Probably never in the history of Nebraska, says the Davenport Journal, has a larger acreage of corn, and better prospect for the crop, been witnessed than can now be seen in the south Platte country, the garden spot of the agricultural west. Many fields of corn in this vicinity will yield 60 to 75 bushels per acre, and the conservative farmers put the average yield at 40 bushels per acre.

The Nebraska irrigation fair this month, at North Platte, is a good sample of western enterprise. A large reservoir has been constructed within the fair grounds containing many acres, surrounding which the pumping machinery will be erected and put into operation showing by actual test the merits of the various machines. Irrigated farms will be opened up for the inspection of visitors, showing how the water is taken from the canal to the laterals and from them to the cultivated fields.

It will be a matter of interest to all wheelmen throughout the state, to know that an Omaha man made a new state record for the half-mile unpaired, last week. The new record was made by Bert Potter, who rode the distance in 1:03, bettering the former record by one and two-fifths seconds, in being 1:04 2/5. The record is official, as it was duly sanctioned, despite the fact that the trial was a private one. It was made out at the new state fair grounds, where a number of local racers went after the records. Potter was the only one in the bunch who was able to touch the marks that have already been made.

The Rock Island (Ill.) News says: One of the most attractive features at the county fair at Joslin, and one which in many respects proved a revelation, was a display of Nebraska products, arranged by M. L. Williams, a former Rock Island county boy who is now in the real estate business at Lincoln, Neb., under the auspices of the C. R. & Q. Ry. Co. We say advisedly that the display was a revelation, for few of our farmers had any idea that Nebraska was capable of producing those crops upon which they especially pride themselves in such superior quality as were there displayed. The display represented about three carloads of grains, fruits and vegetables.

S. B. Colson of Fremont, who died last week, was for over thirty years a sufferer from asthma. In 1859 he came to Fremont and homesteaded a 80-acre tract of land on section 15, Platte township, which he owned when he died. He continued to work at his trade at the same time taking charge of his land until 1865. In 1866, when the Union Pacific railroad was built through Fremont, he took charge of the station there and continued in that capacity three years. He then served two terms as treasurer of Dodge county. Though of frail physique and always having the appearance of a man whose days on earth were few, he was an active, energetic business man and amassed a comfortable fortune.

Last week the Norfolk beet sugar factory commenced receiving beets, and each day the farmers of that locality have been delivering about 300 wagon loads, for which they receive \$5 per ton. In addition to those delivered by wagon great quantities have been brought in by rail. This has been a very favorable season for sugar beets, and they are looking very thick in sugar, nearly the entire crop being ripe and ready for market. There are nearly 5,000 acres contracted for the Norfolk factory, and the campaign promises to be a long and profitable one. The factory started up last week with a force of 500 men.

TRAIN ROBBERS FOILED.
THE LEADER SHOT DEAD BY A UNITED STATES MARSHAL.

THE HOLD-UP A FAILURE.

East-Bound Passenger Train Held-Up Thirty Miles From Albuquerque by a Band of Masked Men—Engineer and Express Messenger Covered by Fire-Arms in the Hands of Desperadoes.

ALBUQUERQUE, N. M., Oct. 4.—The east-bound No. 2 passenger train, due here at 8:45 from the west, was held up at Rio Puerco bridge, about twenty miles from this city.

As soon as the train pulled out of the station it was halted by several masked men and the express messenger commanded to open the doors of his car. A general fusillade of shots kept the passengers terrorized. Late accounts, although meagre, say that the messenger is still locked in, but a number of shots have been fired into the car.

At 10:10 o'clock a message was received from Rio Puerco stating that one of the robbers, Cole Young, is dead.

When the robbers jumped on the engine and compelled Engineer Ross and his fireman to uncouple the engine and express car from the train, Deputy United States Marshal Loomis, who was returning from the West, took in the situation and fired at the first man, killing Young. The robbers then commenced shooting, and shot a lantern from the hand of a brakeman. Rumors here that several others are shot, but this is not yet confirmed.

The hold-up was a failure financially, the robbers securing no money. Loomis thinks the hold-ups are the same gang that robbed the Separ post-office a few weeks ago and have been terrorizing Southern New Mexico, and that Young was the leader.

WIFE FOUND MURDERED.

Bloodhounds Trailing a Fiend Near St. Joseph, Mo.

ST. JOSEPH, Oct. 4.—Near Arkio, Mo., five miles north of here, yesterday afternoon some unknown man, presumably a tramp, entered the house of John Bomley while he was away and murdered his wife, who was alone at home. After a hard fight, and the breaking of considerable furniture, the man finally overpowered Mrs. Bomley, who was a powerful woman, and beat her brains out. All the rooms in which the fight took place are covered with blood. No cause can be assigned for the terrible crime other than the tramp found Mrs. Bomley alone and attempted to assault her. Posses are scouring Nodaway county, and if the man is caught he will be lynched. Bloodhounds have been ordered from Clinton county, Missouri, and the police of this city are watching closely for the murderer.

ONE THOUSAND KILLED.

Maceo Attacks Weyler's Troops and Shoots Spaniards.

KEY WEST, Fla., Oct. 4.—Advice received from Havana state that Antonio Maceo, in a recent attack on the trocha, inflicted terrible losses on the Spaniards, more than 1,000 being killed and wounded. The attack was planned at night and was carefully planned. The Spaniards were taken completely by surprise. They were aroused from sleep to find a hail of insurgent bullets falling upon them. General Arelas and his staff, half clad, rushed from their headquarters and tried to rally the Spanish troops, who were panic-stricken by the attack. It was half an hour before even a semblance of order could be restored to the Spanish column, and during that time the troops remained huddled together, an easy mark for the Cubans' bullets. It was during this period of the panic that so many of the Spanish troops were killed.

A Gettysburg Survivor.

From the Journal-Press, St. Cloud, Minn.

Each day, each month, each year, the Grand Army of the Republic is growing smaller. Almost each hour is some veteran soldier of the Rebellion responding to the call of the Great Commander and joining the army of the silent majority. At such an alarming rate is the death rate increasing among the army membership that statisticians tell us that it will be but a few years before the Veterans will be but a memory. It is for this reason that the entire public is interested to hear of the recovery from sickness of a comrade.

James M. McKelvey Post G. A. R., of St. Cloud, Minnesota, contains one such, Milton F. Sweet. No man stands higher in the community than does he and through his strict integrity and honesty of conviction he has won the respect of all who know him. Mr. Sweet has for many years been a resident of Minnesota, and for the past ten years has resided in this city, where he is engaged in the manufacture of carpets. He is now fifty-one years of age. He served in the war three years and
