DIFFERENCE OF A FEW MONTHS.

This is the season of the year which demands will power. It was easy enough to enter the warm regions of the Library last winter when the snow swirled about the corners and the electric lamps within cast a cheerful glow over the faces of the absorbed students. But now, the warm and enticing zephyrs have supplanted the swirling snow, the glow of the electric lamps is eclipsed by the beams of the lunar planet which revels in the charm of the May evening. The trees cast a soft and mysterious shade over the moonlit campus, the popcorn wagon hovers about the gates like a vulture, the call of the soda fountain is like that of a siren, the girls look particularly charming, and all in all, the outdoors seems to offer the only logical inducements.

The faithful one labors hard through all these difficulties, and him whose conscience pains him equally as much as it did last fall, when he went unprepared to classes, who grinds his teeth and wades through the pages of Blank's treatises on "The Theories of How to Study," is one not only to be pointed out as unusual, but one to be admired.

A DESERVED SUCCESS.

The first band concert was a success in every respect. The music was good, the crowd was gratifying and in spirit and everything turned out remarkably well, considering that it was the initial attempt. One of the most encouraging incidents of the evening occurred when the band played that well known air, "U. I. UNI—" and the whole crowd took up the tune and sang it lustily; those who couldn't sing yelled or whistled and the atmosphere was rent with such enthusiasm as is seldom evinced outside of football season.

You remember that BIG FOURTH OF JULY CELEBRATION. Well, it won't HOLD A CANDLE TO "THE DIPLOMAT." You had better get those tickets before it is TOO LATE. Gorgeous costumes, great music, good lively cast—53. Got ding it, Em going.

Stout in New Office.

Prof. O. V. P. Stout, lately made dean of the engineering college, has fitted up and moved into a new office on the second floor of mechanics art hall. A novel feature of the furnishings is that all the pictures are to be of locations and constructions by former Nebraska students.

Henry Van Wesep, a senior at Michigan, within a single day learned that he had been elected to Phi Beta Kappa, that he had been offered a \$300 fellowship in philosophy at Michigan, and finally, that he had been awarded a similar fellowship at Princeton university worth \$500.
