**Editorial Remarks**

This is the last issue of The Nebraskan until Wednesday of next week. Our staff expects to give itself over to recreation for the next few days and we will not be able to get the members together again in time to begin our usual weekly gist until next Tuesday. We hope that all our readers will have a pleasant vacation and counsel them to forget all about books and the like, as long as their respite lasts.

The awarding of the P. B. K.'s has brought gladness to a goodly number of Seniors, although the hearts of some have been saddened. Those thus honored can feel satisfied that they have shown exceptional merit that has entitled them to substantial consideration. They can feel that their four years' labor has yielded some good results, and it is up to them to show themselves as capable in their future pursuits as they have done during their University career. They have shown themselves able to fill positions in the world where scholarship will count, and if they have the other qualities that determine, they will certainly be fitted to exercise more influence than many who have had fewer advantages. Here's congratulation to the new P. B. K.'s, and we wish them a like measure of success in the life that is before them, to that which they have attained here.

Following are the resolutions regarding college and high school athletics, passed by the North Central Association of Colleges and Secondary Schools at Chicago last Friday.

"1. Resolved, That this association earnestly recommends the general adoption of three probationary years in athletics—first, one year at the beginning of the secondary period; second, one year at the beginning of the collegiate period; third, one year at the beginning of the graduate period.

"2. Resolved, That in case a student migrates during any one of the three probationary periods mentioned he shall remain in his new institution one year before participating in any contest.

"3. Resolved, That natural groups of institutions having athletic relations with each other should publish annuals, giving, first business publicity, and,

second, permanent athletic records.

"4. Resolved, That the members of this association pledge themselves to use their influence with state teachers' associations and state college associations and other education institutions, including faculties of universities, colleges, and secondary schools, to secure their support in bringing about the adoption of these resolutions, especially the first.

"5. Resolved, That this committee be empowered to act with other college and secondary associations, east and west, to secure the adoption of the three probationary years principle."

These rules are strictly right in principle and ought to be adopted by every higher institution of learning throughout the country. High schools in the central section have especially suffered through losing their best athletes through the grasping tendencies of higher institutions and it is hoped that the practice may be curtailed.

**Dr. Shepherdson at Chapel.**

Dr. Shepherdson gave an interesting talk in chapel yesterday morning. His theme was "What is the greatest Good?" and in his talk he emphasized regret for his physical disability and illustrated by saying that he would give all the money he ever had or ever hoped to possess for good health, yet he was sure that it was not the greatest thing.

The craze for power was fully illustrated by him when he referred to Alexander, who wept because there were no more worlds to conquer. He spoke of intellectual power and mental victories, but they do not wholly suffice. The greatest power was the spiritual power, which alone could satisfy.

Dr. Shepherdson is physically disabled, but his mental powers have made up for this deficiency and he is a power in his work. His talk was a good one and was appreciated by all.

**Debating Notes.**

An annual prize of \$150 has been offered by Mr. Hamilton Carhart, a manufacturer of Detroit, to honor debaters representing Michigan in the contest of the Central Debating league.

At California the inter-class debates are receiving more attention than ever before. The president has selected the question, on which the championship will be decided.

The debate between the law department of Missouri University and the Kansas City Law School, will be held at Columbia, April 16.

The University of Iowa has already begun to choose representatives for the Minnesota debate next year.

Boston Dentists, best work and low prices.

Wright Drug Co., 117 No. 11th, phone 313.

Have you seen Sanderson's new spring shoes? They are beauties.

Box of cigars given away every day at Powell's Oliver theatre building.

Do you want a nice pair of Oxfords? Sanderson's have the swellest lot you ever saw.

Sam's Cafe. The only place in the city to get the famous "Little Gem Hot Waffles." Special service for ladies.

**MILLER & PAINE**

Beautiful New Belts for Easter such as  
a Clever Dressmaker would  
Make by Hand.

You can't help thinking that when you see them. The newest thing we are showing are the silk girdles. Most of the styles come in either black or white taffeta. Wide pieces of the silk are shirred or folded over boning in the back to a pretty pointed girdle shape, then loose at the sides and shaped again in front. Some fasten at one side with hooks and eyes, others are drawn through large quaint buckles back and front.

WE HAVE PLAIN GIRDLER SHAPES as cheap as 25c; then the elaborate shirred and tucked belts at 50c, 75c, 90c, \$1.00, \$1.50, \$1.75, \$2.00 and \$2.75 each.

THE GIBSON GIRL BELT is of beautiful seal or walrus, so soft that it requires lining with silk moire. It is an inch and a

half wide, laid in small tucks and fastens with a gilt or oxidized rim buckle, \$1.00.

CRUSH SILK BELTS, three or five inches wide, drawn through a harness buckle in front, are very satisfactory. They are plain or stitched with several rows of gilt thread, 50c, \$1.00.
