NATURE CURES. THE DOCTOR TAKES THE FEE.
There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds, Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.
TURKEY RANCHING.
Turkey ranching is a new industry born of the decreasing production of turkeys on farms, according to an article in the recently published 1916 Yearbook of the United States Department of Agriculture.
Exclusive turkey ranching is now found practically only in the unsettled foothill regions of California and in certain sections of Arizona and other Western states. In these regions a few persons are engaged in raising a thousand or more turkeys a season. The establishments are located where the range is unlimited and the natural food of the turkey, such as grasshoppers and other insects, green vegetation, and the seeds of various weeds and grasses, is abundant. Advantage also is taken on these ranches of the turkey's aptness for acorns, and where these are plentiful but little grain need be used for fattening in the fall.
The large flocks of turkeys are man-

LIVE STOCK PRICES AT SOUTH OMAHA
Good Cattle Fully Steady; Medium Grades Stronger
HOGS ABOUT 10c LOWER

Lamb Market Rather Slow—Trade Similar to Most Days Last Week—First Sales Are Steady. Moderate Monday Supply—With the Exception of Two Weeks Ago Run is the Smallest for Week-Opener Since January—Estimates 8,000 Head.
Union Stock Yards, South Omaha, Nebraska, April 3, 1917. The week opened out with a light Monday run of cattle, being the smallest of any recent Monday with the exception of two weeks ago when receipts were cut down by the threatened railroad strike. The market opened early with a brisk demand for good to choice killers, and every thing of that description sold very freely at good steady prices. The best cattle here brought \$12.50, which is as high as has been paid any time thus far this year. As receipts were light and demand was good the medium grades of cattle which broke sharply last week sold quite freely at strong prices.
Quotations on Cattle: Good to choice beefs, \$11.50@12.50; fair to good beefs, \$10.50@11.50; common to fair beefs, \$9.50@10.40; good to choice cows, \$9.25@10.25; good to choice cows, \$8.75@9.75; fair to good cows, \$8.00@8.75; canners and cutters, \$5.50@7.50; veal calves, \$9.00@12.00; hologna bulls, \$6.50@8.00; beef bulls, \$8.00@9.00.
Just a fair run of hogs was on hand here Monday, arrivals counting out 108 cars or 7,800 head. Chicago had a very liberal run and reported around a dime decline, while the local supply was not burdensome. First killer sales were a dime lower. Shippers bought a good many hogs on opening rounds, but between 1,000 and 1,500 head that they picked up early was all they did buy, and left the rest for packers. Bulk of the hogs sold at \$14.50@14.85, while tops reached \$14.95.
The lamb market for Monday was rather drabby, particularly on the in-between and heavy grades. Packers offered steady prices for the best lambs right from the start, but sellers asked higher and as a result not much had been done up to a rather late hour, though what sales had been made were steady. Light Mexicans brought \$15.15 and clipped lambs, \$12.25. None of the extremely light Mexicans that sold up to \$15.25 last week were on offer. Steady prices were paid for some fair sheep, ewes that were plain to just decent going at \$11.25@11.75.
Quotations on sheep and lambs: Lambs, light and handy, \$14.65@15.25; lambs, heavy, \$14.00@14.60; lambs, clipped, \$11.50@12.50; lambs, shearing, \$14.25@14.75; yearlings, good to choice, \$13.00@13.75; yearlings, fair to good, \$12.00@13.00; wethers, fair to choice, \$11.50@12.75; ewes, good to choice, \$11.40@12.20; ewes, fair to good, \$10.00@11.40; ewes, plain to culls, \$7.00@9.50.

CONSTIPATION AND INDIGESTION
These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest well at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person.

BUT ALEXANDER HAD SHOWN THAT HE IS THE BIG STAR.
President Baker of the Philadelphia club says Walter Johnson only receives \$12,500 a year and that Alexander is not worth a penny more than the St. Paul club. All of which is probably true, were Alexander with the Washington club. But Alexander has proven time and again he is the whole works when it comes to winning games for the Phillies, and naturally under these circumstances he is worth more to Philadelphia than Johnson is to Washington.
Remember, also, Johnson has been receiving a substantial salary for the past seven years, while Alexander was getting paid no more than a high class bush leaguer until last year. Alex has it coming in him, while Johnson "has done already gone and got his." If the Philadelphia owners do not think Alexander is worth every cent he asks, just let them drop him for a few months and watch the attendance dwindle.—Denver Post.

Spring Market Week.

Announcement of Candidacy
J. J. SLOMINSKI ANNOUNCES
the candidacy of

THE WORLD'S RECORD CLOSE SKIMMING UNITED STATES CREAM SEPARATOR

for a prominent place in your home.
If elected your long felt want will be most perfectly supplied.
In what other Cream Separator can you find these most important features or their equal?

Sanitation
The solid Nickel Silver Skimmer never rusts. The tinned steel of other separators soon rusts, gets hard to wash and unsanitary.
The U.S. Mechanical Washer reduces still further the small labor of washing.
The removable Liner keeps the bowl chamber sanitary, also the entire frame outside and inside.

Convenience
Crank or Pulley can be used alone, on either side, or together on opposite sides, interchangeably.
Bowl empties itself automatically.
Supply can slide back and forth—no heavy lifting.

The U. S. holds the World's Record for close skimming.
These are but a few of the many U.S. advantages that you can't find in other separators. Now see if you can.
