

**MULLIGAN LONE MAN**

BEATRICE MAN A CANDIDATE FOR SENIOR PRESIDENCY.

**FILING CLOSES THURSDAY**

Class Politicians Slow in Getting Machinery into Action—Other Filings Expected Soon—No Names Later than Thursday.

The "general election" in University politics is but one week away, yet there is only one man at whom you can point your finger and say, "There's a candidate."

Harold R. Mulligan, of Beatrice, has announced that he is in the race for the presidency of the senior class. He is well known among the students of his class, made his "R" in football last year, and is slated for a place with the Cornhuskers this season. He is a member of the Delta Tau Delta fraternity.

Other candidates for the honor will not be lacking, in all probability, as the time for the election draws nearer, but at present no others have signified their intention of placing their names on the ballot.

Among the juniors there is a suppressed air which indicates the liveliness of the subject, but as yet no one has been announced for the race. It is thought that before the day is over one candidate at least will be announced. The junior plum is one which usually falls after a hard fight, and those who contemplate running are probably unwilling to act hastily in their plans.

In the two lower classes there seem to be no signs of life, which, considering the spirit that these classes usually show, is rather strange. With Thursday the last day on which it will be possible to file applications, the time for organization or even spontaneous action is growing limited, and there will have to be a mighty upheaval in these classes when anything is started. Lincoln and Omaha were both represented in the presidential chair of the freshman class last year, so it is probable that an effort will be made to unite on some out-state man for the first semester of the second year.

Among the freshmen the lack of interest shown denotes the absence of leadership or initiative, and it evidently evolves upon some of the ex-high school spellbinders to gather up the wandering elements of the class and effect an organization of some sort. In the past the difficulty has been to

choose the right man from the many applicants, not to choose the applicants from the many in the class, and in all probability this year's class will blossom out in time.

Prospective candidates are warned that if they wish to have their names on the ballots they must have their applications filed with the Registrar before Thursday. No names will be considered at a later date.

**FRAT RUSH BEGINS**

(Continued from Page One)

"pulled off" on the unsuspecting freshmen. They run all the way from a longdistance auto ride to Omaha for the Ak-Sar-Ben festivities to "peanut lunch" in the University cafeteria.

Freshmen before they can pledge any fraternity must be registered for at least twelve hours in the University, and able to present twenty-eight University entrance credits.

**FASHIONS APPAL MERE MEN**

(Continued from Page One)

The fair damsels appear to be constantly watching for a "young Lochinvar to come out of the west" (apologies to Miss Howell). We fellows in our last winter's "hand-me-down" blue serges feel simply outclassed, that's all. Is it any wonder that so many of us (?) are forced to become students instead of fussers?

**A. S. M. E. to Meet.**

An important business meeting will surely be held tonight in M. E. 206. Every mechanical engineer is urged to be present.

P. S. TONEY, Chairman.

**Rooting Section Enlarged.**

As an inducement additional to the financial one, the athletic management has arranged to reserve the best seats of both grandstands for the holders of season tickets. The girls' section will consist of the entire "D" section, the middle part of the north stand, while the men's rooting section will be in the middle part of the south stand. The rooting section this year will be almost three times as large as that reserved last year, in addition to being in the best place. The holder of a season ticket, therefore, will be better off than the fellow who occupies a reserved seat.

**May Reserve Seats.**

Reserved seats, however, may be secured by the fellow who wants to take "her" along by the exchange of his ticket and a small amount of cash extra. No regular reserved seat sea-

Brighton

**L SYSTEM CLOTHES**

not only look well in front the first time you put them on, but they look well from every angle as long as they last.

The reason is that L SYSTEM makers specialize in making distinctive clothes for young fellows to compete with tailor made garments.

L SYSTEM do this and do it successfully they never fail to delight the young men who wear them.

Stop and let us show you some live new models for fall—\$14.50 to \$30.

**MAGEE & DEEMER**

son tickets are being sold this year. The demand for them last year was so small that the management decided to drop them.

It is whispered by those who know that in spite of Coach Stiehm's "bear stories," the Cornhuskers will still be able to show how they used to do it. To the upper classmen, it is not necessary to say that the Kansas game will be worth the price of two season tickets, but a word to the freshman—buy a season ticket, join the rooting squad, and show every one what is meant by "A Loyal Cornhusker."

W. F. Goodbody, last year's tennis "shark," has been in the city for a few days, and he expresses disappointment that the work on the tennis courts has progressed so slowly.

**THEATRES**

**..OLIVER THEATRE..**

TO-NIGHT and ALL THIS WEEK

Change of Play Every Night

**Gertrude Ewing Company**

To-night—"A Divorce Cure"
