**SOCIAL PROBLEMS OF  
CITIES ARE PICTURED**

**Pictorial Display of Work Done by  
American Schools of Philanthropy.**

A collection of prints from the Chi-  
cago School of Philanthropy are on  
display in the Sociology department  
this week. The photos and prints  
show the work done by social service  
and municipal betterment leagues in  
the cities and rural districts of the  
United States. In a general way they  
tend to bring out the excellence of the  
American system over those used in  
foreign countries. Some of the sub-  
jects illustrated are life-saving, child  
welfare, lowering the baby death rate,  
open air crusade, positive eugenics,  
difficult charity, field houses, rural  
education, city suburb gardens, and  
public school centers.

The Chicago School of Philanthropy  
was originated by Graham Taylor, the  
famous social worker of the Chicago  
slums. He will be remembered as be-  
ing one of the speakers in the relig-  
ious movement which met here last  
winter. During his visit in the city  
he spoke at convocation and was  
warmly received by the students.

The school of philanthropy takes up  
all forms of municipal and social bet-  
terment. The Red Cross branch takes  
up the causes of the high death rate  
of the city dweller, the sanitation of  
the tenements, and the source and  
quality of the milk and vegetable sup-  
ply of our larger cities.

Open air schools have been started  
and their effect upon the deficient  
children is carefully noted. One of

the discussed eugenic marriage cer-  
tificates is shown, accompanied by a  
little data on the work already done  
along this line.

New plans for the introduction of  
agriculture in rural schools are sub-  
mitted as a remedy for keeping the  
boys and girls on the farm.

**A GREAT FAVORITE.**

Through the Review of Reviews'  
scholarship fund an unusual and won-  
derful opportunity is this year being  
extended to students whereby they  
may secure adequate funds with which  
to meet all their college expenses.

A non-competitive cash scholarship  
is offered for work during spare time  
while the student is in college or dur-  
ing the summer vacations. These  
scholarships have a cash value of  
from \$250 to \$1,000.

Over one thousand students, work-  
ing under the direction of the manage-  
ment of this fund, have already se-  
cured such scholarships. There is an  
unlimited number of such scholarships  
available to students today.

This plan of awarding such scholar-  
ships is endorsed by President Wood-  
row Wilson and leading college presi-  
dents all over the country. College  
employment bureaus from Maine to  
California commend it as a sure  
means of winning a college education.

Its popularity is due to the fact that  
it always considers the best interests  
of the student. The scholarship  
money is paid to him direct. He has  
an exclusive field in which to work.  
Expert management is afforded and  
his work is guaranteed. There is no  
house to house canvassing or delivery  
of goods.

Any student of good character is  
eligible for work under this plan. It  
makes a strong appeal to the ideals  
of college men and is always eminent-  
ly satisfactory.

Complete details of this plan may  
be secured from Mr. Ira M. Smith,  
western representative Review of Re-  
views. Mr. Smith has a display ad in  
another part of this issue of the Daily  
Nebraskan. His proposition has been  
explained to a Nebraskan reporter. It  
is interesting.
