

The Daily Nebraskan

VOL. XIII. NO. 79

UNIVERSITY OF NEBRASKA, LINCOLN, FRIDAY, JANUARY 23, 1914

Price, 5 Cents

UNI. PICTURES ARE SHOWN

VIEWS OF CAMPUS, SPORTS AND STATE INSTITUTIONS SHOWN.

LARGE CROWD SEES MOVIES

Athletics, Traction Farming, Campus Views and Better Babies Subjects of the Pictures.

The pictures taken by Dr. Condra during the past fall and early winter were shown at the auditorium last night before a crowd that was composed of students and members of the Agricultural association and filled the gallery of the big building. The pictures were good and the views were the best that could possibly be obtained, each and every reel being interesting to the last inch.

The show began at 7:30 and lasted until 8:20. During this time the pictures were shown steadily and each reel was explained by Dr. Condra.

The first reel was composed of pictures of traction farming, industry showing traction engines in their various uses. The second reel was the pictures of the football games and the olympics. These were taken at the university and were the ones that the students enjoyed the most. The Kansas Aggie and the Innesota games were shown. The third reel showed the poultry industry in the state; the fourth, views of the campus, both down town and at the farm. The fifth reel was devoted to the exhibition of the "better babies," taken at the "better babies" show.

The pictures in all were very pleasing and offered the people an opportunity to see the things that are happening in the state that are really worth while.

CAPTAIN MAX TOWLE TAKES PEP OUT OF MAGICIANS TRICKS

Turns Chagrin at Being "Balled Out" Into Much Applauded "Comeback."

Captain-elect Max Towle has blossomed forth in the role of an actor-not, however, without experiencing a good deal of criticism at the hands of one of his fellow Thespians. Whether or not he will desert football for good has not been determined.

It all happened at the Lyric Wednesday evening. Max and his lady fair were occupying a box; a magician was occupying the stage. The man with the magic wand placed a mirror inside a handkerchief and then, advancing to the box, dared Mrs. Max to remove the looking-glass. Of course it had disappeared up his sleeve, and the young lady, after searching in vain turned very red.

The magician, beaming with the pleasure experienced in such a triumph, returned to a position in front of the footlights and offered to try the experiment on any one else who had the nerve to submit to assuming the role of the goat. While he talked, Max slipped out and found a mirror

Equal Suffrage, No One Barred!

Will You Be One of the 1500 Club?

BALL ROOMS CUT PRICES

LINCOLN AND LINDELL WAGE WAR FOR STUDENT PARTY ENGAGEMENTS.

MANY DATES BEING CANCELLED

Organizations Switch Back And Forth With Day's Quotations—Who Will Move Next?

Many phenomena that cannot be otherwise explained are at present blamed on the sudden popularity of the new dances. The continuous round of tango dances scheduled lately has precipitated a war between rival hotel managers. One hotel that has succeeded in obtaining most of the student trade during the last few years simply because they had a monopoly on the business, advertised in last evening's paper that they had practically cut their prices in half. This was done only after the rival management had built a new hall and had appreciably lowered the prices for the students.

It was rumored that those who held the dance hall and for so long attempted to induce the other hotel people to raise their schedule to the same level of price and when the proposition was flatly refused declared that they would open their ball-room free rather than submit to a reduction in rates. There is little doubt as to students sentiment in the matter.

WILL DEBATE POPULAR QUESTION OF SUFFRAGE

Interclass Teams Will Settle Question on Phi Beta Kappa Day—Try-outs Soon.

"Shall the State of Nebraska Adopt Woman Suffrage," is the question finally selected by the interclass debating board as the subject for the annual forum contest on Phi Beta Kappa day. In view of the fact that the voters of Nebraska are to have the opportunity of deciding this question at the next election in November this time worn subject of debate is still decidedly alive and kicking.

Those interested in trying out should submit their names to the members of the interclass debating board selected from their respective classes, or leave their names with Prof. M. M. Fogg in U206.

The members of the board are as follows: Senior, Hugh Agor; junior, John Beard, Silas Bryan; sophomore, Arthur Ackerman, Paul Good; freshman, Albert Bryson, Edgar Kiddoo.

The preliminary tryout for class teams will be held Wednesday, Feb. 11. The first tryout of the class teams will take place two weeks later and the final debate at convocation, March 10. Material pro and con may be obtained at the reserve desk in the general library. Watch the bulletin board in U hall for further notices.

CORNHUSKERS PICTURES MUST BE TAKEN BY SAT. JAN. 24

Last Chance to Get in the Big Book As a Member of One of the Upper Classes.

Saturday, January 24, will be the last day on which Cornhusker pictures can be taken. There are only about five hundred taken now and six hundred are required. Those who have delayed wish to have their pictures in with their classmates they had better take advantage of this warning.

This is the last notice to be published before the pictures are arranged for. Absolutely no sittings can be arranged for after Saturday. Last Call.

ILLUSTRATED LECTURE ON DAM

Prof. Raber Speaks tonight on Mississippi Hydro-Electric Plant at Keokuk.

Before the Engineers club of Lincoln, on Friday night of this week, will occur an illustrated account of the building of the world's greatest water power station, at Keokuk, Iowa. During the construction period of three and one-half years, Prof. Raber, who gives the description, has had exceptional opportunity to obtain views from the beginning to completion, and to follow closely the various stages of the work, for Keokuk is his home town. Next to the Panama Canal, this power installation is considered one of the greatest engineering achievements of the age, principally because of its size and the low head of water used.

The description will be general and nontechnical. The lecture will be given in Room 206, Mechanical Engineering building, at eight o'clock, and anyone interested is invited, especially university engineers and members of the engineering societies. O. J. Fee, Pres. Eng'rs. club, of Lincoln.

DELEGATES TO CONVENTION SPEAK AT MEN'S MEETING

Thirteen Three-minute Talks Given in Temple—Emphasize the Need and Power of Prayer.

Thirteen three-minute talks were given last night at the men's meeting in the Temple. The occasion was a review of the Kansas City Volunteer convention. The speakers were delegates, who gave brief reports of the impressions they had received during the sessions of the big student convention. After a vocal solo by Grant H. Lamphere, the discussions were started by C. W. Smith, presiding. The speakers touched upon a number of impressions conveyed by the convention, but perhaps the one most fre-

A POINT EVERY MINUTE

STIEHM AMBITION IN BASKETBALL IS A SCORE FOR EVERY MINUTE OF PLAY.

SO FAR 100 POINTS—80 MINUTES

But Hard Games of Season Are Yet to Come And Even Wesleyan Looks Doubtful.

Couch Stiehm is out after a new record. Not content with having his Huskers with a few football and basketball championships, the coach now wishes to have them gain the distinction of making a point a minute throughout the present basketball season.

In the 80 minutes the Cornhuskers have played this year they have made 100 points. They ran up a total of 44 against the X-Uni. aggregation and 56 against Cotner. In the 40 minutes of play tonight with Wesleyan, Stiehm hopes to see his proteges score at least 40 points, thereby preserving their good reputation. And, considering the fact that the Methodists ran up a score of 59 to 4 against the University of Omaha, Wednesday night, the coach is feeling a trifle blue over the prospect.

WILL GET DECISION ON INJUNCTION SUIT SOON

Case of North vs. University and Board of Regents Will be Decided Tomorrow.

The case of Jacob North & Co., printers and binders of Lincoln, who on January 10, secured an injunction against the board of regents of the University of Nebraska, restraining the board from letting the contract for the printing of the annual university catalogue, was threshed out in district court last Saturday morning. Although no decision has as yet been reached by the court it will in all probability be known tomorrow.

Mr. North was represented at the hearing by H. H. Wilson of the law firm of Burkett, Wilson & Brown. Mr. Wilson is a professor of law in the university. Dean Hastings of the university law college was counsel for the defense.

CLOSING MEETING OF N.S. H.S.

Professors Alexis and Hrbkova Read Papers Before Last Session of Historical Society.

The last meeting of the Nebraska State Historical society which has been in session from the 20th, was held in the Temple theater last night. Papers were read by Professors J. E. Alexis and Sarka Hrbkova.

After stereoptican views showing the work of the society in the state, with explanations by Secretary Palne, Professor Alexis opened the meeting with his paper, on "The Swedes in Nebraska." Miss Hrbkova followed, with a paper on "The Bohemians in Nebraska." The closing paper of the meeting was on "Clan Organization of the Winnebagoes," by Mr. Oliver Lamere.
