

SELECTED DRAWING HAS BEEN DRAWN AT WASHINGTON

Order for Liability for Service Established by Historic Lottery.

258 FIRST NUMBER OUT

Secretary Baker Takes Out Initial Number—Drawing Continues All Day Friday and Throughout Night.

Long List of Numbers Given in Order as Drawn, From Which Those Who Will Be Called to Serve in First Army Will Be Selected.

Washington, July 21.—The drawing for the big United States army was not completed until early Saturday morning. The drawing began at 9:45 Friday morning, and continued throughout the day and night. Altogether 10,500 numbers were drawn from the big fish bowl. It was officially stated that the first 1,000 numbers drawn represented more than 1,000,000 men, and it is not considered probable that men representing any number drawn after the first 2,000 will be called before any exemption board for the first army. The first eight numbers were drawn respectively by Secretary of War Baker, Senator Chamberlain of the senate military committee, Congressman Dent of the house military committee, Senator Warren and Representative Kahn, ranking minority members of the senate and house military committees; Maj. Gen. Tasker H. Bliss, acting chief of staff of the army; Maj. Gen. Enoch Crowder, provost marshal of the army; and Major General McCain, adjutant general of the army. After the first eight numbers had been drawn the regular tellers took hold, and worked through until the long task was completed.

In only a small number of the largest districts will the numbers above a few thousand affect registrants. Of the 4,557 registration districts throughout the country the largest has something over 10,200 numbers, while the smallest has only about 185, and the average is about 3,000. As the drawing proceeded, 157 numbers were withdrawn before one low enough to affect the smallest district came out. It was 126, placing 4,557 men numbered 126 on their local lists as 157th in order of liability.

The following list shows the numbers in the order in which they were drawn. The first number in each case represents the order in which the second, or red-ink registry, number was taken from the bowl. Four numbers are given in each line. Beginning with the first number, your number was drawn by Secretary Baker.

INSURANCE MEN ON GUARD

There is a mutual understanding between all the first-class insurance offices that they should warn each other of a customer whose conduct is suspicious, and such a warning is effected in a very simple yet effective way, says London Tit-Bits.

SAVING KID IN HOUSEHOLD

Every householder and owner of a small house heating plant in the state of Illinois would use reasonable care in the purchase of his fuel and in the operation of his plant, the saving would be equivalent to 4,500,000 tons of coal.

Death in Life.

What we call "death" is, after all, merely the culmination, premature or natural, of the dying that is going on within us every minute. Every body strikes, every thought we think is accompanied by the death of a certain amount of muscular or nervous tissue.
