

ANNUAL STAFF SWAMPED

CORNHUSKER MANAGEMENT
FINDS WEEK FILLING
UP RAPIDLY.

SOME ORGANIZATIONS SLOW

Although Pictures Were Late in
Coming in Orders Will Be
Taken in a Few Days.

Spring weather finds the Cornhusker staff swamped with work and filled with anxiety lest the annual be not seasonably completed. A good share of the work finished by hard, patient effort before and during vacation accompanied Editor Swezey to St. Paul, where the busy contractor is doing all he can to expedite the business of putting the big book in the hands of its readers. Assignments have been slower than usual, which accounts in part for the delay the editorial branch has suffered.

Financially, the book is in good shape, but still has some cause for the customary worries that harass business. Too many seniors would rather be drawn by the artist than have their picture taken for the Cornhusker. Organizations have been slow in ordering their pictures, and other groups have not paid as soon as would ordinarily be expected. Besides, the book is to be a fourteen hundred dollar better book than last year's, and the probabilities are strong that the best scenery and wit of the college year will be presented to readers with a choice between leather and cloth bindings at not much, if any, above two dollars a volume.

All expectant students will be sufficiently optimistic in about ten days when the work of taking subscription begins.

MORE TRACK MATERIAL NECESSARY FOR STRONG TEAM

Coach Reed Very Much Dissatisfied
with Present Showing—Big Opportunity for More Men.

And now they practice in earnest. Every afternoon from 3:30 until 5, Old Sel looks down on the track and sees from thirty to forty men out in suits. The material is excellent so far as it goes, but there is not enough of it. Some of the men that are out are new, but show up better each night. The time made is considered very good for the time of the year.

Coach Reed has done remarkably well with the few men who have come out. With but a few veterans he has gotten out a bunch that will probably win the valley championship. A great need is felt at present for hurdlers and jumpers. There are only a few long distance men out and some more could be used. The two pole vaulters that are out every night are in phenomenal shape. They are doing about twelve feet, which is indeed a marvel. The weight men are not much in evidence as yet, though several come out three times a week.

ROS HASKALL.

Captain of Next Year's Basketball Team

BASEBALL SQUAD OUT IN FORCE WITH LOTS OF PEP

Thirty Promising Candidates Appear
Upon Field Yesterday.—Play
All Positions.

Thirty diamond performers are now under the tutelage of "Buck" Beltzer, and are rounding into shape as fast as the law allows. As soon as mid-semester are over it is expected that a number of other alleged masters of the game will report. Of last year's team, Beckhoff, Harte, Rodman, E. Frank, Underwood, Towle, Smyhra, and Flory are out and are working hard for the coveted spots in the garden.

Nearly all the new material are experienced men, and are showing plenty of class in their workouts. So far Coach Beltzer has devoted his time to the rudiments of the national pastime, and the work has been confined chiefly to batting and fielding practice, although the slab artists spend their time in persuading the little white pellet to twist and volplane through the atmosphere. One of the pitching staff was forced to retire last night owing to the sudden disappearance of his total supply of horseshoes, but precautions have been taken to avoid any such deplorable catastrophe in the future.

Daily practice games will start the last of the week and will be continued until the season opens with the first combat with the Doane Tigers, April 11th. The fans are beginning to crawl out from their winters hibernation with the dope columns, and can be seen sunning themselves on the bleachers and occasionally sending vocal compliments to some gangling bushwhacker who fell asleep just as the ball descended from the heavens above. Doctor Maxey has staked out his usual seat in the bleachers, and from this it is gathered that the season will be a success.

SOUTH OMAHA TRIP CONTEMPLATED BY AGS

Educational Trip is Planned as a Feature of Agricultural Week—To Visit Stock Yards and Packing Houses.

One of the features of Agricultural week is the trip to South Omaha. This trip is planned to be of an educational value. The train leaves the Burlington station Wednesday at 7:15 a. m. Both the men and the women of the college of Agriculture are going. The men are to be taken through the stock yards, shown how stock is sold on the market, how stock is handled and cared for from the time it reaches the yards until it is sold to a buyer and removed from the yards. Then a trip through the packing houses is planned, showing the start and finish of dressed animals. After lunch a trip through the hurricane district is planned.

The women are planning to go through several large manufactories and creameries and perhaps part of the packing house, after which they will take a trip through the hurricane district. The delegation will be in charge of Dean Burnet, Prof. Bliss and Miss Loomis.

An invitation is extended to any one in the university who wishes to take the trip. The only requirement is that you let some one of the committee know so that proper arrangements can be made. The committee is Miss Loomis, phone B-2383; John Ludden, B-1822; Robert Steele, L-7925. Please leave your name before Monday, April 7, at 6 p. m. A good time is assured to all who go.

GOES TO WASHINGTON

Dr. Bessey Receives Invitation to Attend Anniversary of Natural Academy of Science.

Dr. C. E. Bessey has received an invitation to attend the semi-centennial anniversary of the National Academy of Sciences which meets at the Smithsonian Institute at Washington, D. C. on April 22, 23 and 24th. The national academy is the highest authoritative scientific body in the United States. It was founded as an advisory body for certain departments of the government.

Dr. Bessey has accepted the invitation. Chancellor Avery received an invitation, but will not attend.

Sokol Collection Goes To Iowa.

The collection of photographs of the Sokol athletes, which was on exhibition in the Armory during the high school basketball tournament, will again be shown here some time in May. The collection is now in the library of the Slavonic department and has aroused much favorable comment among visitors. It will be sent next week to the University of Iowa, where it is desired that it be placed on display during a gymnastic exhibition. Upon return of the collection it will be placed at the disposal of the physical education department.

GIRLS PLAY BASKETBALL

FIRST ANNUAL FEMININE TOURNAMENT SCHEDULED TO OCCUR SOON.

ALL CLASSES WILL HAVE TEAMS

Seniors Play Juniors First Half, Sophomores Meet Freshmen Second Half; Winners Try for Championship.

The coeds are not satisfied with being mere spectators of athletic contests and have inaugurated a tournament of their own. Interest in girls basketball has been on the increase this year, and as a result an inter-class basketball tournament will be held Saturday morning, April 5. The freshmen team has been hard at work all winter and lately the upper classmen have been out in an endeavor to regain their old-time skill. By having the tournament on Saturday morning it is hoped that the games will not interfere with class work.

The Seniors will play the Juniors one half, the sophs and freshmen will play one half, and the winners will play a full game. An admission of 10 cents will be charged, and the proceeds will be added to the athletic fund. The games will start at 10 o'clock.

For the Seniors: M. Swezey, E. Johnson, L. Bell, E. Shank, M. Cameron, F. Farnam will play. The Junior reputation will be upheld by G. Van Driel, M. Keffer, M. Scoville, R. Davis, M. Butler, G. Bunt and S. Carsons. The Sophomores will be A. Garner, M. Clark, R. Sheldon, G. Reavis, F. Tuthill, R. Pritch, and E. Brown, G. Metcalf, L. Leyda, C. Leyda, V. Young, L. Schavalan, C. Fraiser, M. Lack and L. Brownell will play on the freshman team. An endeavor is being made to have "N's" awarded to the winners for their athletic ability.

ANNUAL FACULTY FROLIC

School of Music Faculty Effervesce in Original Musical Skit "Fought and Failed For."

Tuesday evening the faculty of the University School of Music effervesced in their third annual "Faculty Frolic." The entertainment consisted of a musical skit entitled "The Fastening of the Third Door Back" or "Fought and Failed For." It was billed as the joint product of Howard Kirkpatrick, John J. Prince, Jr., and many others.

The piece was given in two explosions. In the first the faculty was to be shipwrecked on an island called Milwaukee in Salt Creek, Neb. In the second explosion they switched the scene to Hawaii and made the play take on the aspects of "The Bird of Paradise."

The frolic had gratifying features in addition to the fun it provoked. The songs and text showed a strong growth of school spirit and an appreciation of the work of the director.
