Yesterday they took advance orders for the Cornhusker. They also took a good round bean for that same annual -an awful thing (to have that much money this late in the month.)

It rained yesterday. We tell you this because the most of you were too inter ested in getting some girl to take yor home under her umbrella to notice such a little things as moisture.

No staff appears above the editoria columns of this issue. Nameless shall be the staff who perpetrated this crim inal insult to collegiate journalism of the decent sort. S'nuff to whishper "Gone to Omaha" an appropriate des tination for such a gang.

What is an awful thing? Not according to Webster or the Standard but according to the Student Directory or Baird's. Acting on the assumption that very few recognize the awful things happening about them every day because of their frequency, today we attempt to show up the various people and happenings about school which are ordinarily dealt with with a pair of leather gloves and cork-soled shoes. Not that this is our worst--

A deficit is an awful thing. As a general rule a deficit is a hole. It is also a hole which must be filled-not with talk but with money. The three upper classes have such a hole back of them. It was dug by their efforts to give you a good time with a few politicians among those also present. Now no one was to blame that these politicians had the desire to dance without the price. It was just an awful Tiny Allen Some Girl Back Home state of affairs which was existent. How-d Gram-ch....Mab-1 Dan-ls further excavation and fill these holes, Willa Spier.....Seventeen Men get behind and boost.

Our ideal of the successful college two or three members of the other to!

sex peacefully along, all the time thinking that they are each one the Only, go to all the formals in a dress suit borrowed from a fraternity brother or in gowns which mother saves by doing her own washing, never buy a cigarette but smoke all the time-this applies to both young men and young women-slip through the door at the class hops with the time worn excuse of 'ticket lost"- in short the girl who put the form on formal and the man who put the foam on-fussing.

This engagement thing is awful Just think of gently taking a young lady to a dance for the second or third time and then endowing her with a \$10.50 diamond or a nine dollar frat pin with the hopes that it will preserve her safely from the other masculine femfiends. Especially when you know perfectly well that her lovely whisper has been gathered from much past experience. To the enraptured ears of the youthful cupidly inclined hopeful, however, who perhaps is likewise enacting this delightful scene for the seventh or eighth time there is no such thing as a girl expressing her past in her voice. It is She She She and next fall it will still be She atlhough at that time probably a blonde. We do not want this taken as criticism but merely as a suggestion that spring weather is sometimes provocative of emotional excesses.
