THURSDAY, MARCH 7, 1912

### TWO VOLUMES.

Owing to the fire yesterday morning, which demanded mention in the columns of the paper, the amount of space which would have otherwise been given to the Engineers had to be reduced. Furthermore, the Engineers proved their ability as news gatherers by turning in enough "copy" to fill the pages of two ordinary sized issues. For these reasons, the Engineers' Number of the "Rag" will appear in two volumes, the second of which will occupy a large part of tomorrow's edition.

### THE ENGINEERS.

The object of the engineers' week—to create no jealous feeling, to criticize no students of any other college, but to boost for the engineers of Nebraska. Did you ever stop and think how many of the commonplace things of this age are due to the engineers? Who builds and operates railroads, traction lines, electric lighting plants, waterworks; who develops the resources of nature, the mines, the irrigation projects, and aids commerce with such things as the Panama Canal and the modern ocean liner, whom do you find in the largest manufacturing industries, at the heads of departments? In each instance an engineer.

In this, the greatest industrial age ever known, who can calculate the part played by steam and electricity and in the case of each we find that it is the engineer who has taken the idea of the inventor or the new-found theory of the scientist and put it in operation and made it useful to man.

Such is the scope of the engineer's work and the men filling the positions are as varied as the positions themselves. All the way from the dress suits to overalls you find them.

It might be well for the engineer himself to think over these facts. Especially first and second year men, are you playing the game for all you are worth, realizing the important part you are to have in the affairs of the world? Lastly, the engineers at Nebraska, what position do they hold among their fellow students, read this paper, watch them this week and longer, if they are interesting, and judge for yourselves.

### Classes to Debate Tonight.

The sophomore-freshman debate will take place tonight in U. 106. The sophomore team is composed of Z. C.

Dickinson, Harvey Hess and Raymond Smith. The freshman debaters are S. M. Bryan, J. D. Marcellus and Thomas Hewett. The winners will debate the juniors on Phi Beta Kappa day.

For your orchestra call O. L. Jones. Auto L-8605.

### THE SONG OF THE ENGINEERS.

We've been quiet far too long,  
 Not a whisper since '09,  
 We're awake now; let's to work,  
 Come on, fellows, fall in line.

Let us show we have some "pep,"  
 Have a big time by ourselves,  
 Let your studies go this week;  
 Let your books lie on their shelves.

What's the use of such hard work?  
 We're the only ones that grind.  
 Whoop! Hooray! Let's have some fun—  
 Vaudeville will rest the mind.

Laws and Arts don't know real work.  
 Dusty books claim all their time.  
 See the muscle that we've grown  
 Working to the anvil's chime.

Sextant, transit, bellows, forge,  
 Pliers, compass, hammer, shears;  
 We're the boys that do real work—  
 We're Nebraska Engineers.  
 HARRY BURTIS.

Weber Sultorium, 1100 O St.

### A. I. E. E. TO BE ACTIVE.

Professors Again Take Charge of Organization in University.

The Nebraska branch of the A. I. E. E. membership open to junior and senior electrical engineers, was organized by Professor Hollister in the fall of 1908. Such organizations exist at many of the technical schools and universities of this country. As the name indicates, they are branches of the national body of the American Institute of Electrical Engineers, which is one of the most learned and truly scientific societies in existence.

During the past semester the Nebraska branch has been inactive, due to the fact that its management was left to the students, instead of being supervised by the professors, as was the custom previous to this time. This is truly a reflection on the electrical engineers, that they have not the interest necessary to make a successful record in this work.

However, we are glad to say that the professors have again taken active charge and have planned an excellent program for the remainder of the year, including speakers of considerable prominence in the electrical profession.

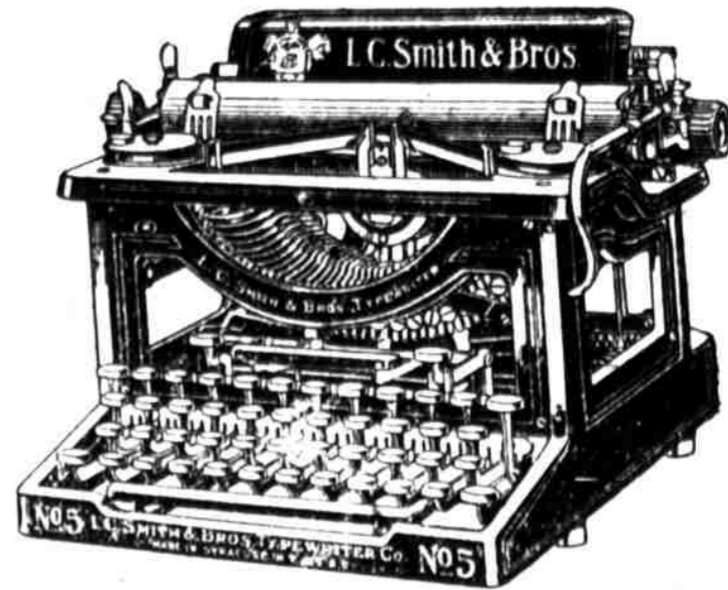

The A. I. E. E. goes on an inspection trip to some neighboring city annually. This year plans are under way for either an Omaha or Kansas City trip.

Thornburg's Orchestra delights dancers with popular hits. Auto B-2556.

### HERPOLSHEIMER'S CAFE

Dinner 11:30 to 1:30 25c  
 Supper 5:30 to 7:30

### SIG ALPHS FRAT CHAMPS

THEY DEFEAT DELTA UPSILON  
 TEAM IN ONESIDED CON-  
 TEST, SCORE 29 TO 4.

By fast, consistent team work the Sigma Alpha Epsilons overwhelmingly defeated the Delta Upsilon last evening, 29 to 4, winning the championship of the inter-fraternity series. C. Meyer and O. Meyer were the individual stars of the game. The lineup:

D. U. S. A. E.  
 Waugh ..... I. f. .... Hawkins  
 Andrews..... r. f. .... O. Meyer  
 Young..... c. .... C. Meyer  
 Bates..... r. g. .... Seidel  
 Andrews..... l. g. .... May  
 Field Goals—Russell 1, Hawkins 2,  
 O. Meyer 6, C. Meyer 3, Seidel 1.  
 Free Throws—Waugh 2 out of 5,  
 Hawkins 3 out of 4.  
 Referee—Carrier.

Coach Stiehm Returns.

Athletic Coach E. O. Stiehm returned yesterday morning from Wis-

consin, where he had gone to attend the funeral of his mother. Mr. Stiehm states that there are no new developments concerning the 1912 football schedule, but that something new may be announced within the next few days.

### MANY HEAR DR. HOLT.

Rural Life Worker Talks to Girls at Y. W. C. A.

A large number of girls heard Dr. Arthur E. Holt, the prominent rural life worker, in the Y. W. C. A. rooms Wednesday evening. He speaks at convocation today on "The New Provincialism."

Dr. Holt reviewed the life work of Obelin and in conclusion related the needs of our own rural districts.

### Reception for Junior Girls.

The Black Masque reception to junior girls will be held from 3 to 5 o'clock, Saturday, with Miss Muriel Jonea, 1418 L street. All junior girls are cordially invited to attend.
