The singing was followed by decoration exercises in which members of the Post and Circle gathered around the Cenotaph and the little children came in and scattered the beautiful flowers in honor to fallen comrades. Miss Carrie Holcomb represented the Goddess of Liberty.

Sunday School Convention. The Quarterly Sunday School convention was held at Cleora, May 31st in spite of the threatening clouds, large delegations were present from the various schools of our county, thus showing their interest in this grand work. The morning session opened with a Song service, in which all joined heartily, followed by the address of welcome by George Engles, of Cleora, which seemed hardly necessary for the beautiful flowers so tastefully arranged showed that loving hearts and willing hands had anticipated our coming. It was responded to by J. A. Angier of Loup City in a few well chosen remarks. After the Devotional led by Mr. E. G. Holmes a profitable hour was spent in the study of the Sunday School lesson, Destruction of Jerusalem Foretold. Luke, 21:20-36. No. of S. S. Supt. present 4 Teachers " 14 Officers " 7 Convention adjourned until 2 p. m. 2 P. M. Devotional led by Rev. Shoemaker, of Litchfield. A half hour was given to the reports of the various schools and out of the 13 S. S. in the county 11 were reported. The business meeting was then opened by the President. A letter from our State Pres., Rev. H. W. Trueblood, D. D., of Kearney was read, also parts of the constitution of the State Association. The question shall we send a delegate to the State Convention at Omaha July 27-29? was then discussed. A great deal of interest was shown in the matter as this is the 29th Annual State Association and Sherman county has never been represented. A motion made and carried that Association send a delegate to said meeting and pay the expenses of said delegate. Motion made and carried that the money in the treasury be used for that purpose and each school bear its share. Miss Converse of Loup City was then chosen by a motion as the delegate to represent this county at the State convention. The subject of House to house visitation and Rally Day were then discussed. A motion made and carried that a committee of three be appointed to district the county and appoint committees in said district to engage in House to house visitation. Rev. Webster, Rev. Shoemaker and J. A. Angier were appointed as committee. An invitation was then extended by the U. B. S. S. of Litchfield for the Association to meet with them in three months. Motion made and carried that the Association accept the invitation. Motion made and carried that the next convention hold a two days session. A class song was then given by Gray's School. Discussion by Rev. Webster, subject "Are Lesson Helps beneficial in S. S. work?" Responded to by Mrs. C. F. Johnson, of Loup City. Reading subject "How one Supt. succeeded in getting the Bible read," by Mrs. Edwin Angier. "Class song Cling to the Bible," was well rendered by the children of Cleora. A talk by Rev. Shoemaker on The Duty of the Church Members to S. S. in which he urged the attendance of the parents in the S. S. as an example is more powerful than precept with the children. An interesting discussion then followed upon "In what way is convention work profitable," and the session closed with short talks on What have I gained from the Convention. McAlpin of N. Y. for Vice-President. Now that the St. Louis convention has been reduced practically to the importance of a ratification meeting, so far as the nomination for the presidency is concerned, the chief interest as to the ticket centers in the vice presidency, and for once that office is receiving particular attention now, nearly a month before the convention. A strong effort has been made to induce Mr. Reed to accept the office, and Governor Morton has been considered for re-nomination, but the feeling is general that neither one of these gentlemen has anything to gain by accepting the office, or would be likely to do so. There seems to be a disposition to give this office to New York again, and numerous other New York candidates are spoken of. General Tracy, Mr. Bliss and others have been proposed. There appears to be a very well-developed, vigorous and promising movement to bring forth General E. A. McAlpin, president of the National Republican league, as the man upon whom all the factions in New York can unite, and in support of whose nomination the republican party in the state can be enlisted heartily and enthusiastically. Until the past year General McAlpin was not known to the country at large as an active republican leader. He was brought prom-

inently before the country, however, at the Cleveland convention of the national republican league a little less than a year ago, when he was chosen president of that organization. He has, however, been active in his own state, has always been relied upon as a safe and trustworthy advocate of republican principles, has been president of the state league of republican clubs, and favorably regarded as a candidate for the office of governor, and is identified with the present state administration as adjutant-general of the state. In New York this is an office of considerable importance, as the militia of New York is undoubtedly the best organized and the best equipped citizen soldiery in the world. General McAlpin is at the head of this superb organization, and, although actively engaged in business, gives to his public duties a large share of his time, and is the directing and leading spirit of this organization. E. A. McAlpin, it is claimed here, has the hearty endorsement of the leaders on both sides of the local political quarrel, and will be supported by them with good will and enthusiasm. He is the manager of a very large and successful manufacturing business, and, it is said, has a record as an employer of labor which will be approved by the workmen of the country. Of course, it is not contended that McAlpin is a man of large experience in public affairs, or that he would bring to the office the ability and qualifications of such a man as Reed, and he is not to be considered from the same standpoint, but his business ability and his personal character command respect, and the thing which seems especially to commend him at this time is his supposed ability to harmonize the factions and deliver the state of New York to the republican ticket, and the further fact that as a successful business man, at the head of a large manufacturing enterprise, he is in thorough sympathy with the business interests of the country, and would bring to the ticket additional confidence from that quarter. A fact, too, which will certainly not operate to his disadvantage if his name should be brought before the convention is that there are 340 members of the republican league who are delegates to the convention. —Minneapolis Journal.
