VOL. III. NO. 124.

UNIVERSITY OF NEBRASKA, LINCOLN, WEDNESDAY APRIL 13, 1904.

PRICE 3 CENTS

CHANGE THE DATE

Minstrel Show Will Be Held April 28 Instead of April 15.

The Ladies' Minstrel Show has definitely settled on Thursday, April 28, as the date when they will hold forth at the Oliver theatre with their dusky beauty, their rag time songs, and their clog dancing. All that remains to make this the greatest success of any similar undertaking ever tried by the dramatic talent of the University, is a proper management of the business details in order to get out a crowd. Those competent to speak say the very best talent in the University and the city has been obtained and a good house is all that is needed to make the success complete. The management is starting out right in these details with a competent business and a press agent. In fact evidence is not wanting that the house will be filled to overflowing. The tickets were put in the hands of a large number of the members of the Dramatic club yesterday noon, and one who has often canvassed before for similar undertakings said when seen last night that he never saw tickets sell so easily. He said the universal comment was: "I know it will be good, and I can't afford to miss it." Many of the salesmen returned for more tickets before the afternoon was over, having sold as high as twenty-five. The scramble for boxes among the fraternities will probably be as keen as it has been among the sororities for boxes to the glee club concert, to which the Pi Phi's alone took all the boxes on one side of the house. The young men will certainly be no less gallant to the young ladies in the Minstrel show. Six of the fraternities have already signified their intention of going in a "bunch."

There are more than forty girls in the minstrel. Every sorority and literary society is represented. These organizations will no doubt turn out to see their dark and shining stars with glory and applause.

The price is not enough to keep any one away. Reserved seats in the pit and the first four rows of the balcony are 50 cents, the rest of the balcony is 35 cents and the gallery 25 cents. Tickets can be procured from the business manager, Miss Ruth Wilson, or from any of her numerous corps of salesmen who are canvassing the University.

BEGIN TODAY.

Rhodes Scholarship Examinations This Morning in U 107.

This morning at 10 o'clock the much heralded Rhodes Scholarship examination will begin. The package containing the lists of questions arrived a week ago, and is in Professor Cook's keeping. The envelopes containing the different lists will be opened at 10 o'clock, when those in charge of the examinations and the students taking them will know for the first time of the contents. There are fifteen lists for each general branch given, and this will probably be more than enough to go round.

Contrary to the general supposition candidates from other colleges will be obliged to come here and take the examinations. Just how many will come from abroad is not known, but several are expected. Four candidates have announced their intention of entering from this University. Following is the program for the two days' examinations:

APRIL 13TH.

10 a. m. to 12 m.—Latin translation into English.

1 to 3 p. m.—Latin prose composition.

All Freshmen desiring caps are asked to see one of the following committee during this week: Roy Sunderland, L. A. Higgins, R. H. Findley, D. C. Wilson, R. N. Stryker.

SCHEDULE COMPLETE.

Track Meets All Arranged for Fraternity Game.

The schedule for the track team has been finally completed. The preliminaries will be held April 20.

Following are the dates of the regular events as scheduled:

High School, Lincoln, April 23.
Inter-class meet, April 30.
Handicap, May 7.
University of Colorado, Boulder, May 11.
University of Minnesota, Lincoln, May 21.
University of South Dakota, Vermillion, May 30.

The interclass meet is a new event here, and should be a meet full of interest and class spirit. Let the classes support their representatives. There will be the regular events from the 100-yard dash to the 2-mile run, broad and high jump, hammer and discus throw, the 120- and 220-yard hurdles, pole vault, shot-put and the 1-mile relay race.

For this meet Dr. Clapp wishes each class to choose their class captain, and get the men out so that the meet may be a good one. There are many good men who can be gotten out only in that way.

In the handicap meet the best man must start from the scratch and the other men are given as much advantage in the start as the best man is better than they.

The Fleming cup, which is in Dr. Clapp's office, is to have the name of the class winning the meet engraved on it and it is to remain as the permanent possession of the class winning it in two consecutive years.

The Delta Upsilon fraternity crossed bats with the Kappa Sigis yesterday afternoon. The latter were outclassed apparently and lost the game by a score of 12 to 1. Hagensick for the Delta U's, pitched a good game and allowed only one of his opponents to cross the plate. His three-base hit in the third inning was the feature of the game, it bringing in three men.

Score by innings:
L. U. 2 3 4 2 1—12
K. S. 0 1 0 0 0—1
Batteries—Delta U., Hagensick and Pollard; Kappa Sigis, Westover, Mason and Roth.
Umpire—Townsend, Stein.

The University met the Lincoln "Invincibles" yesterday afternoon on the campus, and defeated them by a score of 12 to 2. In spite of the fact that the Lincoln aggregation made their first appearance of the year at that time, they put up a good game, and made the Uni's earn everything they got for the first two innings. The hard hitting of Zobe's Colts was largely responsible for the difference in the

score. Adams, Townsend and Fenlon made home runs and Steen made three good hits. The whole team played a good game. Adams, Morse, Townsend and Miller constituted Nebraska's battery, and Torgenson and Sequin opposed them.

Dr. Ward on the Committee.

Dr. Henry B. Ward has been appointed a member of the committee to represent the American Society of Zoologists in transmitting to the International Zoological Congress an invitation to meet in the United States in 1907. The Congress meets this August in Basle, Switzerland.

Debating at Other Colleges.

Williams has submitted to Dartmouth the following question for the annual debate, "Resolved, That the Sherman anti-trust act of 1890, as interpreted by the Eighth Circuit Court of the United States in the Northern Securities case, is hostile to the best interests of the people of the United States." The debate will be held at Williamstown.

New Books In Library.

The Library has just received "The Philosophical Transactions of the Royal Society of London." This valuable set of 195 volumes represents the full text of all papers read before the leading scientific societies in the world from 1655 to the present year. Its purchase by the University library is of interest to every scientific department on the campus. This set has been greatly desired for several years, but its great cost has made it impossible to consider the purchase before. The set bound in leather cost the library the sum of \$640.

Dr. Moody Announces Subject.

Dr. R. O. Moody of the University of California, who delivers the commencement address of the College of Medicine of the University of Nebraska, has announced as his topic, "Research and Medicine." He will speak broadly upon this subject, which is under special consideration in the medical world at the present time, and the medical students are looking forward with much interest to this discussion of the subject.

George C. Ross, a lawyer of Redwood City, Cal., has offered a prize of \$100 to be given to the winning team in the intercollegiate debate between teams from the State University and Leland Stanford, Jr., University, which is to be held at the Alhambra theatre, San Francisco, April 23. Mr. Ross made a similar offer last year. Mr. Ross made this offer last year in return for the educational advantages which that state has offered to his sons.

AWARD CONTRACTS

Regents Let Contracts for Physics and Farm Buildings.

The Board of Regents met yesterday afternoon in U. 103 and awarded the contracts for the new Physics and State Farm buildings. Several bids for the construction of the buildings were submitted, but the contract for both structures was awarded to the Capital City Brick and Pipe Co., of Des Moines, Ia. The contract for the Physics building calls for \$58,975, and that of the farm building for \$52,795. These amounts call for more funds than were at first considered available, but the plans demanded a greater outlay than was figured upon.

It is not definitely known when work will commence on the buildings, but it will be as soon as the necessary sub-contracts are awarded and other matters attended to.

The regents are still in session, and will continue so today and perhaps tomorrow. We hope to be able to print a full report of their proceedings in tomorrow's Nebraskan, but if this is impossible it will appear the day after.

AN INTERESTING THEME.

Dr. J. L. Green to Address University Men.

University men will be glad to learn that Dr. J. L. Green, for several years superintendent of the state asylum for the insane, will deliver an address next Sunday afternoon at 3 o'clock in Memorial hall, on the interesting subject, "A Thing Every Man Ought to Know." Dr. Green was formerly a lecturer on the law faculty, and is recognized as a man of intellectual power and of great personal magnitude. His success as superintendent at the asylum has been very marked, and he is well versed in many things which are of practical interest to men. The address will begin at 3 o'clock sharp, and it is hoped that the large crowd of men who are expected to hear it will be there a little before the appointed hour.
