VOL. XIII. NO. 94

UNIVERSITY OF NEBRASKA, LINCOLN, THURSDAY, FEBRUARY 19, 1914.

PRICE 5 CENTS

PLANS "UNI. WEEK"

EXTENSION WORK TO POPULARIZE UNI ACTIVITIES.

BRING UNI. CLOSER TO PEOPLE

Plan a Week's Tour Throughout State of Debaters, Dramatic Club, Glee Club, and Other Prominent Organizations.

Active work has commenced on the "University Extension" plan, so much in favor in the University of Minnesota. This plan aims to bring the college into closer touch with the people of the state; to show them what sort of activities the school stands for; to show them concrete first-hand evidence of the practical side of a college education. It plans to educate the people of the state into a higher respect and greater support of the University.

Briefly, the plan is this: To put before the people of the state several specialized lines of college work, debate, dramatics, music, and like activities. In Minnesota a "University Week" is given in several out-state towns. During this week they are given programs by the debaters, the dramatic club, the glee club, the conservation department, the athletic department and other student and all-University activities. The organizations are kept on the road two weeks, under charge of faculty members. The towns in Minnesota are in keen competition to secure a place on the "book." They have to guarantee the University expenses, which they may make by charging what they please—or, as is often the case, meeting it by popular subscription and giving the programs free. There are many more guarantees waiting than can be filled in two weeks.

This plan has been under consideration since the debate with Minnesota in December. At that time, Mr. Pomeroy, of the Minnesota team, discussed the working of the Minnesota Extension in an after-dinner talk before Phi Alpha Tau, the forensic fraternity. This organization was much impressed.

STATE ENGINEERS SPEAKS TO UNIVERSITY ENGINEERS

"State Aid Bridges" Subject of His Address—Engineering Society Enjoys Talk.

D. D. Price, an old Nebraska man, and who is now the state engineer, gave a talk on "State Aid Bridges" at the monthly meeting of Engineering Society. The legislature a few years ago passed a law that in counties where the rivers were over 175 feet wide the counties should receive half the price of the bridge to span the river from the state. Price showed pictures of many of the bridges that were under construction and some completed bridges. The policy of the state has been to construct substantial bridges that will require minimum attention in the future. The merits of the steel and concrete construction were discussed and the two styles were well illustrated. Also many of the hindrances were mentioned and some of the difficulties that a bridge engineer encounters with ice and sand.

IT MAKES NO DIFFERENCE

NO MINNESOTA GAME

GOPHERS WILL NOT MEET THE HUSKERS NEXT SEASON.

FIVE GAMES ARE CINCHED

Football Schedule is Rounding Into Shape—Kansas and Ames at Lincoln—Close the Season With Iowa at Iowa City.

The following three telegrams explain the Minnesota-Nebraska football controversy:

"Minneapolis, Minn., Dec. 18th, 1913.

Mr. Stiehm,
University of Nebraska,
Lincoln, Nebr.
Can offer you October seventeenth for next fall. Please let me know at once if acceptable.
HENRY L. WILLIAMS."

"Lincoln, Nebr., Jan. 8th, 1914.
Dr. H. L. Williams,
University of Minnesota,
Minneapolis, Minn.

Subject to the approval of the Athletic Board, Nebraska agrees to play at Minneapolis, October seventeenth; Minneapolis, nineteen fifteen; Lincoln, nineteen sixteen.
—H. O. STIEHM."

"Minneapolis, Minn., Jan. 10th, 1914.

Mr. Stiehm,
University of Nebraska,
Lincoln, Nebr.
Sorry you could not accept game without return date. Negotiations closed.
H. L. WILLIAMS."

Experience has shown that an indefinite agreement to play at Minneapolis year after year is undesirable. It certainly is of no value to the active student body if they have no opportunity of witnessing the games. The faculty, alumni and public in general feel that the request for a game with Minnesota at Lincoln every third year is not unreasonable. This was the sentiment and action of the University Athletic Board and Coach Williams of

SMALLPOX SIGNS MAKE GIRLS SHIVER

Diamond Dick Moving Pictures Have Their Advantages Over Health Officer's Madonnas.

"Don't they look lovely?" "Oh, aren't they sweet?" Such exclamations as these were heard yesterday as a certain group of girls gathered around the dinner table. You see, these girls had, in their wanderings during the day, chanced to pass by the good old silo and had noticed the delightful pictures displayed there by the Board of Health. Of course there were a few who could not appreciate real art, but these were in the minority. And they were not the only ones who had noticed the display, for not a few coeds (and otherwise) had stopped to watch and comment in admiration. In fact, the pictures were so attractive and appealing that there was no one who noticed them who did not reach down in his pocket and pull out a "Rag" to see who are the best M. D.'s in town.

ENGINEERS VOTE ON INSPECTION TRIP ROUTE

Trip to Be Made to Omaha First of May—Few Want to Go to Chicago on Account of the Expense.

A rather indecisive vote was taken in regard to the engineering inspection trip recently. Out of the list of cities, Omaha, Rock Island, Moline, Davenport, Keokuk, and Chicago, the latter received eight votes, Omaha four, and the Tri-City group, Rock Island, Moline and Davenport, received three votes. Owing to the small number expressing preference, a trip may be made to Omaha on May 1st and 2nd. If within the next five days twenty or twenty-five men will agree to make the Chicago trip, arrangements will be made to have it during spring vacation, March 16 to 21.

The expense of the more distant trips has caused many to hold back in expressing their wishes in regard to a trip. The Chicago trip will require from thirty-five to fifty dollars, while the Omaha trip can be made for from five to six. Another thing that seems to be holding some of the fellows back from making the Chicago trip is the fact that it will be made during spring vacation, when a trip home looks pretty good.

The more distant cities offer attractions that can not be seen if the trip to Omaha is made. Keokuk offers an inspection of one of the greatest engineering projects of this age, the great Keokuk dam. Chicago offers a field for inspection that would take much more time than the men can possibly put in even if they finally decide upon that city. Rock Island, Moline and Davenport will be covered in one trip in case that group is chosen. Omaha runs a fair chance in receiving the majority vote when the final test comes, for it is near the University.

FAMOUS OLD BIRD WILL MAKE SPEECH

Old Jayhawk Bird Will Alight in Front of U. Hall at 11 This Morning.

Rumor has it that the Jayhawk has come back. Late last night a party of men, muffled to the ears, were seen bearing a mysterious burden into the Awgwan office. The shades were pulled low, the lights were dim and murky, but passersby emphatically declare that strange squawks and groans issued from within.

Our pressing inquiries elicited from the members of the Awgwan staff only the assurance that the mysterious bird had not only come back, but that he would actually deliver a speech—yes, a speech in front of U. Hall at 11 a. m. And we had reposed in the placid belief that we had laid that troublesome creature to his last earthly resting place last fall.

THRESHERMEN INSPECT ENGINEERING DEPARTMENT

Visitors in State Capital Are Shown Places of Interest on Campus by Students.

One hundred and forty members of the Nebraska Brotherhood of Threshermen visited the engineering laboratories yesterday afternoon. Everything was in good running order and the inspection met with the approval of the visiting engineers. The M. E. and the C. E. departments gave out very interesting and instructive pamphlets for guides and souvenirs. The afternoon was well spent and the efforts of the members of the Engineering College were greatly appreciated by the visitors.

Komensky Klub.
Komensky Klub members meet at Townsend's today at 12 for pictures.

PHI PSI ARE STRONG IN SECOND DIVISION

Alpha Thets Beat D U's—Sigma Nu Forfeit to Phi Game—Today's Percentages.

Yesterday afternoon in a close and exciting game, Alpha Theta Chi defeated Delta Upsilon by a score of 12 to 8. When time was called the scoreboard indicated a tie, but in the extra time allowed the Alpha Thets tossed two more baskets, thus clinching the game. At six o'clock the Phi Deltas and Phi Psi's tangled, resulting in a Phi Psi victory of 14 to 12. This game was distinguished by the skill in boxing and wrestling displayed by each side. The Sigma Nu's failed to appear and hence forfeited to the Phi Gam's. The only game scheduled for today is the Delta Tau-Delta Chi game, which will be played at six o'clock. Below is given the standing of the different teams to date:

Standing of Frat Basketball Teams.

Team	Won	Lost	Pct.
Alpha Theta Chi	2	0	1000
Kappa Sigma	2	0	1000
Phi Kappa Psi	2	0	1000
Sigma Alpha Epsilon	1	0	1000
Phi Delta Theta	1	1	.500
Alpha Sigma Phi	1	1	.500
Phi Gamma Delta	1	1	.500
Alpha Tau Omega	0	1	.000
Beta Theta Pi	0	1	.000
Delta Chi	0	1	.000
Delta Tau Delta	0	0	.000
Delta Upsilon	0	0	.000
Sigma Chi	0	0	.000
Sigma Nu	0	2	.000
Sigma Phi Epsilon	0	1	.000

Conference Standing of Northwest.

College	Won	Lost	Pct.
Washington	6	0	1000
Idaho	5	2	.714
W. S. C.	2	2	.500
Oregon	0	3	.000
O. A. C.	0	3	.000
Whitman	0	3	.000
