Both Harrison and Hanna, it is said may have a place in McKinley's Cabinet, simply for the asking. They are both brilliant and able men and would stand up for good government.

The fight for Judge Greene's place is spreading out. Nightingale, of Sherman; Hand of Buffalo; McShery and Naylor, of Custer; Gillan of Dawson and several others are anxious to don the judicial ermine.—Kearney Sun.

At a meeting of the Jacksonian club, held at Omaha last week several sound money democrats were spotted and expelled from the order for having supported McKinley. Charges are preferred against forty other members for the same offense.

The treasury reports show that the Wilson tariff law was a failure from the start and that month by month as the result of its enactment, there has been a steadily increasing deficiency in the revenues. As a result an extra session of congress is necessary and almost sure to be called.

It seems that the independent papers cannot quit howling calamity long enough to tell their readers that a large number of the manufacturing industries of the country have resumed work since the election of William McKinley, and that up to date over 250,000 idle men have found employment. The daily papers are full of this kind of news, but the pop papers still continue to bore the readers with the same old "tale of woe."

Silas Holcomb is one of the few pop governors that have been elected in this country, and he it is said to his credit, he is not one of the Waite, Lewelling or Altgeld stripe. If he had been, you can bet Nebraska would have gone republican this year. On the whole Mr. Holcomb has made a pretty good governor. If the balance of the officers elected to fill the responsible positions at the state house will do no worse than Mr. Holcomb, there will be no reason for fear or lack of confidence.

The annual meeting of the Nebraska Dairy men's Association will be held in the chapel of the State University, Lincoln, on December 15 and 17, 1896. The opening session will be in the evening of the 15th. At this meeting, the papers read and discussion had will be altogether on subjects of a practical nature and of most interest to all engaged in the dairy industry. Peculiar interest attaches to this meeting from the fact that on this occasion will take place the formal opening of the Dairy School, a new branch of education in connection with the work of the State University. The dairy building is on the state farm, and one session of the annual meeting will be held at that building.

A few weeks ago we called the attention of our readers to the fact that an organization in this county had been gotten up by the free silver element and which styled itself as the "Patriots of America." From what information we could gather then, we were satisfied that the intention was to get all the republicans they could to join, by representing to them that politics was out of the question. We have positive proof now that it is a political scheme and only intended to further the free silver cause, and collect membership fees for campaign

funds. Our proof is absolute. It is a copy of their official organ, the November number of the Patriots' Bulletin which we found on our desk among other exchanges. It is published at Chicago by the Coin Publishing Co. Coin Harvey is one of the national officers. The paper contains a monthly statement of dues paid in from all subordinate lodges. It contains sample application blanks requiring its applicants for membership to send \$2.00. It requires every member to take a solemn obligation under oath to treat in confidence the rules and ritual of the order.

The reading columns of this paper uses the most abusive language towards the republican party, charging them with fraud in the recent election, calling them anarchists, and declaring that they stole several states. It publishes Altgeld's speech, and speaks of him as "The Heroic Altgeld." The paper, all through, takes the most radical stand in politics of any paper we have read during this campaign, and yet members of this organization tell us that "there are no politics in it." We again warn our republican friends to beware of the organization that styles itself "Patriots of America."

The business men of this state will not be found bellowing around the streets or in the halls at political meetings that "the struggle for free silver has just begun" or any other such foolish war cry to increase the suspicions of eastern capital of our intention to pay our debts honestly.

The "struggle" might as well be dropped until we get on our financial feet again. It is more important and will be for the next four years to build up our languished manufacturing interests, improve our farms and cultivate as much as possible of our soil for the production of paying crops, then it is to keep up the din against sound currency and scare capital from our borders. Once in four years is enough for that kind of thing. Let us have peace.—State Journal.

Nov 10th 1896—Full Board present with attorney and clerk.

It appearing to the Board upon the showing made by assessor J. A. Angler, of Loup City township and by Henry Ohlsen, that errors had been made in the assessments for the years 1895-96 on certain tracts of land in said township herein after described it was on motion ordered that the assessment for 1895, of \$68.00 of the tract described as part S.W. 4-18-15-14 be reduced to \$6.00 and that the assessment of the same tract at \$68.00 for the year 1895 be reduced to \$6.00 and that the assessment of \$6.00 for the year 1896 of the tract described as part N.E. 4 S. W. 4 18-15-14 be raised to \$80.00 and the county clerk is ordered to make the required changes on assessment books and tax lists for said years.

Upon considerations of the correspondence had by the clerk of Sherman County with the county clerks of other counties operating poor farms and maintaining poor houses, relative to such poor farms and poor houses, which correspondence was ordered to be had, by County Board at a previous meeting, and it appearing from said correspondence that the cost of maintaining a poor house in connection with a poor farm was very large in the counties heard from, and much exceeding the income derived from the poor farm, it was, on motion, resolved not to construct a poor house at this time, but to lease the poor farm as done by the county heretofore, and the county clerk

is SIMMONS LIVER REGULATOR—don't forget to take it. The Liver gets sluggish during the Winter, just like all nature, and the system becomes choked up by the accumulated waste, which brings on Malaria, Fever and Ague and Rheumatism. You want to wake up your Liver now, but be sure you take SIMMONS LIVER REGULATOR to do it. It also regulates the Liver—keeps it properly at work, when your system will be free from poison and the whole body invigorated. You get THE BEST BLOOD when your system is in Al condition, and that will only be when the Liver is kept active. Try a Liver Remedy once and note the difference. It takes only SIMMONS LIVER REGULATOR—it is SIMMONS LIVER REGULATOR which makes the difference. Take it in powder or in liquid already prepared, or make a tea of the powder; but take SIMMONS LIVER REGULATOR. You'll find the RED Z on every package. Look for it.  
J. H. Zeilin & Co., Philadelphia, Pa.

Wake up your liver with a twenty-five cent package of Simmons Liver Regulator—enough to wake up the liver of the whole family. A dose a day is enough, and a small one at that, but it will do the work well and without discomfort. It is the Best Blood and Best spring medicine. It is the sluggish liver that clogs the system and poisons the blood. Wake up the liver. J. H. Zeilin & Co., Philadelphia Pa.
