VOTE TODAY.

The Nebraskan urges members of the freshmen and junior classes to get out and vote today.

The Australian ballot has been secured for Nebraska only after several years of agitation. It is the duty of the student body to make it a success. If they really believe it to be an improvement over the old system.

There is little incentive for the seniors and sophomores to exercise their right to vote on account of the absence of contests in their respective classes. The University looks, therefore, to the juniors and freshmen to make the first trial of the new voting system a success.

WILSON'S VISIT.

Woodrow Wilson was a guest of the students for a short while Saturday, and the tribute that was paid to him at the time is indicative of the esteem in which he is held by college men.

The Wilson visit to the Temple was inspired by a nonpartisan desire to extend a welcome to a great man. There need be no political significance attached to the demonstration accorded Governor Wilson by Nebraska students.

Governor Wilson is the most conspicuous living exponent of the college idea in politics, and the enthusiasm manifested over him by college men is to a considerable extent an expression of their appreciation of his stand, as a college man, for higher ideals in public life.

BOOK STORE CHANGES HOURS.

Open Now from 10 to 12 and 3 to 5—
Open All Day Formerly.

Beginning with this week the Regents Book Store, in the basement of the Administration Building, will be open from 10 to 12 in the morning and from 3 to 5 in the afternoon.

Formerly the store has been open during the entire day. After the first few weeks of school it is not found necessary to keep open all of the time.

Forestry Grad. Gets Good Job.

H. H. Greenamayer, who graduated from the forestry department of the University in 1910, has recently been promoted to the management of a forest experiment station near Quincy, Cal. This station is the sixth of its kind in the United States, others being located in Arizona, Utah, Colorado and Idaho. What relation the state experiment stations bears to agriculture is analogous to the relation of forest experiment station to forestry.
