No people suffer so much from physical disabilities as those whose business requires little or no muscular exertion. The lack of exercise causes the liver to become sluggish and the result is constant Constipation, Indigestion, Biliousness and Sick Head Ache. To prevent this take Simmons Liver Regulator; it keeps the liver active and makes one's condition as comfortable as those who have much exercise.

An exchange says: At 20, when a man is young, he thinks he knows it all he likes to wag his active tongue and exercise his gall; he struts around in noble rage, the world is all his own; he laughs to scorn the world of age and lists to self alone. He wears a widow in his eye to see his whiskers grow; he thinks the ladies pine and die because they love him so. At 40, as you may suppose he's knuckled down to biz; 'tis not till 60 that he knows how big a champ he is.

This office acknowledges a pleasant call from R. L. Bissell who made us happy to the tune of \$4.00 on subscription which amount pays up all arrears and one year in advance to this reliable Journal. Peter McKoon, Supervisor of district No. 9, came into our actum with his usual pleasant smile and deposited \$2.00 on our table and asked to be credited with that amount on subscription. We apprehend he won't have much trouble in gaining admission when Gabriel toots his horn.

Billie Oltman has been entertaining the boys around town by imitating a threshing machine. At first it was very funny and they gave him cigars and tobacco to get him to do it. Billie began the fun about two weeks ago and is still at it. At first it was entertaining but now it has become a bore, and we understand they are giving him cigars, tobacco, and now and then a nickel to stop. He always stops when he is bought off, but he tunes up again when the supply runs short. Billie seems to have a lead smith on obtaining a good supply of these articles for some time to come. It seems to be no trick at all for Billie to pull his string on the boys whenever the occasion requires it.

County Clerk Rein made this office a business call yesterday and withal a pleasant call. He spent some time and improved the opportunity of grasping as much knowledge of the printers trade as possible. On being shown the printers stick he at once was curious to know if that was not our usual weapon of warfare and suggested that it looked like a very nasty instrument to swipe a man over the head with. We explained to him that the printers stick could be used as he indicated, but that a bunch of slugs or a handful of leads would answer the same purpose just as well, and that the stick was only used as a weapon of warfare in setting up composition, in which a warfare of words often appear in print. At this suggestion Rein "got gay," and in a joking manner said that our mind should not be occupied with "such things." Really we beg his pardon and apologize by saying, that such thoughts would never have entered our head had he not suggested them and appeared anxious to know all about it. And then again, because he intimated that if ever we threw a bunch of leads or slugs at him he would turn his back and receive them on the cushion of his spinal vertebra, and of course that would spoli the leads, which are a very costly article and we could not stand the loss.

If slugs at Rein should ever be thrown they sure would make him hustle: He would turn his back as he has shown. And receive them where Sarah wore her bustle.

Those who are indebted to me for twine or otherwise please call and settle at once as I need the money due me.

**A TENTION**

**Some Merchants**

angle for trade just as boys catch fish. They have showy bait (prizes), but underneath are sharp barbs (cheap goods) which in the long run costs the unsuspecting customer dearly. This is not our method. When you call on us we do not try to make you think that you are getting something for nothing but we sell you the best goods we can buy, at the LOWEST possible price.

**FLOUR!**

We are still handling the world-renowned Washburn Crosby Company flour (which by the way, is ground in Minneapolis, Minnesota) which has given our customers excellent satisfaction every time. Read what Washburn Crosby Company say in regard to it: "There's as much difference in the flour of some mills, as there is between an old windmill and the most modern milling plant in the world. Such are the famous mills of Washburn Crosby Company, in Minneapolis, Minnesota, U. S. A., having a capacity of 13,500 barrels daily. Equipped with the very latest improved machinery for grinding the celebrated, "No. 1 Hard" wheat of Minnesota and Dakota, their well known "Superlative" and "Gold Medal" brands, are recognized as the standard of high grade flours where ever they are used."

"This flour contains a large percentage of the gluten of wheat, and a very small proportion of starch, and for this reason bread made from it, does not become dry and tasteless but retains the sweet flavor of the flour, and will keep moist for several days."

"See that the firm name, Washburn Crosby Company is on every barrel or sack of flour you buy, to insure your having the genuine article."

We also handle the Crete, Neb. flour, which as every one knows, is the best made in this state.

**SHOES!**

Leather took the lead of sugar in making an advance, but we will sell shoes at the old prices for some time, though they will probably advance slightly before long. We handle Bradley & Metcalf's famous shoes which are guaranteed to be as represented or your money refunded.

**CANNED GOODS DRIED FRUITS.**

Canned goods are yet quite low and will probably remain so for some time. A few prices will tell the tale.

The dried fruit market is much the same with little chance of an advance for some time. Prices are never amiss:
