

# A. G. SPALDING & BROS.

Largest Manufacturers in the World of Official Athletic Supplies.

The foot ball supplies manufactured by A. G. SPALDING & BROS. are the best that can absolutely be produced; they are of superior make; they have stood the test for over

twenty-eight years, and are used by all inter-collegiate, interscholastic and prominent foot ball teams of the country. No expense is spared in making the goods bearing the Spalding Trade-Mark as near perfect as it is possible to produce a manufactured article and if it bears this mark of perfection it is the best.

**SPALDING'S OFFICIAL FOOT BALL GUIDE.** Edited by Walter Camp. Contains the NEW RULES FOR 1904. Special articles on the game. It is, in fact, a complete encyclopedia of the game. Price 10 cents.

**SPALDING'S HOW TO PLAY FOOT BALL.** Edited by Walter Camp. Newly revised for 1904. Undoubtedly the best book ever published on the game, for it contains all a beginner should know, and many interesting facts for the experienced player. Price 10 cents.

"If it pertains to athletics, we make it."

### TRYING TO GET LODGE.

#### Seniors Want Eastern Senator for Class Day Orator.

The senior class met in Memorial hall at chapel time yesterday to listen to the reports of several committees. The committee on class day exercises reported that efforts will be made to engage Hon. Henry Cabot Lodge, of Massachusetts, as orator.

Herbert States was appointed captain of the senior football team, and Frank Beers, manager. The inter-class athletic committee is to be appointed at the next meeting of the class.

### SOPHOMORES MEET.

#### They Listen to Several Reports. —Other Business.

The Sophomore class met yesterday morning in U 106. No business of great importance was transacted, but reports from a number of committees were heard. C. A. Sunderlin, chairman of the hop committee reported substantially according to the article in another column of today's Nebraskan. Reports were also heard from the cap committee on the inter-class athletic board. The interests of the class in the year's junion annual were entrusted to the committee recently appointed by President Wolf for that purpose. This was the first meeting of the class presided over by President Wolf, who made a good impression.

### HOP MEN SPEND MONEY.

#### Elaborate Preparations in Progress for Sophomore Hop.

The annual sophomore hop, to be held Friday evening in Fraternity hall promises to be one of the most enjoyable functions of the university year. As it is the first regular dance of the year, many who otherwise would not attend will be present. The committee in charge has spared neither pains nor money in making the affair a success and the number in attendance is expected to be unusually large.

"Tommy" has been engaged for the evening, and will serve punch—something unusual for a sophomore hop. In addition to this Eddie Walt's orchestra will furnish the music. A large number of tickets have already been sold, and many students are making arrangements to attend.

### Gold by Telephone.

Among the scientific notes in Collier's for October 15, is the following rather amazing announcement.

A new way of prospecting has been tried experimentally, and is reaching the point where it is practically useful. The method is based on the differences in the electrical conductivity of the earth due to the presence of ore deposits. Most ores are much better conductors of electricity than the soil and rocks, although some others are almost insulators.

In making use of these facts to locate beds of ore two electrodes are grounded about one hundred yards apart. In the circuit is an induction coil with a glass condenser and two spark gaps. The current as it passes through the ground is tested by two telephone receivers connected to portable electrodes which are usually grounded about seventy feet apart. The make and break of the current in passing through the ground is heard in the telephone as ticks. As the electrodes attached to the telephones are moved about, the variations in the intensity of the tapping in the telephones gives an indication of the presence and position of the ore deposits. Although the method is not out of the experimental stage, yet it seems to promise much for itself in the future.

Mrs. Nilsson is in the city visiting her son Henry O. Nilsson.
