RELAY TEAMS OFF TO ENTER MEET AT DRAKE

TRACK MEN IN FAIR CONDITION
FOR CONTESTS.

MANY SCHOOLS ARE TO COMPETE

Cornhuskers Stand Best Chance of
Winning in the 220 and 880
Events.

Nebraska's three relay teams left yesterday afternoon at 2 o'clock for Des Moines, where they will enter the Drake relay meet against teams from Drake, Morningside, Chicago, Wisconsin, Kansas, Ames, Coe, Grinnell, South Dakota and others. Coach Stiehm and Assistant Coach Reed accompanied the men.

Nebraska's teams are in fair condition, but by no means as good as they will be at the middle of the season.

The three events they will enter are the 220, 440 and half. Of these three, odds are for Nebraska in the 220 and half rather than in the 440.

The following are the teams:

220—Christmas, May, Racely, Bran-non.

440—Captain Anderson, Barnes, Racely, MacGowan, Beaver.

880—Bates, Becker, Anderson, McGowan.

Three Weeks' Notice Required.

Nebraska's track team will not be broken up this year the day before a meet by the delinquency of half its members. The new eligibility rules recently put into force provide that a man must have his certificate of eligibility before he tries out for a position on any University team, and this certificate cannot be revoked without three weeks' notice. This will also prevent class presidents being declared ineligible the day after they are elected, as has happened at various times in the past.

TEACHERS ARE WANTED

MANUAL TRAINING INSTRUCTORS
ARE IN DEMAND BY NE-
BRASKA SCHOOLS.

The demand for men prepared to teach manual training in high and grade schools in the state is greater than it has ever been before. The recent action of the N. E. A. in declaring itself in favor of such vocational education has resulted in many schools installing an equipment for bench and lathe work, and the supply of teachers will not fill the demand.

There is a good chance for engineers who want to try a few years of such work at good pay to step into exceptionally good positions. Men with some athletic ability, coupled with their training in woodwork, should have no difficulty in getting positions as athletic director in some high school, where they would have charge of the manual training department also. The teachers' bureau of the University receives calls for teachers from over the state, and positions are being filled now for next year. Any men interested should apply at the office of the bureau, room 203 Administration building, to look up the proposition.

FRUIT FOR THE STUDENTS

PRIMARY DAY YIELDS JOBS FOR
MANY AND A NEAR ARREST
FOR SEVERAL.

Primary election day was a fruitful one for students of the University. Probably two score of them were employed by the various candidates to distribute campaign material and others secured jobs as clerks in the polling booths. One fortunate young man, by acting as clerk for both the city and county in the Fourth A precinct, made \$9. Others pulled down from \$2 to \$7.50.

A rather unpleasant experience was suffered by a number of members of one of the fraternities. These young men were employed by the Taft camp to write certain data on the sidewalks in chalk. It happens that this is in violation of a certain city ordinance anent the marring and defacing of public property. As a result the students fell into the hands of the police, but were released on their own recognition to appear Friday morning in police court. Nothing of consequence, however, came of the affair, the city attorney ruling that unless the owners of property along the sidewalks objected to the writing, there was no direct violation of the ordinance. No such objection was made and the youths were released.

Much difficulty was encountered by many in casting their votes, since a large share of the men students of voting age had failed to register last registration day. In consequence they were compelled to secure two freeholders from the precinct in which they resided, go to the city hall and there fill out a certificate signed and sworn to by the freeholders. An unusually large number of student votes were cast and, according to Lincoln politicians, the University vote will be felt in the general result in the city.

TWO FRAT GAMES TODAY.

Phi Gams Meet Sigma Nus and Alpha
Thetas the Delta Taus.

Sigma Nu meets Phi Gamma Delta in their annual clash this morning at 9 o'clock. Owing to the fact that the athletic field cannot be secured, the game is to be played at Twenty-second and J streets.

Both teams are somewhat crippled by the enforced absence of their star players. Racely, who generally pitches for the Phi Gams, is with the track team at Drake, and Fisher, the Sigma Nu's star pitcher, is rendered unfit by an attack of the mumps.

Alpha Theta Chi will play Delta Tau at the same field or on the State Farm diamond at 10:30 o'clock.

Blue Print Gets Exchange.

Fred A. Wirt, business manager of the Blue Print, received yesterday a box containing 150 copies of the Michigan Technic. This is an exchange magazine and a copy is given to every subscriber of the Blue Print. The Minnesota and Colorado engineering annuals are also on the exchange list of the Blue Print, but have not arrived yet. The second number of the Blue Print will be out about May 15. This is the first year that two numbers have been published.

MORE FLOWERS SENT NOW

MEN PAYING GREATER ATTEN-
TION TO THIS FEATURE OF
FORMAL PARTY SEASON.

While there has been a great deal of talk this year about the extravagant cost of formal parties, little attention has been paid to the item of flowers.

More flowers have been sent during the present formal season than ever before. Formerly, even at fraternity formals, it was unusual to see more than two or three co-eds wearing flowers. Now, however, at all formal parties at least half of the fair sex come into the dance hall wearing bunches of roses or other favorite flowers. There is one custom in particular that seems to have sprung up only this year, the representatives asked from other fraternities very often send flowers to the girl they are invited with.

"I felt rather guilty at first," said one co-ed, "when the men would ask what color of flowers I wanted. It did seem rather extravagant to let them buy them. But the more I thought about it, the more I thought that it was a whole lot better for the men themselves to spend their money on flowers than on pool games and tobacco. So now, every time I get flowers I just think that I am helping the men and I accept them with thanks."

COMMITTEE ON MEDICAL BLDG.
Final Consideration Will Be Given
Bids Today.

The property committee meets today in Omaha for the final consideration of the bids for the medical building in that city. Chancellor Avery, Dean Wolcott and Superintendent Chowins will go up from the University, to meet with the other members of the committee, Regents Whitmore, Lyford and Coupland, and Dean Bridges of the Omaha Medical College.

IOWA MEETS HARD LUCK.

Teams May Not Be Entered in Drake
Relay Carnival.

High waters have seriously hampered early spring training at Iowa. The track men have been compelled to do their training on the roads around Iowa City. It is unlikely that the teams will be entered in the Drake relay carnival at Des Moines.

The baseball squad has fared somewhat better, having used Rundell Park diamond in East Iowa City, where the local semi-pros. play.

EVEN SO.

Mary had a little lamb—
'Twas Persian—on her coat;
She also had a mink or two
About a dainty throat;
A bird of paradise, a tern,
And ermine made the hat
That perched at jaunty angle
On her coiffure, largely rat.
Her tiny boots were sable topped,
Her gloves were muskrat, too,
Her muff had heads and tails of
Half the "critters" in the zoo;
And when she walked abroad I ween
She feared no wintry wind.
At keeping warm, 'twas plain to see
She had all nature "skinned."
—Orange and White, Tennessee.

FOOTBALL CAPTAINCY NOW IN BOARD'S HANDS

"N" MEN AGAIN FAIL TO CHOOSE
A LEADER.

SIX VOTES FOR ERNIE FRANK

But a Majority of the Fifteen Eligibles
Is Required to Elect a
Candidate.

At a meeting of the athletic board yesterday afternoon a vote for the 1912 football captain was held by the members of the 1911 "N" men present. Only nine football players were at the meeting, not a sufficient number to decide the election, since the ballot resulted six for Ernie Frank to three for Harmon. A majority of the fifteen eligibles is required by any one candidate for the captaincy.

It is uncertain just when the football election will be settled, as the matter is now in the hands of the athletic board. This latter body, instead of the football "N" men, will choose the captain. Not enough of the members of the athletic board to constitute a quorum were present yesterday afternoon and so no vote was taken. A majority of the eleven members of the athletic board will be sufficient to make a choice.

Trip for Baseball Team.

According to a rumor prevalent among members of the baseball team yesterday, a trip will soon be taken by the club through Missouri and Kansas, a number of games being scheduled with college teams, among which is the University of Missouri. Since both Coach Stiehm and Athletic Manager Eager were out of the city last night, this report could not be confirmed.

GERMAN STUDENT PLAY

BIG AUDIENCE ENJOYS CLEVER
ACTING IN "MINNA VON
BARNHELM."

The Deutsche Verein last night presented "Minna Von Barnhelm" at the Temple theatre as their annual play. The large audience which attended was highly pleased with the performance and the high standard which has been set by University dramatic organizations was well maintained by the entire cast.

The pantomime was so excellent that even those who could understand but little German were able to follow the details of the plot with ease.

Professor Amanda Heppner, who coached the play, deserves great credit for the histrionic talent which she brought out in the players. The work of Alvina Zumwinkel in the character role was one of the best features of the performance.

Geology Class on Trip.

The members of the class in Geology 31, under the supervision of Professor Schramm, left Thursday for Roca, Nebr., where they will make a topographical map of the surrounding country. They expect to return the first part of next week.
