## Take No Chances With Your Money

You cannot afford to. Sharks are always looking for easy marks. Do not let them victimize you. Interests on time deposits in our bank is a safe, sane, satisfactory proposition until you have accumulated enough to put into some investment. Then you can take advantage of some good sound investment opportunity. But do not, we beg of you, let your name be "E. Z. Mark."

The question is being asked nearly every day why the legislature gave women the right to vote on county officers and not on state officers nor county judges. The reason is that the legislature did not have the power to grant them the right. The office of county judge was created by the constitution of the state, and the legislature has not the power to change it. Certain offices were created by the constitution and nothing but a direct vote of the people can change them. Under the new law the women will have the right to vote for any office created by the legislature. The constitution of the state will have to be changed by a direct vote of the people before the women can be given the right to vote for all officers.—David City Banner.
