

**NEW STUDENT ENTERPRISE.**

**Nebraska Undergraduates Building Up a Business to Help Pay Expenses Through College.**

H. B. Hewitt and D. D. Marcellus, sophomores in the University, are responsible for the establishment of the Students' Sutorium. This is the latest addition in the way of student enterprises, and is open for business at 504 North Fifteenth street.

Although there is no scarcity of such establishments in the city, these men believe that there is room for one more. They aim to give their whole attention to handling student work. Being students themselves, they claim to know the exact amount of snap which must be instilled into a newly pressed suit in order to satisfy the most exacting follows of Beau Brummel.

Both men are experienced in the business and claim to give no better service than the rest, but as good as the best. Special rates are offered to fraternities and to those outside the Greek world they give clubbing rates.

The democracy of Nebraska University has always respected the enterprise shown by students who are will-

ing to work for their sheepskin. It is for this reason that Hewitt and Marcellus lay claim to the student trade.

**CALL FOR CROSS-COUNTRY.**

**Men Interested in Marathon to Report at Gym.—Three Vacancies on Team.**

Cross-country work will begin in earnest this afternoon at 4 o'clock, when all men interested in long-distance running will start fall practice. Captain Boggs, Swanson, and Cales of last year's team started their workout yesterday.

There will be at least three positions to fill on this fall's team. This is the team which competes in the conference championship at Chicago, and is well worth trying for.

Freshmen and sophomores with designs on the annual Marathon, which is a part of the Olympics, are expected to begin working out at once. Dr. Clapp and Guy Reed, who will assist all men interested in cross-country,
