

JUST THINK!

Vacation is over--semester's half gone--Easter's coming up, and you haven't got a spring suit yet.

Already the gardner is spading up the flower beds. That worn and wrinkled winter suit of yours will look pretty much out place in another week.

There's only one solution for for the problem--and we've got the exclusive formula--L SYSTEM clothes--\$20 to \$30.

They're created for college men --you're a college man. Therefore they are created for you.

Built to satisfy your individual requirements of physique and personality--designed to satisfy your advanced style ideas. They have the differentness of fabric, the perfection of workmanship and fit that you can't find elsewhere.

We spent the whole vacation getting them ready for you--we want you to spend a few minutes looking them over. No obligation to buy--just look. You'll see some spring togs that have it on anything you ever saw.

And paste this up in your hat where you can see it--L SYSTEM clothes are *there* --every minute, from the gun to the tape--and you'll believe it as thoroughly as we do after you see them.
