arbitration squad, and J. C. McReynolds of the trust squad.

The other registrations to date are: E. F. Myers, R. J. Anderson, J. T. Mitek, C. A. Sawyer, John L. Clark, Harry Keiser, A. M. Levy, C. A. Morgan, H. A. Bruebaker, C. C. Wilburn, T. T. Johnson, S. E. Black, Roy Bickford, A. R. Moore, L. J. Zook, Mr. Husson, Mr. Brady, Frank Brookings, C. L. Waldron, C. A. Mohrman.

The debaters will be, largely new men this year, and the prospects for good interstate material are considered excellent by the professors on the debating board.

For the annual inter-scholastic debate between eight Nebraska high schools the question this year is: "Resolved, That it would be better for all interests that the United States should have exclusive control of any isthmian canal than to share any such control with any other power."

The contest will take place at Lincoln in about two weeks. Two of Nebraska's best debaters of the last three years are training the Lincoln and Omaha representatives, Neil M. Cronin, 1904.

and Charles M. Bhaelen, 1903. Burdette G. Lewis won second place for Omaha three years ago, and A. M. Levy won first place for Lincoln last year, while victory two years ago went to Omaha.

Another University debater has been given a position on the Lincoln high school faculty, Fred M. Hunter, who yesterday began teaching mathematics in that institution. Mr. Hunter was a member of the Kansas team two years ago, and last year led off against Missouri. His new appointment will prevent him from taking part in the debates this year.

NEW LITERARY CLUB.

Organization Formed by Bohemian Students of University.

There has lately been organized in the University a club which is different from any that has ever been established here. A week ago a crowd of enthusiastic Bohemian students met in University hall to discuss the advisability of uniting into some kind of a society, with the result that in a few hours the Comenius Literary club was organized, named after the great Bohemian, Comenius. The aim of the members is to advertise the University among the Bohemians of the state, and to study the Bohemian language that they may be better able to help their people as they come in contact with them. Besides, the students believe that along with their study of Greek, Latin, German, English, French and what not, they may well devote a few hours now and then to their mother tongue. The Bohemian language can hold its place by the side of many. It is well developed, it is capable of conveying the finest shades of meaning, and at its best it has a beauty and refinement which deserve a rank among the world's best.

As has been stated the purpose of the club is to advertise the University among the Bohemian people of the state. The Bohemian is serious, painstaking and can make a good student if given the chance. The general record of those who have taken advantage of the opportunities afforded by the University has been excellent, and fully appreciating what the University has done for them, the members will undertake to bring more of their people hither.

That their efforts will be rewarded is beyond doubt for nothing can touch a Czech's heart more deeply than a good example set by another Czech.

PLEDGE \$500

Dramatic Club Does Good Work on Temple Fund.

The Dramatic club met in U. 107 yesterday morning and pledged \$500 toward the Temple Fund. Individual subscriptions to the amount of \$70 were received, one of \$50 being given by Mr. E. F. Myers, and the other of \$20 from Miss Howell. Further soliciting was prevented by the close of the hour. Chancellor Andrews addressed the meeting, and much enthusiasm was evidenced by those present. It is the intention of the club to raise the pledge by individual subscriptions and by the proceeds of various entertainments to be held in the

near future. A small admission fee will perhaps be charged for the plays which the club has had in preparation for some time, two of which were so thoroughly enjoyed by University people a week ago. Miss Howell will also soon appoint a committee to arrange other means for raising the desired amount.

First Drill of Semester.

The first drill of the semester was held in the armory last evening. The battalion plainly showed of the loss of the third year men, but a number of new recruits were added to its strength, which will probably make up the deficit. Captain Chase instructed the new men to procure uniforms at once. He also announced that further communication with the authorities at St. Louis had made possible the arranging of the proposed encampment during the ten days between June 6 and 16. It is thought that the shortening of the encampment will make it possible for a much larger contingent to attend than would otherwise go. Coming immediately at the close of school, also, will add to the inducements of the proposition. Captain Chase asked that the men who were able to take advantage of the fair's invitation let him know immediately, in order that the matter may be definitely arranged.

Girls Wont Play Minnesota.

The game between Nebraska and Minnesota girls, prematurely announced, will probably not be played after all. The Minnesota team wishes very much to bring the Nebraska girls to Minneapolis for a game, but probably will be unable to do so this year. The Stanley Hall team at Minneapolis, which Nebraska was to meet also, can not undertake a match, and the Minnesota management sends word that it has not been able so far, to arrange another contest. Unless the cost of transportation can be divided in this way, the trip would be too expensive.

The Minnesota girls were invited to play here last year, but did not accept. It is hoped that a meeting may be arranged for next year.

English Club Meeting.

The English club will hold its next meeting Saturday evening, February 6, when it will be entertained by Miss Olivia Pound. As usual this year, several articles will be read, followed by spirited criticism and discussion. Four new members were recently elected to fill the places made vacant by members who have left school. The newly elected are Miss Louise Miller, Miss Mabel Hopkins, Miss Grace Corder, and Miss Leta Stetter.

The club is striving this year for greater variety in its programs, which usually have been limited for the most part to the short story, and for more discussion. Much interest is being shown.

At a recent meeting it was decided to establish a small initiation fee, as is customary with other honorary societies of the University.

Leming's, ice cream and candy; 11th and L Sts.

TO PLAY GOPHERS

Game Finally Arranged. Negotiations With Iowa.

A game has been scheduled with Minnesota at Minneapolis for October 29. This is the date Iowa wanted. She wired that all her dates except the 29th were closed. Although two or three dates were practically agreed upon with other colleges, Iowa was given the choice of any except October 29th and Thanksgiving Day. The Haskell Indian game will probably be played November 12 in Kansas City.

As yet nothing definite has been done as regards the baseball schedule. Replies have been received from Iowa, Minnesota, Illinois, Wisconsin, Purdue, Notre Dame and Northwestern to the effect that they will be glad to meet Nebraska on the baseball diamond, but some of them are planning their trips about the time of ours, while others can not say certainly just what dates Nebraska can have as yet. The schedule will probably begin to take on a definite shape by the end of the week. Besides the northern trip one to the south as far as St. Louis, is also contemplated.

The University team met the city Y. M. C. A. in the armory last Friday and won by the decisive score of 31 to 12. A crowd of about 250 was present.

The result of the game was somewhat of a surprise to the supporters of the team, since it was supposed that the Christians would put up a much stiffer game than they did. Good teamwork as well as individual play on the University's side, accounts for the lopsidedness of the score. Hagensick was the star of the evening, making a majority of the points for the University.

Between halves, and just preceding the big game, the faculty demolished the Business Men's team to the tune of 14 to 7. The result of this conflict was never in doubt, as the team-work of the Business Men was weak, while the faculty showed decided improvement over their former exhibitions.

The Freshmen team met and vanquished the second city Y. M. C. A. team in the latter's gymnasium in an exciting game last Saturday evening. During the first half neither side could score a point, but in the second half the Freshmen swept their opponents off their feet, scoring 20 points to their 6. The playing of Miller and Lott of the Freshman team was especially noticeable, as both of these men played a brilliant and steady game. The work of the team as a whole was fast and clean and the Freshmen have a right to feel proud of their showing. Dr. Condra refereed the game.

Former University Man Dies.

T. T. Thompson, who was a Junior in the University last year, died Friday in St. Elizabeth's hospital, this city. While in the University Mr. Thompson established a good record as an athlete, being a strong pitcher and an excellent football player, besides doing all around good work in the gymnasium. He was popular among his acquaintances and a hard consistent worker in his studies. He had a large number of friends who will be pained to hear of his death.

Students Register.

Registration yesterday was the largest so far of any during the period set aside for that purpose. Today is the last chance for students to enter the courses in which they desire to work during the coming semester, although those who on account of conflicts or other causes beyond their arrangement, have not been able to arrange their schedule, may have until the end of the week for that purpose.
