REMOVAL GETS SETBACK

NEWLY INSTALLED GOVERNOR
OPPOSES FARM AS UNIVER-
SITY SITE.

SEPARATION IS NO HANDICAP

Consolidation With Agricultural School
Would Take Means of Support
From Many Worthy Students.

University removal was one of the points brought out in the messages of ex-Governor Aldrich and Governor Morehead yesterday afternoon in the joint session of the house of representatives and senate. The retiring governor favored the removal of the university to the State Farm while Governor Morehead takes the other stand. Without a doubt the removal question will come up again this legislature and the question may be settled once and for all. On the question of removal Governor Morehead had the following to say:

"I favor a liberal policy towards our educational institutions. Our state ranks among the first in the union in her educational advantages, and I am confident that our people want appropriations sufficient to maintain her standing as a progressive state in educational affairs.

"Our university has made remarkable advances, and I am satisfied it is in the control of splendid men, and under wise management. This institution, however, is handicapped for want of revenue, its funds being raised entirely from direct taxation. This condition, therefore, would cause me to be opposed to its removal from its present location, especially in view of the fact that removal would mean a practical total loss as far as the present buildings are concerned, and would undoubtedly mean a great sacrifice in the value of the present site.

"It is no serious handicap for the agricultural college to be separated from the main university. In its present location, the university is more accessible to the large body of students, especially those who are compelled to seek employment during their college course. This latter feature cannot be emphasized too much as the state has no more important asset than these self-made young men and women who are seeking an education. In this connection I would add that in my judgment the efficiency of our state normal schools could be increased by placing these institutions under the control of our board of regents, or the board of control.

Aldrich's Argument.

The retiring governor said in part: "The question is, from a financial standpoint—would it be cheaper to purchase more ground for purposes of enlarging the campus, or erect all new buildings from now on out

ENGINEERS ENJOY LECTURE

Professor Ferguson delivers Interesting
Talk on Electric Arc.

At a meeting of the Engineering society Wednesday, Prof. Ferguson gave an interesting illustrated lecture on the electric arc.

At a short business meeting held before the lecture considerable discussion was aroused by the report of the business manager of the Blue Print in regard to the poor support of the Nebraska publication compared to that given the publications of other engineering colleges.

Secretary Toney, for the A. S. M. E., submitted a resolution urging the selection of some night to be known as Engineers' night, when the engineering laboratories should be in charge of students and open to the inspection of the public, in particular members of the legislature. This matter was referred to a committee.

FRIDAY, JANUARY 10.

Alpha Phi house party.
Union.

Palladian.

Junior hop, Lincoln hotel.

Achoth dancing party, Music hall.

Phi Gamma Delta, Fellows hall.

SATURDAY, JANUARY 11.

Agriculture club meeting.

Alpha Phi house party.

Alpha Chi Omega house party.

Chorus party, house of Mrs. Raymond.

Forestry club dance, Music hall.

Kearney club meeting.

Sigma Alpha Epsilon house party.

Pershing rifle smoker.

Sigma Chi, annual banquet.

Delta Delta Delta house party.

"EINE MUSS HEIRATEN"

German Dramatic Club Puts on
Comedy in Temple Last
Evening.

The German Dramatic club presented an one act comedy at the Temple theater, Thursday evening, entitled: "Eine Muss Heiraten."

Arabella Nerdenberg, Irma Gibson, Anabella Nerdenberg, Mary Holcomb.

Claudine Sternheim, Mabel Pope, Susanne (The Maid), Alveria Bloemenkamp.

These little sketches in German are very popular, not only with the students, but also with many people in the city who are interested in German dramatic art. Many of the new members who were recently taken into the club, show great dramatic ability and several plays will be given in the near future.

GOING TO CALIFORNIA

Prof. Webster Will Be On Summer
School Faculty

Prof. Hutton Webster has accepted an invitation to join the faculty of the University of California for the summer school season. He will give courses in primitive culture and folklore.

MONEY COMES FOR STATUE

Komensky Statue Practically Assured
by Growth of the Subscription List.

Practically every state in the union is represented in the subscription list to the monument of the great Bohemian educator, Komensky, to be erected on this campus. The Komensky clubs of the United States are enthusiastically boosting the idea both financially and through the Bohemian press. Miss Hrbek, who has taken the leading part in securing the statue, estimates that over one-third of the total amount necessary has been subscribed. A Christmas gift of \$100 was received by the department this week from Francis Korbel of Prague, Bohemia. He was formerly the United States consul to that country. Mr. Korbel evidently does not believe in the educational value of marble statues, for he expressly provides in his letter that the money be used to point out the advantages of higher education to the young people of the state. The Bohemian department religiously adheres to its belief in a Santa Claus.

STAFF TO BE ELECTED SOON

Publication Board Meets This After-
noon to Appoint Nominat-
ing Committee.

The Student Publication Board will meet this afternoon in Dean Stout's office in Mechanic Arts Hall for the purpose of selecting a committee on nominations which will fill the places soon to be vacated on the staff of the Daily Nebraskan.

As has been the custom in previous years, the tenure of the editor expires at the end of the first semester. Positions in the business department terminate automatically, as they are elected at the beginning of the second semester and hold office for one year.

The positions to be filled by the board at a time they will fix today are as follows: Editor-in-chief, managing editor, two associate editors, business manager, assistant business manager, and circulation manager. Announcement will be made at a latter date when applications for these positions will be received by the Board.

GOING TO WESTERN MEETING.

Prof. Reed Goes to Chadron Today to
Meet Principals.

The first lecture this morning will be at 10 o'clock and will be illustrated. The subject is, "Seed Collecting."

Prof. A. A. Reed left last night for Chadron, where he will meet several of the school men of that region for a conference. A change in the school courses is being considered and the university program will be consulted with that end in view. Saturday a district meeting of the high school principals will be held, at which Mr. Reed will also be present.

MEET COTNER TOMORROW

STIEHM'S NEW MACHINE TO TRY
PROWESS ON NEIGHBORS.

GAME MAY FORECAST SEASON

Victory Two Years Ago Gives Cotner
Men Nerve to Try Luck Once
More—Are Well Organized.

The Cornhuskers supporters will have their first opportunity to see the "Five" in action against Cotner Saturday evening. From all reports which are abroad the Cotner squad are in excellent form and expect to repeat the performance of two years ago when they put the "kibosh" on Stiehms husky athletes. However as the bunch is feeling somewhat cheery themselves Captain Carrier expects "to do as much for them."

The Cotner bunch have been showing up splendidly in practice and should be taken with a certain degree of seriousness. Although it is yet rather early in the season to form any opinion as to the prowess of the bunch a great deal may be ascertained from its initial performance.

Reports from other Missouri valley camps indicate that they are taking especial interest in the Cornhuskers. If extraordinary form is shown early in the season on the part of aforesaid "Cornhuskers" it may have a decided influence on the playing of the other M. V. teams.

JUNIORS DANCE TONIGHT

First Hop of Junior Begins at 8:45
This Evening—Limited to
100 Couples.

At 8:45 this evening will commence the grand march for the Junior hop. The tickets for this affair have all been sold for over a week, and the notice has gone around that no one will be admitted without the bit of pasteboard which bears the stamp of the auditor of student organizations.

Reed O'Hanlon will take charge of the dance as master of ceremonies. Kirk Fowler is chairman of the committee.

WRESTLERS ELECT OFFICERS.

Gunther Get Presidency of Mat Men's
Organization.

Plans for the coming wrestling tournament to be held in the early spring were made Thursday morning. The wrestling leaders of the university plan to organize a club where this sport may be carried on and by which more concerted action may be taken.

At the meeting F. J. Gunther was elected president and Carl Ganz was chosen secretary. On account of the small crowd present another meeting will be held sometime next week.
