ART PRINTS ON EXHIBITION.

Prints from Mr. Godfrey Rhoades' Collection Among Them.

Through the excellent work of Prof. Gruman and his assistants the art prints have been catalogued and are now at the disposal of any department in the University that may have use for them. A special exhibit of the Greek mythology prints has been hung in the art gallery and are on exhibition. Among these prints are some excellent ones from a collection of Mr. Godfrey Rhoade's masterpieces, also on exhibition.

BIG SUCCESS AHEAD

PROSPECTS FOR HOME-COMING DAY INDICATE LARGE CROWD.

OLD GRADS LOYAL CORNHUSKERS

Omaha Alumni Coming in a Body-Alumni Banquet, Olympics and Social Affairs Prove Very Attractive.

From all indications the first homecoming day for Cornhusker alumni will be a big success. Letters asking for seats to the Kansas game are pouring in on Manager Reed from all sides, and it looks as though the attendance at this game will be larger even than that of the Michigan game last year. Omaha alumni are making plans to come down in a body. The University Club is behind the movement in Omaha, and they promise not only a record attendance but several other features, which they refused to reveal as yet, that will be proof positive that they as a body are loyal Cornhuskers.

The alumni banquet, which will be given on the evening of the Kanses game, will be for old "grads" only. It will serve not only as an occasion to revive past memories but to help boost the welfare of the University. Several important things which the University is badly in need of will be discussed at this meeting, and it is hoped that something definite will issue.

In addition to these two big attractions there are many others, social, fraternity affairs, and lastly the Olympics in the morning. With all these things to attract, it is a very poor Cornhusker indeed who could stay away merely to garner in a few rere "simoleons." -0H.

APLAUDS CO-OPERATIVE SPIRIT

R. M. Meyers, After Visiting University, Speaks Highly of Idea's and Broad Interests of Faculty.

Mr. R. M. Meyers, managing editor of the Co-operative Journal, visited the University of Nebraska not long ago. and in a recent issue of the periodical he speaks very highly of the work done here and the beauty of the campus. Of the work of Chancellor Avery and Dr. Condra in promoting the "cooperative" idea, he speaks warmly.

"Dr. Condra," he says, "stands for promptness and efficiency, and in his activities throughout the state he is likewise intensely practical. The faculty stands for high ideals and broad interests."
