## CHARTER DAY

Contests in Afternoon.—Memorial Exercises in Evening.

Dr. Hill Will Give Sigma Xi Address Tonight.

Tomorrow the 36th annual Charter Day of the University of Nebraska will be celebrated. The following program has been announced for the afternoon:

2:00 p. m.—Meeting of the Board of Regents.

2:00 p. m.—All Departments of the University open to the public.

Music by the University band, Grant Memorial hall.

Drill by Pershing rifles, Grant Memorial hall.

3:00 p. m.—Annual indoor athletic contest, Grant Memorial hall.

In the evening will occur the mid-winter commencement and exercises in commemoration of the life of the services of the late Chancellor Edmund B. Fairfield, LL. D. The following program will commence at 8:00 p. m., in Memorial hall.

Music, "March Bonadventure (Losey)"—The University band.

Invocation—Rev. Harmon Bross, Chaplain of the day.

Music, "He Watches Over Israel" (Mendelssohn)—University Chorus.

Biographical Address—Rev. Harmon Bross.

Charter Day Address, "Ideals in the New Higher Education"—Professor Henry H. Wilson.

Music—Adagio from Concerto in D Minor (Max Bruch)—Miss Silence Dales.

Conferring of Degrees.

Music, "America"—By the audience. Benediction—The Chaplain.

The following are candidates for degrees at the mid-winter commencement:

THE COLLEGE OF LITERATURE, SCIENCE AND THE ARTS.

BACHELOR OF ARTS, 9.

Carney, Bertha.  
Cullen, Peter Cavin.  
Elmgren, David Emmanuel.

Kiesselbach, Rudolph Philip.  
Kiesselbach, Sophia Dorothea.  
Kinyon, Susie.

Orton, Olive Inez.  
Quinn, Clarence Elias.  
Woods, Willmer Joseph.

BACHELOR OF LITERATURE, 1.  
Tait, Galen.

THE INDUSTRIAL COLLEGE.  
BACHELORS OF SCIENCE, 6.

Cutshall, Lewis Alexander.  
Fawcett, George Lorenzo.  
Holmes, John Campbell.

Koch, Arthur William Frederick.  
Melick, Charles Wesley.  
Venters, Alice.

COLLEGE OF LAW.  
BACHELORS OF LAW, 2.

Chalm, Frank LeRoy.  
Roth, Harold Demo.  
Hess, Adam Komgmacher.

This evening at 8 o'clock Professor A. Ross Hill of the University of Missouri, will deliver the annual Sigma Xi address.

Dr. Clapp held the try-outs for the Charter Day exercises on last Saturday afternoon. There was quite a crowd in the armory to witness these events and keen interest was shown in the dashes. The purpose of these preliminaries was to cut down the number of competitors so that the events could be quickly run off on Wednesday.

The entries in the 25 yard dash number 24 and five men were permitted to run in each heat, three qualifying. This cut the number down to fifteen, and after the semi-finals there were nine men left for the finals on Wednesday. These men are:

Bender.  
Losch.  
Cheney.  
Knight.  
Burruss.  
Wallace.  
Reddick.  
Craig.  
Copeland.

The next events were of much shorter duration and the number of four was soon selected to compete in each event. The men and the events in which they will compete are:

Fence Vault:—  
Lucas.  
Copeland.  
Hagensick.  
Bowman.

Shot Put:—  
Weller.  
Morse.  
Hauser.  
Hagensick.  
Rope Climb:—  
Purcell.  
Williams.  
Postpupal.  
Wilson.

Pole Vault:—  
Hagensick.  
Wallace.  
McDonald.  
Morse.

High Jump:—  
Knight.  
Burruss.  
Hagensick.  
Meyer.

High Kick:—  
Wallace.  
Bowman.  
Hagensick.  
Hrubesky.

Inter-Fraternity Relay Race:—  
Delta Upsilon.  
Alpha Theta Chi.  
Phi Kappa Psi.  
Sigma Alpha Epsilon.

Many of the contestants showed good form in Saturday's contest and many records were in danger.

The men are requested to get out tonight for the last practice before Charter Day exercises.

## ENGINEER ROSEWATER

Talks Entertainingly to Students on "Paving."

Following his address Friday night on "Sewerage," Mr. Rosewater talked to the engineers Saturday morning on paving. A large crowd of engineering students listened to his interesting remarks and expressed themselves afterward as being greatly gratified at having a chance to hear him.

He followed the development of paving from the old country roads of Rome built thousands of years ago to the present day system of elaborate paving of city streets and country thoroughfares. He said in part: "The old roads of Rome must have had to withstand tremendous travel in their time, for they are still intact and show that when built they were made over three feet deep, as compared with our modern pavements of less than a foot in thickness. Although still standing, they can not be used on account of their roughness, and as all the roads of the time were built by captives, they cannot compare with modern scientific roads of today, in spite of the fact that they used more than eight times as much material in their construction as we do now."

"The great problem an engineer meets is how to make roads durable and bring down the cost of repairs to a minimum, and to this end the most important considerations are the proper concrete base or foundation, and the sub-drainage which tends to overcome the action of the elements on the pavement."

"Too many people are prone to judge the qualities of a pavement by the outside coating or veneer, when the real value of the pavement lies in the proper sub-structure, or foundation." Mr. Rosewater said the only thing about a pavement that was permanent was the repair bills which come in at a constant rate.

He then dwelt on the difficulties en-

## BAKER DEFEATED

Kansans Hold 'Varsity in the First Half.

The Second is FASTER.—The Opponents Outplayed.

Baker University basketball team went down to defeat before Nebraska on last Saturday night by a score of 49 to 19. The team from Kansas proved no match for the 'varsity five. As this was Baker's first game on their trip it gives them a bad start. The playing of both teams was very poor on Saturday night. The 'varsity players did not seem to be in their usual form and repeatedly would fumble the ball at critical times.

The first half seemed to be played mostly by the referee as he did excellent work with his whistle and called twenty-five fouls. While some of his decisions were a little of the "yellow" order yet there was a great deal of fouling by both teams. The result of the first half was 14 to 11 in favor of the 'varsity.

At the beginning of the second half the 'varsity took a brace and showed the team from Kansas what basketball really was as played by Nebraska. Burruss made some very pretty goals.

The work of Hagensick from the foul line was very good as he netted sixteen points from fouls besides throwing several goals for the 'varsity. But while the entire team played good ball their work was not up to their average form of playing.

The work of the men from Baker University was good at times but their work was not so effective as it might have been if they had played for the team instead of the individual. Many times they would take long shots for the goal and fail when if they had worked the ball up closer to the goal it would have been more effective. Lampe from Baker did fine work for his team from the foul line.

The lineup was as follows:  
Baker University. Nebraska.

FORWARDS.  
Lampe ..... Burruss  
Mason (captain) ..... Hagensick  
CENTER.  
Scholfield, Preston ..... Moser  
GUARDS.

Arnett ..... Hoar (captain)  
Bailey ..... Bell

The crowd who attended the basketball game Saturday night enjoyed a very pleasant dance after the game. Music was furnished by Quick's four-piece orchestra.

The Freshmen have appeared with new jerseys. They are black with large white oval on the breast. In the center is a smaller oval of gray and inside of this a red figure eight. They are very confident of victory. The Soph's have only one old player on the team but still hope to uphold the record made last year. On Thursday evening, Feb. 23, the two teams meet for the first of the inter-class games. Between halves a number of gymnasts, who expect to go to Chicago with Dr. Clapp, will put on a few interesting stunts. Admission will be fifteen cents.

Forbes' Stables, livery, cab and baggage service, 1125-31 P street. Bell phone, 550. Auto phone 1550.

Fresh home-made candies at Maxwell's, 1426 O St. and 13th and N Sts.

## Mid-Winter Commencement Meeting of Sigma Xi.

Dr. A. Ross Hill will speak on "The Psychology of the Scientist."

Tonight, 7:45 Memorial Hall
