APRIL 15.
Varsity vs. Nebraska Indians on Campus.

APRIL 17.
Second Junior theme due at 5 p. m. in U 311.

Engineering Notes.

N. G. Kinton, electrical engineering, '98, was married in Chicago March 29, 1905. Mr. Kinton is one of the engineers for the Chicago Telephone Co.

The class in Masonry Construction has been making some tests on paving brick for the city, the standard rattler belonging to the city being out of repair.

R. L. Boehne, civil engineer, ex-'04, writes that he is still in the employ of the Union Pacific R. R. Company, in the wood preserving works at Laramie, Wyoming.

The Experimental Electro Pneumatic machine designed and used by B. J. Arnold in very important tests on electric traction has arrived. The apparatus and experiments in connection with it cost Mr. Arnold about forty thousand dollars. The machine being large and weighing six tons. There is no room in the Electrical Engineering Laboratory, so a temporary shed will be constructed for the present.

Mr. R. E. Towne, of the E. E. Department is making a photographic and photometric study of the arc light for his Senior Thesis. The particular object of the experiment is to determine the effect of alternating current at different phase angles. In order to do this an ingenious apparatus has been devised which consists principally of a slotted disc to be revolved in synchronism with the dynamo so that the slot is in position before the photographic apparatus at the instant when the phase relations that are to be studied are producing their effect upon the arc. By adjustment the entire cycle can be studied, and complete data as to lighting power on appearance of the arc obtained.

See the demonstration in Demonstration Hall, above the Gas Company's office tonight. You will be interested.

Protected by Block Signals

The first railway in America to adopt the absolute Block System in the operation of all trains was the

Chicago, Milwaukee & St. Paul Railway

It to-day has more miles of road operated under block signal rule than any other railway company. The St. Paul Road was the first railway to light its trains by electricity, and it now has more than 400 electric-lighted passenger cars in daily service. Three trains from Union Station, Omaha, to Union Station, Chicago, every day.
For time table, special rate write

F. A. NASH,
General Western Agent, 1524 Farnam Street, OMAHA, NEB.

\$18.85 LOUISIANA, TEXAS, ETC. \$18.85 AND RETURN.

The Missouri Pacific will sell tickets on February 7th, 21st and March 7th and 21st to many points in Louisiana, Texas, Arkansas and return at \$18.85, good for 21 days. This very low rate includes Galveston, San Antonio, Port Arthur, and is much less than one way fare. The Missouri Pacific has two daily trains from Lincoln to Kansas City and St. Louis and all points south, with electric lighted coaches and the best of everything.
