

**ABOUT PEOPLE**

Regent Coupland, who went to California to take a vacation, instead of remaining idle, has spent his time in performing some very interesting and scientific research work. At Pasadena, where he has been staying, there are many orange groves, and these have afforded him the field in which to work. Recently the botany department received a box of various sorts of oranges from Regent Coupland and Dr. Bessey intends to test them as to the number of seeds they contain and their quality.

**GLEE CLUB SHORTENS TOUR**

ANNUAL TRIP THROUGH STATE AND TO DENVER HAS BEEN ABANDONED.

The Nebraska Glee club, has abandoned its annual trip through Nebraska and to Denver on account of the lateness of the season. Omaha and Sioux City will be visited in the near future, probably some week end early in March. Practice is going on consistently, the club working one or two evenings every week. Professor Samuelson is supervising the progress of the Glee club members.

The Mandolin club, which will accompany the Glee club in the home concert as well as those at Omaha and Sioux City, is rapidly getting into shape under the direction of Coach Potter.

The home concert of the Glee club is one of the big social events of the spring. It is generally held early in April, and like University Night, no other event can be held at the same time.
