Fox child player stirs emotions of company making new picture. Violet de Bicari, who has made a nationwide reputation for her excellent work in previous William Fox pictures, appears again in "The Battle of Life," the new film starring Gladys Coburn. Miss de Bicari plays the part of Mary Bond when Mary is a child, a role that calls for only a short space of emotion acting. A stranger happened to be visiting the studio on the day when Miss de Bicari acted the scene in which her film mother dies. The little girl shaken with sobs, threw herself on the bed across the prostrate form of the woman. There were tears in the eyes of Director Vincent as he called instructions to the child actress, and camera man Rene Guissart needed an extra hand for his handkerchief. "Has everyone about this place got a cold?" the visitor asked in gulping tones. No, answered the director, "but we've just been watching Violet act. When she cries for a movie, she sets the whole force weeping. Opera house, Sept. 15

Plumbing and Heating a Specialty

Put your wheat in the corn, and the corn in the wheat fields, with the five disc Van Brunt one horse drill.

I do not claim to be clever but I do claim to know a good thing when I see it and that is why I bought 25 Van Brunt one-horse disc drills, to help you to get this wheat in the corn. I felt sure the proposition would appeal to you. Of course you know full well that extra effort must be employed to get more wheat sowed this fall than ever, sitting down and waiting won't even catch fish, unless you throw out a properly bated hook on the end of a line.

Do not wait for rain to plow. Put your wheat in the corn field and take advantage of my buy. Come in and get one of these drills.

GENERAL CONSTRUCTION.

Like all other Van Brunt drills, this is light draft because it is light weight, well braced, frame is heavy steel, well braced, has the famous Van Brunt adjustable gate force feed which compels an even flow of seed from hopper. Drill is provided with fenders so constructed as to prevent cornstalk or trash from lodging or clogging. The disc bearing is practically indestructible, as hard as flint and runs constantly in a bed of oil meeting with minimum friction. We replace free of charge all bearings that wear out. One oiling per season is generally enough. Close fitting scrapers keep disc absolutely clean.
