## TEMPORARY LEAVE

Librarian Wyer to Serve as Librarian in Louisville, Ky.

Four Months Leave of Absence to Be Spent in the South.

The Board of Regents has lately granted Librarian Wyer a four months' leave of absence. Mr. Wyer expects to leave April 1st and will spend his time, while absent, at Louisville, Ky., where he will be in charge of the city public library. Before leaving he expects to be able to make all necessary arrangements for the revision of the stock room, according to the action taken by the library board at its last meeting. If the necessary appropriation is made by the legislature, which is very probable, the plan is to tear out all shelving in the stock room next summer and replace it with permanent up-to-date steel shelving.

During Mr. Wyer's absence Miss Nellie J. Compton will take charge of the library.

Miss Compton's experience as assistant in the library makes her entirely capable of assuming temporary charge.

Another important action of the Library Board last Wednesday evening was the adoption of a set of rules governing the administration of departmental libraries, which will be printed and distributed among the members of the University faculty.

### The "Blue Print."

The engineering annual, "The Nebraska Blue Print," is now in press and will soon be ready for distribution. The Blue Print is a publication gotten out annually by the board elected by the Engineering Society. It contains articles of engineering and technical interest, written by graduates and others engaged in practical work. It is illustrated by many handsome cuts of interest to all.

The Blue Print is distinctive from all other student publications in that it deals with important and serious subjects, making it an excellent means to demonstrate to a friend or prospective student, exactly what our graduates can do in comparison with others in scientific and technical publications. It is also the only publication gotten out by students that does not call on other organizations and societies for financial support.

Among the articles are two theses that won a Sigma Xi for their writers, and "A College Man in the Railroad Motive Power Department." There is also a timely article on "Farm Machinery and Department of Farm Mechanics in Agricultural Schools," with a description of their department first founded last year in our institution.

The above articles along with the more technical subjects make "The Nebraska Blue Print" a publication that the whole University can be proud of.

Professor Barbour, of Department of Geology, will deliver an address to the Southeastern Nebraska Teachers' Association Saturday.

Amemoir of Dr. W. Clifton Knight U. of N., '95, by Professor Barbour appears in volume 15 of the Geological Society of America.

## BAND INFORMAL

Saturday Evening, March 25

Dancing at 9:30 sharp.

...ART HALL...

\*\*\*\*\*

### BEGIN WORK MONDAY.

New Administration Building to Be Erected at Once.

The new Administration building, of which so much has been spoken and written in the past year is at last to assume definite shape. The plans of the building have been entirely completed and work will commence at once. Yesterday afternoon the exact location of the building was made and the plot staked out. Operations will begin Monday when the inclosure will be put up, preparations for excavating made and materials put on the grounds. The work will go on steadily and the structure completed as soon as possible. It is hoped that the building will be ready for occupation by the beginning of the fall term but the contractor expressed his doubts as to whether the work can be completed by that time.

The building, it is said, will be a handsome structure, possessing much more architectural merit than any of the buildings on the campus. The body will be of red brick, and the columns, windows, cornices and other adornments will be of terra cotta. It will be some what smaller than the Library building.

### "Greeks" To-day.

This morning at 10 o'clock the first game of the inter-fraternity series will be played. The two contesting teams are Delta Upsilon and Sigma Alpha Epsilon. As the men have not been permitted to practice much as yet a line cannot be drawn on a man and a winner picked, but a close game is expected.

A parade will be given down town by the fraternity men and a good crowd is expected to witness the initial game between the two north side fraternities. President Williams of the fraternity league will toss the ball over the plate for the first time starting the game.

The lineup for the game this morning will probably be as follows:

Delta Upsilon	Sigma Alpha Epsilon
Harvey..... P	Graves..... C
Hagensick..... C	Burruss..... P
Anderson..... 1B	Robertson..... 2B
Tunison..... 2B	Smith..... 3B
Kile..... 3B	Jensen..... SS
Gilroy..... SS	Carney..... LF
Day..... LF	Haymen..... CF
Hershey..... CF	Crooks..... RF
Cornell..... RF	Neider.....

Arthur Edgren entertains the D. U.'s with a house party at his home this evening.

Mabel Christie, of Omaha, and Jeanette Heinsheimer, of Glenwood, Iowa, are visiting at the Kappa house.

### LAST OF '05 COMMITTEES.

The Ivy Day Orator to Be F. M. Hunter.

President White, of the Senior class, has completed the list of '05 committees with the following appointments.

May Outing—  
J. C. Stevens, CH.  
Minnie Jansa.  
H. L. Bowlby.  
Lucy Jones.  
William Hoar.

Men's Caps and Gowns—  
Harry Roberts, CH.  
Frank Peterson.  
C. C. McDowell.

Baseball Manager—  
F. H. Geer.

Ivy Day Orator—  
F. M. Hunter.

### Sacred Concert.

Tomorrow afternoon at the Oliver Theater at four o'clock will occur the last of a series of twenty of the most successful Greater Men's Mass Meetings ever held in this city. As a fitting close to these remarkable meetings, the one tomorrow will be of unusual strength. The character of this closing service will be in the nature of a Sacred Concert, by musicians of note. Among other selections Mr. Clemens Miovius of the Nebraska Conservatory of Music, will sing "Rocked in the Cradle of the Deep."

Miss Mabel Raynor, a violiniste of the younger generation, who has made a reputation for herself, will render several violin selections.

University students from the Nebraska metropolis will testify to the merit of the vocal work of Master Wilbert Nelson, the fifteen-year-old soloist in the Trinity Cathedral of that city.

Words of praise for these artists are heard on every hand, and the University man who misses this last meeting at the Oliver will miss a treat of rare quality.

One week from tomorrow, the University Y. M. C. A. will resume its meetings in the Memorial Hall. Excellent music has already been secured, and the announcement of the speaker will be made early next week.

Let no University man fail to take in this Sacred Concert at the Oliver. Doors open at 3:30 p. m.

The United States Geological Survey will give twenty-five thousand dollars this year for additional work on the soil survey of Nebraska. Professor Barbour of the Department of Geology has had charge of this work since 1891. This is the largest amount that has ever been given for the carrying on of the work in Nebraska.

Uni. Pennants at the Co-op.

## THROUGH SENATE

Bill Empowering Regents to Condemn Lands Passed.

Only Governor's Signature Now Necessary to Secure This Privilege.

H. R. 169 which, because of the vital interest to the University attaching thereto, has been closely followed by the students in its various stages of progress through the legislature, has passed the senate, after the third reading, and is now ready for the signature of the governor. The senate acted favorably upon the bill by a vote of 20 to 10. The heading of the bill on the file, "A bill for act to enable the Regents of the University of Nebraska to condemn lands needed for said University and to provide the mode of and procedure of such condemnation," gives a good idea of the contents of the bill and also a good idea of what the passage of such a measure means to the University. Of course such lands as the Regents shall see fit to condemn will have to be purchased with University funds, but even with this restriction the freedom of choice this measure provides for is a long step in the University's favor. The bill was introduced, primarily, in order that lands directly adjoining the campus on the north might be made available and the campus thereby extended. An emergency clause was attached to the bill by the house and if the governor signs the bill immediate action can be taken by the Regents toward accomplishing this expansion.

### Varsity vs. Lincoln.

This afternoon at three o'clock the Varsity will play the first game of ball of the year on the University campus. The opponents will be a team representing Lincoln. As the strength of the city team is not known it would be difficult to pick a winner but it promises to be a very close game. The admission fee of 25 cents should permit a large crowd to see the initial game.

Nebraska will probably be represented by the following men: Bender, Morse, Cook, Fenlon, Gaddiss, Rine, Carroll, Reddick, McLaughlin, Hyde, Blake, Smith, Nilsson, Carr, Kearney, Robertson, Burruss, Denslow, Dort, Barta, Bowman and Jones.

### Well Received.

The recital given by Miss Aleyn Archibald in Memorial Hall Thursday night proved to be all the immense audience had expected and more. This was the first public recital Miss Archibald has given for some time and it added much to her already very enviable reputation as a performer on the piano. The heartiest applause greeted every number of her rather lengthy program. Mr. Eames was at the second piano.
