A PROSPECT FOR REAL NEWS

Yesterday's "Rag" made known the fact that the publication would continue during camp week in its usual peaceable condition, with the exception that the major part of the staff would not be on duty. In view of the action of the publication board at yesterday's meeting, we are forced to counteract the above statement, and to prophesy that the issues of the eventful week will contain more real news than ever before.

We have no doubt of the ability of the co-eds to collect news and feel sure that they will grasp this golden opportunity to display their prowess and to prove to the sterner sex that the work of a newspaper lies easily within their power.

It is the idea of the board that every co-ed shall contribute something, be it ever so humble, and the newly elected associate editress intends to see that the idea is, to the best of her ability, carried out. Of one thing we feel sure, that the heretofore rather vacant column headed "About People," will not need advertisements to give it sufficient length. The co-eds put out a very creditable issue last fall; the question now arises, can they do equally well for a week in the spring?

A FATAL FIGHT.

The editor is forced to plead guilty to an egregious error which occurred in the course of last Wednesday's editorial. In a flight of fancy regarding the excellencies of classical music, he lost his balance and fell, only to refer to Tanhauser as a famous musical composer. No doubt the noted genius turned in his grave to hear the name of his famous production thus identified as himself; otherwise the error had no serious results other than to furnish amusement for the faithful few who read the editorial column.

WILL BE THE SPICE OF LIFE

JOKE SECTION OF CORNHUSKER TO BE THE BEST OF STUDENT WIT.

The College Life section of the Cornhusker, usually known as the Joke section, is to contain fifty pages of the most spicy and interesting material which the University wits, photographers and literary geniuses can produce. This material has been selected from four times the amount which is to be used, an amount sufficient to fill an entire Cornhusker by itself.

In order to use as much of the "good" material as possible the printing is to be done in small type, but only that will find its way into the section which is strictly first class and intensely interesting. These fifty pages will be devoted to humorous write-ups, personal comments, snap shots of the unusual variety, and, above all, cartoons.

The book will be distributed not later than May 24th, and possibly on Ivy Day. Had it not been for the illness of the editor, the Cornhusker would even now be in the hands of the students.

TO MARCH TO CRETE

THE PERSHING RIFLES ADOPT STRENUOUS KIND OF TRANSPORTATION.

This year the Pershing Rifles will march to the cadet encampment which will be held at Crete, Nebr.

The Pershings will be excused from all classes after 4:00 Monday afternoon, and directly after that time the march will begin. At night fall camp will be pitched half way between Lincoln and Crete.

Owing to the fact that the Pershings want this "hike" to be a memorable occasion, every member of the organization is urged to show up Monday evening with his equipment.

All students should visit the "College Inn Barber Shop at 127 North 12th. S. L. Chaplin, Prop.

SCIPIO DESCRIBES SYSTEM.

Lectures on Sanitary Problem Confronting Cities.

Prof. L. A. Scipio gave an interesting address before the Engineering Society, Wednesday evening, on certain features of garbage disposal in large cities, paying especial attention to the destructor.

Professor Scipio has made an exhaustive study of this subject, having investigated the garbage disposal systems of about one hundred of our large cities. The subject is one which is occupying much attention at present and involves interesting features unknown to the ordinary citizen.

Subscribers to the Rag have had three months since Tag Day to pay their subscriptions. Please pay up at once.

SATURDAY

WE OFFER

1000 25c Four-in-Hand Ties **14c each**  
Seven for 98c, or . . . . .

It has been said that men do not appreciate bargains—let's see. A prominent tie manufacturer in Boston, recently protested that his goods were not appreciated "in the west" and in order to show these westerners, just how good a tie could be made and sold for a "price," turned out a big lot of these ties, of which we secured one thousand, for a two days sale.

These ties are made of Barathea Silk---42 inches long---reversible. Just the thing thing to wear with soft front shirts when the vest is discarded. Come in the new and staple shades, such as

TAN—BROWN—TAUPE—WISTERIA—HELIOTROPE—PURPLE  
MYRTLE—APPLE—OLIVE—RESEDA—NAVY—MARINE  
ROYAL BLACK—WHITE—RED—GRAY
