

### TRACK VETERANS SCARCE

REAVIS, BEAVER, RACELEY, AND LINDSTROM FORM MAINSTAY OF VARSITY TRACK TEAM.

### THIRTY-FIVE OUT FOR PRACTICE

Coach Reed Preparing a Team for Kansas City Meet, March 1, and for Special Relay Race With Oklahoma.

Track work for the coming season has begun in earnest. A squad of about thirty-five men has been getting out for the last two weeks. Although only four of last year's men, namely Lindstrom, Reavis, Beaver and Raceley are back again this year, the prospects for a good season are bright. Several new men have shown up in good form among whom the best are Meyer and Zumwinkel in the sprints, Halligan and Kruse in the high hurdles; McMasters, Anderson, Kunick and Cutright in the distances and Reese as all around athlete who will develop into one of the best men the Cornhuskers ever had.

The first meet will be held on March 1, at Kansas City. The relay team is entered in this meet and a special match race has been arranged between Oklahoma and Nebraska. In the one mile relay race Oklahoma will have two of the fastest men in the west on her team, namely Courtright and Reeds who were on the football team last fall.

On March 8 the relay team will make a trip to St. Louis to compete in the Missouri Athletic club games. Tryouts for these two meets will be held on February 16 at 4 p. m. All men are urged to try out because there is a great opening for new material this year.

### BOTANY SCHOOL SYNOPSIS HERE

Announcement of Summer Session of Graduate School in Plant Ecology —Prominent Educators in Charge.

The Botany department has received a synopsis of the coming session of the graduate school of Plant Ecology, held from July 1 to September 1. The laboratory is situated at Minnehaha-on-Ruxton, Manitou, Colorado. It is 8,500 feet above sea level on the cog railway between Manitou and the summit of the peak. The climate is said to be ideal, the temperature at no time exceeding 15 degrees Fahrenheit.

The course is open to a limited number of graduate students not to exceed 12, and the tuition is remarkably low. Frederick E. Clements, Ph.D., of the University of Minnesota, is in direct charge of the researches. He is assisted by Raymond Pool of the local Botany department, Edith Clements, and H. L. Shantz, special lecturer of the Bureau of Plant Industry, Department of Agriculture. Detailed information can be secured by those interested by writing to Dr. Clements at the University of Minnesota.

### TEXANS WALK OUT

Punishment for Hazing Causes Strike of Entire School in Pan-Handle State.

Four hundred students of the Texas Agricultural and Mechanical college are on a strike as the result of the peremptory dismissal of forty of their comrades, convicted of "hazing." It is reported that the entire college has walked out, but President Miller admits of only 400. Nevertheless the outgoing trains from College Station are carrying hundreds of students back to their homes. The president claims that he will remain firm in his stand, and that there will be no interruption in the regular class schedule.

Latest statistics show the leading colleges to rank as follows in regard to the number of students enrolled: Columbia, 9,007; California, 6,457; Chicago, 6,351; Harvard, 5,729; Michigan, 6,620; Cornell, 5,412; Wisconsin, 5,141.

Several good positions on the editorial staff of the "Daily Nebraskan," are open to students who want to get into the spirit of things. Applications will be received by Editor Rein from 5-6 p. m.

With the Helen Alton octave of splendid grand opera voices at the Orpheum this week. A wealth of the most charming grand opera selections will make "The Florentine Singers" one of the most pretentious musical numbers of theseason. Marion Littlefield is a glorious voiced contralto and a very comely woman is the star of the aggregation. A special set is carried and effective costumes make the act most pleasing to look upon. The admirable taste used in the choice of numbers show to the best advantage the excellent voices—four male and four female. They have a most extensive repertoire and change their selections several times during the week.
