"The Mediator", George Walsh's new photoplay for William Fox, was also author of "The Plunderer", a former Fox picture. Mr. Norton himself lived the life of the wild West in its days of pristine glory, and he knows the characters he depicts. That was why he was able to put so much red blood and quaint good humor into the story of the film which Otis Turner directed. Norton was among the first of those restless spirits who were argonauts of the Klondike. But he was unlike many of those restless spirits who left their bones among the snows of Alaska. Norton struck it right, and he now owns Blue Devil, one of the richest mines in the Yukon district. It has an annual output of about \$95,000. Consequently, Norton is able to take his time about writing books. Opera house, Saturday, Sept 8.

Investments for Small-Grain Funds

Before long small-grain marketing will begin in earnest. Farmers will begin to realize on their crops. Naturally, more funds will be received than there will be immediate need of. Such surplus funds are safely and profitably disposed of by investment in Certificates of Deposit. Your money is payable on demand when invested in the C. D.'s issued by this bank and earn 5 per cent interest.

Plumbing and Heating a Specialty

Put your wheat in the corn, and the corn in the wheat fields, with the five disc Van Brunt one horse drill.

I do not claim to be clever but I do claim to know a good thing when I see it and that is why I bought 25 Van Brunt one-horse disc drills, to help you to get this wheat in the corn. I felt sure the proposition would appeal to you. Of course you know full well that extra effort must be employed to get more wheat sowed this fall than ever, sitting down and waiting won't even catch fish, unless you throw out a properly bated hook on the end of a line.

Do not wait for rain to plow. Put your wheat in the corn field and take advantage of my buy. Come in and get one of these drills.

GENERAL CONSTRUCTION.

Like all other Van Brunt drills, this is light draft because it is light weight, well balance, frame is heavy steel, well braeed, has the famous Van Brunt adjustable gate force feed which compels an even flow of seed from hopper. Drill is provided with fenders so constructed as to prevent cornstalk or trash from lodging or clogging. The disc bearing is practically indestructible, as hard as flint and runs constantly in a bed of oil meeting with minimum friction. We replace free of charge all bearings that wear out. One oiling per season is generally enough. Close fitting scrapers keep disc absolutely clean.

Electrified Homes

Electricity is now fast superceding old methods in many departments of the home. The modern home—the COMFORTABLE home—now has

**Electric Heaters
Electric Irons
Electric Lights**

and many other labor saving and cost saving appliances. It is the ideal force—no danger, no annoyance, no failure. You are losing half the enjoyment of life if your home is not electrified. Let us wire your house for lights.

We handle the Almo Lighting systems for farm homes. Call and let us explain them to you.
