Subscription price \$2.00 per year,  
payable in advance.  
Single copies, 5 cents each.

Entered at the postoffice at Lincoln,  
Nebraska, as second-class mail matter,  
under the Act of Congress of March 3,  
1879.

The DAILY NEBRASKAN purposes to  
be the free voice of student sentiment;  
to be fair; to be impartial; to seek advice  
as well as offer it; to truthfully picture  
college life; to go further than the mere  
printing of news by standing for the  
highest ideals of the University; in short,  
to serve the University of Nebraska.

Wednesday, February 15, 1914.

The professor who requested that  
some of his students remove their  
"September Morn" stickpins was evi-  
dently laboring under the impression  
that they were a new form of "votes  
for women" badge.

**NOTICE.**

Owing to the increased circu-  
lation of the Daily Nebraskan,  
it has been found necessary to  
ask subscribers having lock  
boxes at Station A to secure  
their copies of the Nebraskan  
through this means. Beginning  
Wednesday, February 25th, all  
subscribers among the students  
and faculty will have their  
copies of the Nebraskan placed  
in their respective lock boxes.  
Also beginning Wednesday,  
February 25th, subscribers  
must give their names to the  
person at the window before  
securing their Daily Nebras-  
kans. This is to enable the  
business management to check  
up their subscription lists for  
any possible errors which may  
have crept in during the sub-  
scription campaign. While this  
may be a slight inconvenience  
for a few days, we trust that it  
will not work a hardship upon  
anyone.

**Factory to Employ Students.**

Offering employment to self-support-  
ing students, a stove factory of Ann  
Arbor has proposed a plan to the  
Board of Regents of the University of  
Michigan whereby students may do  
work which will not interfere with uni-  
versity work. They propose to ar-  
range working hours which will in no  
way conflict with the schedule of the  
student.—Daily Californian.

**TODAY IN NEBRASKA'S HISTORY**

**February 25, 1911.**  
Nebraska won the first game of  
basketball series with Kansas last  
night by a score of 38 to 26. Kansas  
was clearly outclassed in every way.  
At no time during the game was the  
issue in doubt.

**February 25, 1909.**  
Figures compiled by the Registrar  
show that the University has had a  
steady growth since it was founded.  
It has increased from 130 during the  
first year to 3,450 at the present time.  
Another fact as shown is that there  
are about four men to every three  
women.

**LETS CONTRACT**

(Continued from Page One)  
better grade than that of last year.  
The paper is a one hundred and forty  
pound white satin, gloss finish, fur-  
nished by the Carpenter Paper Com-  
pany of Omaha, and made especially  
for this class of work. The cover de-  
sign will be inlaid with a gold finish.

**De Luxe Edition.**

The Cornhusker De Luxe is a new  
thing at the University of Nebraska,  
and will be printed for those who order  
it special. It will be printed on extra  
quality paper and will be bound in a  
special leather cover with the owner's  
name in gold in one corner. Although  
this is an innovation at Nebraska, the  
business manager feels that from its  
success at other colleges where it has  
been tried that it will also be a success  
here. While this book will be pub-  
lished primarily for dignitaries, frater-  
nities and sororities, if there is a  
sufficient demand for it from the stu-  
dent body the manager says that he  
will have a larger number printed.  
Last year at Wisconsin the Badger  
sold three hundred copies of the de  
luxe edition. The difference in price  
between the regular leather edition  
and the de luxe will not be large.

**Will Be Out May First.**

With the co-operation of the stu-  
dents, the authorities declare that the  
book will be ready for the students  
May 1. At the present time it is fur-  
ther advanced than it has been any  
previous season. Ninety-eight per cent  
of all the junior and senior pictures  
have been turned in and the final ship-  
ment will be sent away this week.

**WASHINGTON ABOLISHES HAZING**

**Makes Clean Slate for New Student  
Council.**

Faculty ruling at the University of  
Washington provides that all hazing  
will hereafter be abolished.

Not only is hazing done away with  
but the pushball contest, the annual  
tie-ups and all organized and unor-  
ganized contests between classes are  
forbidden.

Hereafter freshmen will not appear  
upon the campus under green caps ex-  
cept by their own volition.

The faculty stated that these rulings  
do not affect the fraternities. They  
state that all class scraps were abol-  
ished in order that the new student  
council may start its work with a clean  
slate.

With the new student council a new  
system of student government will be  
inaugurated at Washington Univer-  
sity.

**FORESTRY CLUB FINDS  
WORK FOR MEMBERS**

Summers Spent Obtaining Practical  
Knowledge—Interesting Lec-  
ture Course.

Replies are being received by the  
labor bureau of the Forest Club every  
day. Each year the labor bureau of  
the club sends out applications for  
work in the field for each of its mem-  
bers who are in good standing in the  
club. Most of the applications are  
sent to the supervisors and other offi-  
cials of Government forest reserves.  
Almost every member of the club re-  
ceives employment for the summer  
months through the labor bureau of  
the club. Enoch Nelson and Bill  
Rockie are the men looking after the  
work this year. It is the duty of each  
club member to secure the best knowl-  
edge possible about the work he is  
engaged in during the summer and  
convey this knowledge as nearly as  
possible to the members of the club in  
the form of lectures at the regular  
club meetings.

This semester the Forest Club pro-  
gram consists of lectures by the stu-  
dents, with the exception of one, which  
is to be given by Prof. E. F. Schramm  
of the Engineer college, who will  
speak on "Mines on Forest Reserves,"  
and one which has already been given  
by Professor Kingsland, also of the  
Engineering college. These lectures  
are purely scientific and prove to be  
of great value to the members of the  
club when out in the fields.

**JUNIOR ADVISORS**

(Continued from page 1.)

of Miss Graham, dean of women. The  
work will start this summer during  
vacation time. As soon as the name of  
a prospective freshman girl is re-  
ceived at the Registrar's office she will  
be assigned to a member of the board  
by Miss Graham, and the board mem-  
ber will immediately commence cor-  
responding with her, thus assisting  
her in making a good start.

Those who have investigated the  
scheme carefully believe that it has  
favorable possibilities and if manipu-  
lated with the proper amount of inter-  
est and spirit it will be highly benefi-  
cial to the co-ed branch of the Uni-  
versity.

Miss Finney discussed the point sys-  
tem which is being advanced by the  
Xi Delta girls and explained the aims  
and purposes of such a system.

In closing, Miss Graham urged that  
the girls become actively interested in  
the problems which are confronting  
the University of Nebraska, some of  
which are: Student council, point  
system, women's suffrage, etc. She  
explained that it was very desirable  
that each girl make up her mind for  
or against each proposition and work  
to that end.

"Eastern girls," she added, "have the  
reputation of being more accurately in-  
formed on modern questions than  
those of the west, and all loyal co-eds  
should exert their efforts to disqualify  
this presumption."

**PROFESSOR FERGUSON MEM-  
BER NATIONAL COMMITTEE**

National Electric Light Association  
Chooses Nebraska Man for a  
Special Committee.

The National Electric Light Associa-  
tion has just announced the organiza-  
tion of a special committee upon "Re-  
lations With Educational Institutions." The membership of this committee is  
made up of prominent engineers, many  
of whom are regents or trustees of  
universities and professors of elec-  
trical engineering in several of the  
larger universities, including Harvard,  
Yale, Wisconsin, Minnesota, Purdue,  
Pennsylvania, and Nebraska.

Prof. O. J. Ferguson of the Elec-  
trical Engineering department has ac-  
cepted the appointment on this com-  
mittee and has been notified that there  
will be an early meeting, probably at  
the headquarters in New York City.

**Many Available Athletes in East.**

Statistics show that in some Eastern  
universities the proportion of men  
available for athletics is very large.  
Cornell leads the list with 3,500 avail-  
able men, Michigan falls but a few be-  
hind this mark, while Columbia and  
Pennsylvania come next in the order  
named. These four are the only East-  
ern universities having more than 2,000  
men able to participate in athletics.

The number of varsity sports in the  
colleges varies widely from nineteen  
at Pennsylvania to four at Minnesota.  
The figures are given as follows:  
Pennsylvania 19, Cornell 15, Harvard  
14, Columbia and Princeton 13, Yale  
12, Michigan, Wisconsin and Chicago  
11, and Minnesota 4.

**Semester Pledging at "M."**

Under the direction of the Pan-Hel-  
lenic League, a new rushing rule has  
been adopted for the sororities of the  
University of Michigan calling for the  
pledging of new girls on the second  
Tuesday of the school year, and not  
before. This rule, long in vogue in  
many other western universities, is a  
new one for Ann Arbor, and its suc-  
cess or failure here will be watched  
with a great deal of interest.—Univer-  
sity of Washington Daily.

**SENATOR RANDELL**

Senator Joseph E. Ransdell of Lou-  
isiana proposed an amendment to the  
federal constitution prohibiting for-  
ever in the United States divorce with  
the right to remarry, and directing the  
enactment of uniform marriage laws  
in all the states with provision for  
separation without the right to re-  
marry.
