FIRST AID

First Aid is saving many a life that would formerly have been forfeited to ignorance.

First Aid in money matters may save your financial life. And that is our business-supplying help when needed. Don't wait until you are in dire straits. Let us help you today or tomorrow or whenever you need it. That is what we are here for-to assist in any way we can whenever von need us.

First National Bank of Loup City, Neb.

Electrified Homes

Electricity is now fast superceding old methods in many departments of the home. The modern home-the COMFORTABLE home-now has

Electric Heaters Electric Irons Electric Lights

and many other labor saving and cost saving appliances. It is the ideal force—no danger, no annoyance, no failure. You are losing half the enjoyment of life if your home is not electricified. Let us wire your house for lights.

We handle the Almo Lighting systems for farm homes. Call and let us explain them to you.

Jos. S. Zocholl, of the St. Paul Normal and Business college, was in our city yesterday in the interests of the college and while here paid The Northwestern office a very pleasant visit We wish to call attention to the adverthat place. Our boys put up a good tisement of this college in another column of this issue. They have many advantages to offer to the young man or young lady who desires o take any kind of summer school work.

> J. J. Slominski would call your especial attention to his advertisement of the U. S. Cream Separator, found on page eight of this paper. He is able and anxious to demonstrate con clusively the features which make this eparator superior to any other. The users of the United States Cream Separator comprise the best class of dairymen everywhere. This is shown by the fact that over 150 prizes at the 1916 National Dairy show were won by users of the United States Cream Separator. In fact, the biggest prize winner of all those exhibiting, uses a U. S. Call on Mr. Slominski, who will be glad not only to sell you a separator, but pay highest prices for your cream, eggs and poultry.

Big Crops From Gardens.

Planting a garden is a patriotic act almost every citizen can perform if he does not enlist, says the horticulture department of the university. Back yards and vacant lots will yield astonishingly large quantities of food if handled rightly.

Be careful planning, more than one crop can often be grown on the same sòil the same season. By companion cropping, plants can be grown succesfully as close as 6 inches apart.. Rotation, or the growing of crops in such order that the soil will not be drained of the same elements continuously also results in greater yields. Further plication to the college of agriculture.

Don't risk your summer's work by neglecting to protect your crops from Hail. A small amount will give you ample protection and the insurance we handle is of the best. Call and see us about it at once.
