For City Commissioner**

It is a matter of mutual advantage in many ways to have the city and university administrations able to cooperate and work in harmony for the development of both the city and university. This will be particularly true during the next few years when many matters relative to campus extension, parking of streets, and boulevard construction for the development of a great and beautiful University must be settled.

The old time members of the faculty know me. They know of my loyalty to every interest of the university. As to my qualifications ask them.
