## MUST PAY DEBTS

COMMITTEE ON STUDENT ORGANIZATION ISSUES EDICT TO CLASSES

### SHOULD ASSESS MEMBERS

Whether Rule Applies to Fraternities Has Not Been Determined—Money Has Been Misused.

A rule, which was passed last week by the Committee on Student Organizations and which was for the first time made public yesterday afternoon, comes as a climax to the recent agitation in favor of preventing University organizations from contracting debts which, either through negligence or embezzlement, are never paid.

The ruling runs as follows:

No class, or other organization of students of the University of Nebraska shall be allowed to give any entertainment of any character which requires expense or charges admission until all former debts contracted by said class or organization of students have been paid in full.

The purpose of the committee in passing the rule is said to be to prevent student organizations assuming financial responsibilities which they are unable to pay and which become a source of great trouble or loss to local merchants. There are at the present time debts of two years standing which show no prospects of being settled and it is to prevent such situations that the recent action became a necessity.

The passing of such a rule will have no small effect upon the activities of the student organizations of the schools. It means that no class dances or plays may be given until all delinquent obligations are paid and in several, if not all classes, such will have the effect of putting a stop to all class activities, social, dramatic, athletic or of any other nature whatever. Whether fraternities will be included in the interpretation of the committee as applied to the rule has not been announced, but a strict construction, if applied, could not fail to make such an inclusion.

Assessment is recommended as the most expedient means of escaping the effect of the rule, though inquisitorial methods, will be not permissible in raising money. Assessment as a means of raising money in such an organization as a class, however, does not offer much encouragement to those who desire to see class activities continued.

The object of the decision being to work on immediate prevention of the misuse of money and contraction of debts, the rule goes into effect without delay in order that the usual activities that are about to commence for the second semester may be affected by the ruling.

#### IMPORTANT

Cornhusker staff meets today at 1:30 in the Cornhusker Office. Presence is absolutely required.

## Final Game of Interfrat Series Goes to Phi Kappa Psi

The championship game of the interfraternity basketball series was played in the armory last night. An admission fee of ten cents was charged to pay for banners for the championship and second-best teams. Flory of the interfraternity athletic board, having discovered that there was not enough change on hand to buy pennants for the visitors, he readily availed himself of this expedient for giving the champions their customary reward.

For the purpose of these contests the thirteen fraternities were divided into two groups. The Kappa Sigmas won the first group, the Phi Kappa Phi's took the second group, and the Phi Psi's walked away last night with the interfraternity championship. The game was hotly contested from start to finish, and by its close much competitive enthusiasm was aroused.

## CIVIL ENGINEERS FORM A NEW ORGANIZATION

Transit Men Get Together to Organize Departmental Club.

A meeting of embryo civil engineers was held at 11 o'clock yesterday (Friday) in M. A. 206 to consider the organization of a Civil Engineers' club. There has been no student organization in this department since 1901 when the society then existing was disbanded, for the purpose of promoting the Engineering Society among all the students in the college.

The proposed plan for the government of the Engineering Society contemplates the formation of clubs in each department. This was the purpose in the minds of the upper classmen who called the meeting.

The majority of those who responded were juniors and seniors, but the club will probably be open to all classes. Freshmen will be admitted as associate members. The club when organized may affiliate with some national engineering society. The following committees have been appointed: Constitution: Pratt, chairman, R. M. Green, Bauman, Waters, Cotton; affiliations, McGee, chairman, Fishwood, H. E. Smith; publicity, McLafferty, chairman, A. Smith, Dresher.

## MISS LORD HAS DIPHTHERIA

Quarantined at 1449 S—No More Cases Reported.

Another infectious disease has again broken out in the University. This is the first case of diphtheria to break out among the students. The patient is Laurretta Lord, '16, and she is quarantined at 1449 S street. Her mother has come from Randolph to care for her. Miss Lord is a sister of Carl J. Lord.

The sophomore basket ball team picture will be taken this morning in the Armory at 11 o'clock.

ED PETTIS

## Six Men Go East to Be Initiated Into Alpha Sigma Phi

A rumor of several months' standing was confirmed yesterday when it was learned that six students of more or less prominence in the University had gone to Madison, Wisconsin, to be initiated into Alpha Sigma Phi. They will return in the next few days and establish a chapter in Nebraska. Those composing the charter bunch are A. E. Allyn, C. C. Reynolds, C. K. Paine, R. E. Fee, L. A. Hickman and C. R. Shirey, all members of Bushnell Guild.

As those connected with the embryonic organization have chosen to keep their plans strictly secret nothing definite can be given to the University public as to future plans until these men return and install the chapter.

## Ags Will Not Put Out Edition of "Rag" As Planned

The Agriculture Club and Ag students who were going to issue an edition of the "Rag" this week, realizing the stupendous task before them and the impracticability of issuing a paper without a little previous experience, have backed out and are ready and willing to let the old-timers take care of the daily. Many of the western colleges give over whole editions to different university organizations but it has never become a custom here and consequently only a few are familiar with the "getting out" of a paper. This is especially true of the school without a course of journalism. Next week the engineers have promised to put out a starting issue, one that will be long remembered in the annals of "Rag" history. But we should worry.

#### Ag Reception and Kid Party.

Friday evening at 6:15 the women of the Agricultural college will entertain the men of the college at a reception. If the weather permits it will be held in the cotton wood grove on the east side of the farm. If too wet the reception will be held in the old stand by the judging pavilion.

For those who do not dance, a kid party is planned. It will be held in Agricultural Hall at 8 o'clock Saturday.

#### D. G. V. To Meet Thursday.

Deutscher Gessellige Vereiro will meet Thursday evening with Elisabeth Wittmann, 939 H street. The following program will be given by Arvid Samuelson:

Jensen .....Canzonetta  
Schubert .....Impromptu B Flat  
Torgussen .....To the Rising Sun  
Friml .....Valse Poetique  
Liszt .....Eroica

## STREET CAR INJURES CO-ED

MISS JULIA CATHERINE SCHULTE SUFFERS SEVERE SHOCK WEDNESDAY.

### FENDER SAVES HER LIFE

Dr. N. C. Reynolds and Obie Meier View Accident From Few Feet Away—Aid Not Lacking.

Wednesday afternoon at 2 o'clock Miss Julia Catherine Schulte of Elgin, a freshman in the College of Arts and Sciences, 1224 J street was hit and seriously injured by a street car going east on R street. The accident occurred as she was crossing the track diagonally and the fender held her from falling beneath the wheels and almost instant death.

The car was traveling at a fairly rapidly rate and although he rang the bell, Motorman Sam Hall did not attempt to stop until within a few feet of Miss Schulte when he found it impossible to avoid the collision. The conductor in charge of the car was W. J. Hasack.

By good luck, Dr. N. C. Reynolds was passing the scene a moment after the accident happened and he rushed to the young woman's aid. He was assisted in resuscitating her by Obie Meier, a well known University man. No attempt was made by the men in charge of the car to send for an ambulance and not until a large crowd of university students had gathered about the place was it discovered that it was only by chance that medical aid had been brought. St. Elizabeth's hospital was notified and in a few minutes Miss Schulte was under the best medical care.

Later Early this morning word was received from the hospital that Miss Schulte's injuries were not serious and that she was resting easily. Doctors in attendance state that no serious developments are expected and it is expected that she will be out in a few days.

## GIRLS MAY WIN N'S

Head of Physical Education Department Announces Events in Which Girls May Acquire Numerals.

Announcements of awards in athletics have been made by the head of the physical education department. Medals may be won in gymnastics team games, and track work, and in the official track meet. Winners in basket ball, indoor baseball and hockey may wear the class numerals.

"N's will be given to those who get "E" in physical education, who are on a class team and who win first, second or third place in a track event. This idea has been adopted by Iowa and Wisconsin and is meeting great approval.

Owing to the fact that quite a number of the Seniors have not placed their orders for Invitations, another and the last opportunity will be given Thursday. Orders will be taken Thursday, 11 to 6 in the "Rag" office.
