NEW PLAN FOR OLYMPICS

Jack Best Offers Heavy Roller Pull Instead of Tug-of-War—Each Class to Roll Half of Athletic Field.

Jack Best is the author of a novel plan for the Olympics. He proposes a contest in which a heavy roller is to be used instead of the tug-of-war. Each class is to pick out a team of a limited number and instead of pulling against each other each class is to roll the one-half of the athletic field with a heavy roller.

Anyone who has walked over the athletic field can easily see the logic of this plan, and the chances are that there would be less sprained ankles and minor injuries among the Cornhuskers if such a plan be followed.

To pull this roller around the field several times would test the strength and endurance of the team better than a tug-of-war, and it would prove a great deal more interesting.

RAH! RAH! MUSTACHE CROP

Harvard Has Bumper and Wellesley Girls Like 'Em.

Harvard has a wonderful growth of mustaches this year. The crop is far enough above the average to be called a bumper. Most of the mustaches are dapper little affairs. They look cute, and more than one proud student has resolved to have lip protection for the rest of the year.

The pretty conceits haven't made what might be termed a smashing hit with the Radcliffe girls, but this cold reception has failed to nonplus the young men. They have had unprecedented success at Wellesley, according to reports that have come from private advices, and it is a safe bet that as long as Wellesley stands for them they will stay and grow.—Chicago Examiner.
