The farmer's wife consented and the woman was taken into the house, to be followed by her trunk which was in the wagon. The man drove off and has not been seen since.

The woman became ill shortly after being taken into the house and a doctor was summoned. Before he arrived she had given birth to a child and had died. She was so ill that the farmer's wife was unable to question her satisfac-torily. After her death her trunk and her clothing were searched, but there was not the slightest thing which would lead to her identification. Her body was buried in the cemetery and the event is probably forgotten by this time. A Peculiar Accident.

Kearney dispatch: A very peculiar and painful accident happened to a young man just south of the river in Phelps county Saturday night. He was out in the yard barefooted when a boit of lightning struck him on the right side of the head, burning his hair as if touched with a candle. The fluid then passed down his neck, across his chest and down his left side, going out at his left foot and tearing it to pieces. The heel was completely torn away, and nothing was left of the foot except a strip from the instep to the big toe, all the other toes being torn out, and the foot had the appearance of being run through a threshing machine. He was immediately brought to the city and his foot amputated. He is now on a fair way to recovery, and aside from the loss of the foot suffers no effects from the shock. It is supposed that he had his left foot on the ground at the time of the stroke and that is the cause of the strange phenomena.

A Valuable Horse Stolen O'Neill dispatch: O'Neill horsemen are considerably agitated over the theft of Kay S, record 2:2914, owned by B. A. Deyarman, which occurred here recently. STRIP PRAIRIE ABLAZE.

An Ocean of Flame Devastating the Cherokee Country.

Klowa, Kan., Sept. 30 .- A terrible prairie fire is raging in the western portion of the Cherokee strip and sweeping everything before it in its restless progress. A high wind is blowing and the roar of the leaping flames can be heard for miles. The scene is appalling in the extreme, as the fiery billows whirl along devouring everything in their path. The fire started south of this place and it was hoped that when the track of the Southern Kansas railroad was reached it would check its course, but the flames leaped over the track like a whirlwind and are now tearing along with nothing for 100 miles to stop them. A number of farmers' houses have been burned, besides innumerable haystacks. Three houses near Alva also burned with all their contents. There are a number of ranches in the path of the fire stocked with hundreds of cattle and the loss is bound to be enormous unless the progress of the fire can be stayed, which now looks impossible.

FIVE SHOTS AT BANKERS.

An Ex-Kansas Cashier Attempts to Revenge the Loss of a Suit-Nouron, Kan., Sept. 26,-In 1893 the

Norton County State bank of this city, of which Morgan Heaton was cashler, failed. There was some talk at the time of mismanagement by Heaton, but the real cause was the sudden depreciation of land values. Heaton's wife owned ninety-six shares of stock. In January, 1894, the bank was reorganized under new management, and Mrs Heaton was requested to assign to them her stock. She refused.
Later, she alleged, she did assign the stock to avoid a threatened prosecution of her husband for embezziement. She also signed a deed to the homestead property and some school land certificates. She later brought suit to recover the value of the stock, \$9,600, and to set aside the deed to the homestead and other land. because they were signed under duress. The department of justice does not see how redress can be obtained for the Indians who have paid their fines. Recent reports of Agent Teter are quoted to show that the Indians are still sullen and that they demand that the whites who wronged them be punished and the commissioner asks whether or not the department of justice cannot do some-thing towards punishing the offend-

A Soap for Cleaning Silk. A soap for this purpose is made by heating one pound of coconnut oil to 96 degrees F., adding half pound caustic sods and mixing thoroughly. Then heat half pound white Venetian turpentine, add to the soap and again mix thoroughly. The mixture is covered thoroughly. The mixture is covered and left four hours, then heated again and one pound of ox gall is added to it and well stirred. Next pulverize some and well stirred. Next pulverize some perfectly dry curd soap and add it to the gall soap in sufficient quantity to make it solid—one or two pounds of curd soap will be needed. When cold the mass should be pressed into cakes.
