IS CREATING INTEREST

The Northwestern's subscription campaign will be in full swing by the fifteenth of January, the day the campaign commences. A number of live contestants have entered the race and a great deal of interest is being manifested.

This subscription campaign is being conducted by The Northwestern and no so called "expert" or "contest manager" has anything to do with it. The automobile is on display at the local Buick agency in Loup City and the car will not be driven a mile during the contest, the winner will be the first person to drive the car.

The car is a fine Buick four-cylinder, five passenger touring car costing \$725.00 and is a prize well worth striving for. This is the best prize ever given away by a newspaper in this section of the country. All contestants not winning the car will be paid a commission of ten per cent on all business turned in.

Last week we failed to mention that every five new subscriptions would count 10,000 extra votes. Every five new subscriptions will be called a block and every block of five will count extra votes. It is not too late to enter the contest—it is just the time. Now is a good time to get busy. Call at The Northwestern office and get the necessary supplies and get into the race. The person who puts in the proper amount of time and goes right after this car and keeps everlastingly at it will get the car.

The Northwestern has not yet made arrangements for counting the votes. This part of the contest will be looked after by at least three disinterested

IS CREATING INTEREST

parties and a complete record of the subscriptions turned in by every contestant will be kept, in addition to all receipt book stubs.

We believe that this subscription campaign is being conducted at a good time in the year, as many people are not very busy at this time of the year.

No subscriptions are to be brought in to The Northwestern office until Saturday, Jan. 20, at which time proper arrangements will have been made to take care of the votes.

As a special inducement to contestants to cast all their votes, all votes the first three weeks of the campaign cast up to and including Saturday, Feb. 3, will count double, after that date votes will be counted by the original schedule.

This subscription campaign will be run in a fair and business like manner and the person getting the most votes will be the winner. No favors will be extended to any contestant, all will be treated alike.

Last but not least, don't forget the blocks of five new subscriptions and the extra votes they count.
