Woul Foster Unity.

Most of the speakers confined themselves to arguments in favor of the University activity. C. A. Sorenson in answer to the assertion that removal would discourage student employment, urged that a greater per cent of farm students earn their way through college than do students on the city campus, and that in many cases the principal work done by students was performed on Saturday. He referred also Wesleyan students in the city as tendthe limits of the city.

Students Unsociable.

Anon Raymond pointed out that what the students needed mostly was There are several men to be chosen sociability with and among themas there is a good reward in sight selves, and that under the present socalled "city system" they were practically denied any of this. He favored removal as a means toward the creation and establishment of a more thor-
