Vol. XII. No. 139

UNIVERSITY OF NEBRASKA, LINCOLN, TUESDAY, MAY 6, 1913

Price, 5 Cents

PLAY KEARNEY TODAY

POSTPONED GAME WILL BE PLAYED THIS AFTERNOON ON NEBRASKA FIELD.

HUSKER TEAM IN FINE SHAPE

Omaha Game Injures None but Puts Spirit Into Whole Team—
Lineup Practically Unchanged.

Following the enforced rest on account of rain the Varsity baseball team took a peppery practice yesterday afternoon in preparation for the game this afternoon with Kearney Normal. The Kearney team will stop over on their way home from Peru and meet the Huskers in a game postponed from last Saturday.

The Varsity lineup yesterday was practically the same as the one which met Omaha. Ross Haskell was back at third base yesterday but Ernie Frank and Jones were absent from the squad. Ross was transferred to second base on the Varsity for part of the practice.

The pitching staff continues to be the same. Beckoff will likely go against the Normalites today with Harte on the receiving end. In case Beckoff does not do the twirling Smyrha will adorn the mound thus saving Rodman for the Jayhawkers Friday afternoon.

The freshman team under the leadership of Bowman are busily engaged in organizing and they hope to play a couple of match games before the end of the school year. A captain is to be elected in a few days and plans are on foot for regular practice hours.

Professor and Mrs. Moore Entertain.

Last Saturday evening ten students of the physics department were entertained at the home of Professor and Mrs. Moore. About 7:30 the invitation to the dining room was extended in poetry and the places at the table were shown by poetry in which each person's name was to be filled in in rhyme. A most delicious four-course dinner was served, during which the guests let all thoughts of physics depart and instead many stories of Deutschland were told by both host and hostess.

After this, the guests were admonished not to forget all of the more serious things of every-day life, and so were set to applying physics terms to some illustrations around the room. Perhaps some reader will have some knowledge of physics, if so tell us what term you would apply to a young couple hanging on a half-open gate. Why, that is easy. "Spark Gap," of course.

The rest of the evening was spent in a general good time.

On the Geological Bulletin board a notice has just been posted that the University of Utah at Salt Lake City offers four fellowships in mining and metallurgy, having an annual value of \$675 each. This is to aid students to carry on advanced work along these important industrial lines.

Shop Men Have Gala Time Inspecting Works In Omaha Saturday

The engineers returned from Omaha Saturday evening, broke and weary from their two day inspection trip. The rain did not daunt the shop men, who went to the metropolis in larger numbers than for several years. There were 48 men, all told.

Notwithstanding the many diversions and pitfalls encountered, the whole party returned safely, with the exception of one man, who had the ill fortune to get married.

The party left Lincoln at 7:15 Friday morning. On reaching Omaha, they proceeded to the American Smelting and Refining Co. plant, one of the largest lead refineries in the world. In the afternoon three hours were spent at the Union Pacific shops, and an hour each at the McKen Motor Car Works and the People's Ice and Cold Storage Company, manufacturers of artificial ice.

Saturday morning the powerhouse and the South Omaha substation of the street railway company, the gas company and the main generating station of the Omaha Electric Light and Power Company were visited. The party went out to Florence Saturday afternoon and visited the Omaha water works, which has a pumping capacity of 52,000,000 gallons daily. On their way back they stopped at Fort Omaha and were there caught in the rain.

Most of the men were entertained at the Y. M. C. A. Friday night and also ate their meals there.

There has been some agitation toward making the annual trip compulsory for all engineers and giving credit for it. The matter has been submitted to the board of regents, but no action has as yet been taken.

The schedule in the engineering college is overcrowded now, and it is a difficult matter to find room for more work without dropping some of the present requirements.

CHORUS HOP.

The annual chorus hop is to be held Saturday evening, May 10, at Fraternity Hall, Hagensick's orchestra. Tickets \$1. Not limited to members of chorus. Tickets in hands of Russell Philp, Edna Froyd, Julia Anheuser, Mr. Hager, and F. M. Merriam, committee.

NOTICE.

The following students have filed their applications as candidates for student membership on the athletic board in accordance with the condition of said board:
A. B. Ballah, Carl Ganz, Warren H. Howard, R. C. Linstrum, J. L. McMaster, Paul H. Roberts, F. H. Stryker and Max G. Towle.
R. G. CLAPP, Secretary.

Unknowns Make Handicap Meet a Surpriser in Many Events

The handicap meet which was to have been held last Saturday afternoon was held yesterday with slow records in every event except the broad jump in which Cub Wiley cleared 22 feet 1 inch. The handicaps added considerable excitement to the meet and quite a little interest was taken in several of the events.

The surprise of the day was in the 100-yard dash, which was won by Warren Howard against a field of ten starters in the time of 10.25. Reese came in second, with Zumwinkel a close third. Guy Reed also ran. In the 220-yard dash Reed displayed his old-time speed and won this event against Reese and Zumwinkel, who had a handicap of four yards. The time in this race was 23.35 and was fast considering the muddy condition of the track in places.

Cather, an unknown, sprung into prominence by winning the discus against the varsity men. His distance was 111 feet 4 inches. Ross and Freitag were a close second and third.

Big Seven Meyers won the shotput with a distance of 36 feet 6 inches. Although scratch man, he won handily from Ross, who captured second place with a handicap of 15 inches. Dale took third place.

Gross won the 220-yard hurdle race, with Bittinger and Nafziger second and third. The time in this race was 28 flat. The half mile run was a thriller, for Goetze and Kubik fought it out for the full distance. Kubik, with a handicap of 15 yards, led the first quarter, and then Goetze gradually overcame the lead. In the last 100 yards Kubik again took the lead and won by a margin of 3 feet. Time, 2:06.

The two-mile race started with four men starting. Diers and Villiers Smith were given a handicap of 100 yards, but McMasters gradually caught up with them and won this race handily. The time was 10:33.

Several of the events were not finished last evening, but will be run off today at 4 o'clock. The track was heavy yesterday, and consequently the records were very slow in all events.

MISS SPENCER AT Y. W. C. A.

Miss Clarissa Spencer, world secretary of the Young Women's Christian Association, spoke to association girls at a special vesper service Monday at 5 o'clock. She told of the work which the Y. W. C. A. is doing in foreign countries, especially in Portugal and in China. Miss Spencer comes directly from the University of Iowa, where Louise Barr, Nebraska, '12, is student secretary. Miss Spencer speaks very favorably of Miss Barr's work there.

The freshman baseball team has a game with the varsity Wednesday (tomorrow) at 3:15. D. H. Bowman, chairman.

Prominent Engineer Weds Fair Maiden On Trip to Omaha

Lewis S. Phares, a senior electrical engineer, a member of Sigma Tau, and prominent as a wrestler, surprised his many friends and college associates by succumbing to the wiles of Cupid and getting married in Omaha Friday at high noon. The bride, Miss Lucy M. Brown, is a charming young lady of Bernard.

Mr. Phares, accompanied by the bride-to-be, journeyed to Omaha on the train with many of his fellow students, who were on the annual engineering inspection trip and who were unaware of his matrimonial intentions until their return to Lincoln, although he was with them all day Saturday.

Mr. Phares had the temerity to appear on the campus yesterday and was promptly called to account for neglecting to spread the glad news.

Korean Student Gets Bad Fall Doing Bar Work During Gym

An unfortunate accident occurred in the men's physical training class yesterday when James C. Lee, a Korean student, was injured by a fall from the parallel bars. Mr. Lee had been practising upon the bars previous to the assembling of the physical culture class and was attempting a difficult feat when he suddenly slipped and fell heavily to the floor, alighting upon his back. He was rendered unconscious for nearly three hours and was badly shaken up, but unfortunately no further injuries resulted from the occurrence.

KOSMET KLUB ELECTIONS.

Phillip O. Southwick, '15.

Merril V. Reed, '14.

Robert J. Drake, '14.

John L. Cutright, '14.

Ralph Northrup, '15.

David F. Meeker, '14.

Leon W. Samuelson, '15.

Ralph K. Amerman, '14.

KOSMET KLUB MUSIC ON SALE.

The published score of the Kosmet Klub musical play, "The Matchmakers," given April 25, will be on sale Thursday morning on the campus. The booklet was printed by one of the best music printing houses in the country, is neat and accurate, and contains every song used in the production. Price 50 cents.

Sigma Phi Epsilon announces the pledging of Thom E. Kokjer, Clarks, and James H. Keeffe, Jackson, Neb.
